Court No. 26-01472

THREE-JUDGE COURT REQUESTED

COMPLAINT

1. The Constitution assigns to Congress, not the President, the “Power To lay and collect Taxes, Duties, Imposts and Excises.” U.S. Const. art. I, § 8. “The power to impose tariffs is very clearly a branch of the taxing power.” *Learning Res., Inc. v. Trump*, 607 U.S. ---- , 2026

WL 477534, at *7 (U.S. Feb. 20, 2026) (citation modified). Congress has delegated limited authority to the President to impose tariffs only in carefully defined circumstances.

2. For more than a year, the President has imposed, modified, escalated, and suspended tariffs by executive order, memoranda, social media post, and agency decree, without legal authority to do so. These tariffs have been remarkably broad with global scope. To implement his tariffs, the President first relied on a 1977 statute that the Supreme Court has now ruled does not authorize the imposition of tariffs at all—the International Emergency Economic Powers Act (“IEEPA”). That statute had, unsurprisingly, never been used to attempt anything of the sort.

3. Having lost the battle on IEEPA, the President now dusts off a separate statute: Section 122 of the Trade Act of 1974, 19 U.S.C. § 2132, which is another statute that has never been used to impose tariffs. Indeed, it has never been used at all.

4. The same day the Supreme Court invalidated his recent IEEPA tariffs, the President began to sidestep its ruling by imposing a 10 percent tariff on most products worldwide pursuant to Section 122. Proclamation No. 11012 (Feb. 20, 2026), 91 Fed. Reg. 9339 (Feb. 25, 2026) (“Section 122 Proclamation”) (Compl. Ex. 1). The next day, he announced via a Truth Social post that he would raise the worldwide tariff rate to 15 percent. Donald J. Trump (@realDonaldTrump), Truth Social (Feb. 21, 2026, at 07:56 ET), <https://truthsocial.com/@realDonaldTrump/posts/116109447886304328> [<https://perma.cc/AA4X-QJZB>]. The 10 percent tariffs went into effect on February 24, 2026. On March 4, 2026, the Secretary of the Treasury stated that the United States will increase tariffs on most global imports to 15 percent this week. Alan Rappeport, *Bessent Says Global Tariffs Will Rise to 15 Percent This Week*, N.Y. Times (Mar. 4, 2026, at 11:11 ET), <https://www.nytimes.com/2026/03/04/business/economy/bessent-trump-tariffs-15-percent.html>.

5. Contrary to the purpose and limited delegation of Section 122, President Trump has invoked this statute to impose immense and ever-changing tariffs on whatever goods entering the United States he chooses and for whatever reasons he finds convenient. As with his unlawful use of IEEPA, the President has once again exercised tariff authority that he does not have—involving a statute that does not authorize the tariffs he has imposed—to upend the constitutional order and bring chaos to the global economy.

6. Section 122 exists to permit a limited tariff authority to address “fundamental international payments problems” that require “special import measures to restrict imports” to deal with “large and serious balance-of-payments deficits,” among other things. 19 U.S.C. § 2132(a). Here, the President has invoked as justification a purported “balance-of-payments” deficit.

7. The President’s purported justification is fatally flawed. First, the President is contorting the term “balance of payments,” redefining it contrary to its meaning and cherry-picking only the *negative* components that make up the balance of payments, while ignoring entirely the huge net *positive* financial inflow components that also make up the balance of payments. Second, a balance of payments crisis is a *currency* crisis that was of great concern when Congress enacted Section 122, but which can no longer exist following the formal end of the fixed-rate currency exchange system in 1976. For these reasons, the President cannot meet the statutory requirements of Section 122, and his effort to impose tariffs under this statute is unlawful.

8. The balance of payments consists of three components: the current account, the capital account, and the financial account. *See* U.S. Bureau of Econ. Analysis (“BEA”), *Balance of Payments* (Apr. 11, 2018), <https://www.bea.gov/help/glossary/balance-payments> [<https://perma.cc/P4Y3-DFS9>].

9. The current account is a record of net receipts or payments on goods, services, income, and unilateral credit transfers. BEA, *Balance on Current Account*, <https://www.bea.gov/help/glossary/balance-current-account> [<https://perma.cc/6JCY-7E7W>]. The *current account* is what the Section 122 Proclamation addresses and misconstrues as the “balance of payments” as a whole. Section 122 Proclamation ¶¶ 6–9. In particular, the Section 122 Proclamation focuses on *trade* deficits. But the balance of trade is just *one component* of the current account, which itself is just *one component* of the balance of payments.

10. Contrary to the Section 122 Proclamation, a trade deficit is not a balance of payments deficit. Indeed, Section 122 expressly differentiates between “balance of payments” and “balance of trade.” *Compare* 19 U.S.C. § 2132(a) *with* 19 U.S.C. § 2132(c).

11. The President’s Proclamation completely ignores the balance, so to speak, of the balance of payments: foreign capital and financial investment inflows into the United States, which are essential components of the definition of the “balance of payments,” and are what balances a trade deficit in the balance of payments today.

12. The Section 122 Proclamation cites a \$1.2 trillion goods trade deficit in 2024, and states that it “remained at approximately \$1.2 trillion” in 2025. *Id.* ¶ 8. But when foreign capital and financial investment inflows into the United States are included, as they must be, the United States’ actual balance of payments is approximately \$53 billion, or 0.2 percent of the United States’ GDP—essentially a rounding error.

13. Section 122 does not grant the President authority to impose tariffs based on a trade deficit. Nor does it allow the President to redefine the statutory term “balance of payments” to extend only to the negative subcomponents (and not the positive subcomponents) of the balance of payments that the Proclamation has cherry-picked.

14. Rather, Congress drafted Section 122’s “balance-of-payment deficits” language to account for a particular scenario that is possible in a fixed-rate exchange system where dollars are convertible to gold or other foreign currencies at fixed rates, but not in today’s floating rate exchange system. In a fixed-rate world, it was possible for large imbalances to occur in currency settlements, requiring the United States to intervene to buy or sell currency in order to preserve a fixed exchange rate. It is this type of significant imbalance that Section 122 addresses.

15. Congress enacted Section 122 in the aftermath of two things: (1) a dizzying array of monetary problems manifesting around the early 1970s, including large deficits in the balance of payments tied to the increasingly-antiquated fixed-rate exchange system that had been in effect since 1944; and (2) the “Nixon Shock”—President Nixon’s attempt to address a shortage of U.S. gold reserves by unilaterally suspending the convertibility of dollars into gold and imposing duties and other policies via the controversial Proclamation 4074. Proclamation No. 4074, 85 Stat. 926 (1971).

16. Congress had ample reason to enact a new statute to provide definition for, and constraints on, the tariff authority of the executive in such a system. Currency controls had come and gone before, and President Nixon himself intended to return to the earlier fixed-rate system, although at rates more advantageous to the United States. The end of the fixed-rate exchange was not officially formalized until 1976.

17. Today, the United States operates in a floating rate exchange system, not a fixed-rate one. Unlike in a fixed-rate exchange system, in the floating rate currency system, there is never a “large and serious balance of payments deficit,” because the exchange rate automatically adjusts.

18. As Milton Friedman predicted in the 1960s:

[A] system of floating exchange rates completely eliminates the balance-of-payments problem—just as in a free market there cannot

be a surplus or a shortage in the sense of eager sellers unable to find buyers or eager buyers unable to find sellers. The price may fluctuate but there cannot be a deficit or a surplus threatening an exchange crisis.

Milton Friedman & Robert V. Roosa, *The Balance of Payments: Free Versus Fixed Exchange Rates* 15 (1967).

19. Section 122 also requires that tariffs “be applied consistently with the principle of nondiscriminatory treatment” and “of broad and uniform application with respect to product coverage,” subject to narrow exceptions. 19 U.S.C. § 2132(d), (e). Nevertheless, the Proclamation exempts many goods from Canada, Mexico, Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua. Section 122 Proclamation ¶¶ 14(l)–(m). It also includes more than 80 pages of product exceptions. *Id.* Annexes I, II (91 Fed. Reg. 9345–9432).

20. The President’s attempt to use Section 122 to impose his desired tariffs is as lawless as his prior use of IEEPA. The President has made clear that he is going to impose worldwide tariffs by any means necessary. Until last month it was IEEPA, now it is Section 122, but the policy is the same—an exercise of completely unrestrained executive power in an attempt to usurp the taxing power that the Constitution vests in Congress, not the President.

21. But “[i]n light of the breadth, history, and constitutional context of” the authority to tariff, the President “must identify clear congressional authorization to exercise it.” *Learning Res., Inc.*, 2026 WL 477534, at *13 (Roberts, C.J., plurality). Such authorization cannot be found in Section 122 and its application to balance of payments deficits.

22. Were the President to find the endless tariff authority he seeks based only on his decision to conflate trade deficits alone with balance of payments deficits, he would be seizing power from Congress unconstitutionally. “The Constitution lodges the Nation’s lawmaking

powers in Congress alone, and the major questions doctrine safeguards that assignment against” such “executive encroachment.” *Id.* at *14 (Gorsuch, J., concurring).

23. The President has no authority to impose tariffs under Section 122 as he has done here. The text and history of Section 122 confirm that the President has not met the statutory prerequisites for its use. Section 122 cannot be invoked merely to address trade deficits on their own, and the President does not have the discretion to use clearly erroneous propositions about terms of art to support his tariffs.

24. Because these tariffs are unlawful, this Court should declare that they are not in force, enjoin the Defendant agencies and officers from enforcing them, and vacate the agency actions implementing them.

FACTUAL AND LEGAL BACKGROUND

A. The Balance of Payments and the Balance of Trade

57. A fixed-rate exchange system has not existed in the United States since a gold standard was formally abandoned in 1976, after being in flux starting in 1971. The United States experimented with different fixed-exchange rate systems in its history, but the U.S. has had a floating rate exchange system without interruption from that point until today.

58. In 1944, the United States set in place a system, known as the Bretton Woods system (a moniker deriving from the meeting of 44 nations during the end of the war in Bretton Woods, New Hampshire), with the goal of stabilizing the international economic order following the anticipated end of World War II. The Bretton Woods system set up an array of policies and

entities to govern a new fixed-rate exchange system. Among other things, the system required dollars to be convertible into gold for the signatory nations.

59. As any economist can attest, fixed-rate exchange systems like the gold standard can have some benefits, but they can also create longer term economic problems, including currency volatility, devaluation, and inflation. The United States experienced these issues both times a fixed-exchange rate system was in place.

60. In 1971, the United States had experienced a series of large deficits in its *balance of payments* related to the fixed-rate exchange system, which obliged foreign central banks to buy dollars to prevent their currencies from appreciating. This balance of payments deficit led to foreign central banks holding a large stock of dollars. This surplus of dollars resulted in the United States having insufficient gold to cover the volume of dollars in worldwide circulation.

61. The balance of payments, which Congress incorporated into Section 122 of the Trade Act of 1974, is fundamentally an accounting concept that Congress incorporated as a legal term to define the nation's aggregate transactions involving goods, services, and investment between it and all other countries over a given time.

62. The balance of payments is made up of (1) a nation's "current account," which is a record of net receipts or payments on goods, services, income, and unilateral current transfers (U.S. government grants to foreign countries, private remittances, and other current transfers), (2) its "capital account," which is a record of capital transfers between U.S. residents and foreign residents, and (3) its "financial account," which is a record of transactions between U.S. residents and foreign residents resulting in changes in the level of international claims or liabilities, such as in deposits, ownership of portfolio investment securities, and direct investment. BEA, *Balance of Payments* (Apr. 11, 2018), <https://www.bea.gov/help/glossary/balance-payments>

[<https://perma.cc/P4Y3-DFS9>]; BEA, *Balance on Current Account* (Apr. 13, 2018), <https://www.bea.gov/help/glossary/balance-current-account> [<https://perma.cc/6JCY-7E7W>]; BEA, *Capital Account (International)* (Apr. 13, 2018), <https://www.bea.gov/help/glossary/capital-account-international> [<https://perma.cc/JF2H-ZQTD>]; BEA, *Financial Account (International)* (Apr. 13, 2018), <https://www.bea.gov/help/glossary/financial-account-international> [<https://perma.cc/88HS-HK7J>]. As discussed above, the balance of trade is just one component of the current account, which itself is just one component of the balance of payments, but there are other transactions (the capital and financial accounts) included.

63. On its own, a trade deficit is *not* a balance of payments deficit. The balance of payments could be considered as a grand balance sheet, with subsidiary profit and loss statements within it. One of those subsidiary statements (e.g., trade) might not be balanced (i.e., there may be a trade deficit), but can be—and as discussed below, is in fact—balanced by, for example, the capital and financial accounts.

64. In other words, a trade deficit is distinct from, and does not on its own generate, a balance of payments deficit.

B. Section 122 of the Trade Act of 1974

65. The U.S. Constitution provides: “The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States” U.S. Const. art. I, § 8. Congress has exercised this authority by providing an extensive statutory structure for “Duties, Imposts and Excises” on imports to the United States, which are codified in Title 19 of the U.S. Code. Section 122 is a delegation from Congress of a small part of its control over tariffs.

66. Congress enacted Section 122 of the Trade Act of 1974 to serve a narrow purpose—to govern the President’s authority to use tariffs in response to currency crises that could arise in a *fixed-rate* exchange system. As with IEEPA, no President has ever invoked Section 122 to impose tariffs. And although Congress enacted this provision at a moment when the global currency exchange system remained in flux, we have not returned to such a system since the fixed-rate exchange system was formally abandoned in 1976.

67. In 1971, President Nixon pursued a set of measures that became known as the “Nixon Shock.” President Nixon issued Proclamation 4074. Alongside unilaterally abandoning the United States’ commitment to convert dollars into gold that had underpinned the Bretton Woods system, the Proclamation imposed a 10 percent ad valorem duty on all dutiable imports to the United States along with certain price and wage controls. President Nixon articulated that the duties would force trading partners to revalue their currencies against the dollar.

68. President Nixon at least initially desired to return to a fixed-rate exchange system (with more favorable rates). Ted O’Callahan, *How the ‘Nixon Shock’ Remade the World Economy, Interview with Jeffrey Garten*, Yale Insights (July 13, 2021), <https://insights.som.yale.edu/insights/how-the-nixon-shock-remade-the-world-economy>. The Nixon Shock forced a massive change in the global economy, which had already been facing significant upheaval. Though the duties were in effect for only around four months, they resulted in the devaluing of the dollar and caused significant chaos for other nations.

69. It was in this context that Congress enacted a number of reforms, which provided additional definition to tariff authority it grants to the President.

70. Congress enacted IEEPA, 50 U.S.C. § 1701, which the Supreme Court recently ruled makes clear that the executive has some trade powers in response to economic emergencies, but the power to tariff is not one of them. *Learning Res., Inc.*, 2026 WL 477534, at *13.

71. Congress also enacted Section 122 as part of the Trade Act of 1974. It provides narrow tariff authority when “fundamental international payments problems require special import measures to restrict imports” along with at least one of three scenarios “(1) to deal with large and serious United States balance-of-payments deficits, or (2) to prevent an imminent and significant depreciation of the dollar in foreign exchange markets, or (3) to cooperate with other countries in correcting an international balance-of-payments disequilibrium.” 19 U.S.C. § 2132(a).

72. The authority to impose tariffs under this statute is limited even further: the tariffs may only be imposed for “150 days,” and they cannot “exceed 15 percent ad valorem.” *Id.* § 2132(a)(3).

73. Further, subsection (d) of Section 122 requires that any tariffs imposed “be applied consistently with the principle of nondiscriminatory treatment.” And subsection (e) of Section 122 requires that any tariffs imposed “be of broad and uniform application with respect to product coverage except where the President determines, consistently with the purposes of this section, that certain articles should not be subject to import restricting actions because of the needs of the United States economy.” However, “[s]uch exceptions shall be limited to the unavailability of domestic supply at reasonable prices, the necessary importation of raw materials, avoiding serious dislocations in the supply of imported goods, and other similar factors.” *Id.* § 2132(e).

74. Section 122 has never been invoked to impose tariffs. Nor has any President informed Congress that, despite “fundamental international payments problems,” he was refraining from imposing tariffs because to do so would be “contrary to the national interest,” as

subsection (b) of the statute requires. *Id.* § 2132(a), (b). Indeed, Section 122 has never been used in any way at all.

75. Furthermore, the statute is clear that balance of payments is not synonymous with balance of trade: Section 122(c)(1) specifically provides the President with the authority to handle certain “balance-of-trade surpluses” through other means.

C. President Trump’s Section 122 Proclamation

76. Shortly after coming into office, President Trump enacted sweeping tariffs on most goods coming into the United States from abroad under IEEPA. A wide range of plaintiffs challenged the legality of those tariffs.

77. On February 20, 2026, the U.S. Supreme Court struck down these tariffs, ruling that the President lacked authority under IEEPA to impose tariffs. That same day, President Trump made unprecedented statements regarding the Court and his plans to impose the same tariffs regardless. He stated that he was “ashamed” of the Justices in the majority. He stated that somehow the Court’s decision “made a president’s ability to both regulate trade and impose tariffs more powerful and more crystal clear, rather than less.” He stated that his new tariffs had “already been approved.” He rebuffed the idea that Congressional action might be necessary. Aaron Pellish & Gregory Svirnovskiy, *Trump Attacks Supreme Court Justices After He is Handed a Major Tariff Loss*, Politico (Feb. 20, 2026, at 13:32 ET), <https://www.politico.com/news/2026/02/20/donald-trump-tariff-supreme-court-reaction-00791245>.

78. Altogether, the President’s goal is clear—he wishes to exercise *carte blanche* authority when tariffing the world based on any statutory reed he can find.

79. Later that same day, President Trump issued his Section 122 proclamation, entitled, Proclamation 11012 of February 20, 2026, Imposing a Temporary Import Surcharge to Address Fundamental International Payments Problems.

80. In the Section 122 Proclamation, President Trump described four purported grounds for invoking Section 122, which are riddled with omissions and mischaracterizations:

- a. First, he identified the United States’ “substantial trade deficit.” Section 122 Proclamation ¶ 8.
- b. Second, he stated that, in 2024, “the annual balance on the United States primary income turned negative for the first time since at least 1960.” *Id.* ¶ 9. President Trump failed to note that primary income is a *subcomponent* of the “current account” that includes the trade deficit for purposes of balance of payment accounting, which is set off by the United States’ financial account surplus.
- c. Third, President Trump stated that “the net international-investment position of the United States is in an ongoing decline.” *Id.* ¶ 10. The key fact that Trump omitted here is that the United States’ financial account position, which offsets its trade deficit for purpose of balance of payment accounting, has the largest surplus of any country in the world, at approximately \$1.13 trillion in 2024. *Net Financial Account (BoP, current US\$) - United States*, World Bank Group: Data, https://data.worldbank.org/indicator/BN.FIN.TOTL.CD?locations=US&most_recent_value_desc=false [https://perma.cc/V4VM-KUES] (last visited Mar. 3, 2026). And that surplus has been steadily increasing since 2018 with the trade deficit. For comparison, in 2024 the

country with the next highest financial account surplus was the United Kingdom at approximately \$82 billion. *Id.*

- d. Finally, Trump stated that “the balance on secondary income of the United States has been persistently in a deficit since the 1960s.” Section 122 Proclamation ¶ 11. Again, the United States’ secondary income is a subcomponent of its “current account” that includes the trade deficit, which is offset by the United States’ historically high financial account surplus.

81. Based on the preceding representations, Trump determined in the Section 122 Proclamation that he would impose “ad valorem duties,” i.e., tariffs, of 10 percent on all imports into the United States not specifically exempted for 150 days, effective February 24, 2026. *See id.* ¶¶ 13–14, (1).

82. Absent from President Trump’s proclamation was the fact that, in 2024—the most recent year for which complete data is available—the balance of payments position (approximately negative \$53 billion) was a mere 0.2 percent of the United States’ 2024 GDP. This is consistent with the United States’ balance of payments position for the last five decades: between 1970 and 2024, the United States’ balance of payments position has swung on a pendulum from year to year in a small range between approximately negative \$148 billion in 1998 and positive \$138 billion in 2023. The BEA and World Bank both treat any differences between the total figure (whether positive or negative) and \$0 as a rounding error or statistical anomaly.

83. President Trump dismissed or outright ignored the United States’ extraordinary \$1.13 trillion in financial account gains that must be considered for proper balance of payment accounting.

84. But these numbers aside, ultimately, the balance of payments is a statutory term incorporating an accounting term that, by definition, must account for *all* these components. The government itself has recognized this recently. During briefing in *Learning Resources*, the Government itself attested: “trade deficits ... are conceptually distinct from balance-of-payments deficits.” Reply Brief for Appellants at 13, *V.O.S. Selections, Inc. v. Trump*, 149 F.4th 1312 (Fed. Cir. 2025) (No. 25-1812).

85. Given the principles outlined above, the President has not identified *any* actual justification permitted by Section 122 for his tariffs, much less the balance of payments deficit he purports to address.

86. Contrary to President Trump’s rhetoric in the Section 122 Proclamation, the only thing extraordinary about the United States’ recent balance of payments position is how utterly ordinary it has been.

87. President Trump has also not met the other requirements of Section 122. Subsection (d) of Section 122 requires that any tariffs imposed “be applied consistently with the principle of nondiscriminatory treatment.” 19 U.S.C. § 2132(d). The Section 122 Proclamation exempts numerous goods from Canada, Mexico, Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua in violation of that requirement. Section 122 Proclamation ¶ 14(l)–(m). The principle of nondiscriminatory treatment requires treatment based on normal trade relations. *See generally* 19 U.S.C. § 2481(9). But there is no basis under the system of normal trade relations to provide preferential treatment to a select handful of countries with which the United States has free trade agreements, but not others, including many with which the United States also has free trade agreements (such as Australia and South Korea). Moreover, Section 122(d) provides that tariffs may be targeted “against one or more countries having large or

persistent balance-of-payments surpluses,” 19 U.S.C. § 2132(d)(2), but the Proclamation makes no country-specific findings at all, let alone findings of country-specific balance-of-payments surpluses.

88. And subsection (e) of Section 122 requires that any tariffs imposed “be of broad and uniform application with respect to product coverage except where the President determines, consistently with the purposes of this section, that certain articles should not be subject to import restricting actions because of the needs of the United States economy. Such exceptions shall be limited to the unavailability of domestic supply at reasonable prices, the necessary importation of raw materials, avoiding serious dislocations in the supply of imported goods, and other similar factors.” 19 U.S.C. § 2132(e). Despite these restrictions, the Section 122 Proclamation includes more than 80 pages of product exceptions, with no facts to establish that any of the limited circumstances warranting an exception is present. Section 122 Proclamation Annexes I, II. Nor is the breadth of these exemptions “consistent[] with the purposes of” Section 122: to authorize broadly applicable tariffs to restore the balance of payments.

89. In order to meet the requirements of subsection (d) and (e) of Section 122, the President would have needed to provide, at a minimum, some determinations to support discriminatory treatment under Section 122(d)(2), and some factual findings to support such discriminatory treatment or to support the exceptions under Section 122(e). The Proclamation does not contain such determinations or findings and is plainly insufficient to comply with either provision.

D. Collection and Enforcement under the Section 122 Proclamation

90. U.S. Customs and Border Protection is responsible for the collection of tariffs. 6 U.S.C. §§ 211(c)(4), 215(1); 19 U.S.C. § 4301(2)(A). The Section 122 Proclamation directs the

Commissioner of Customs and Border Protection to “take any necessary or appropriate measures to administer the surcharge imposed by this proclamation.” Section 122 Proclamation ¶ (11).

91. To facilitate the collection of tariffs, Customs and Border Protection uses its Cargo Systems Messaging Service (“CSMS”) to inform importers of changes to the amount and administration of import duties. The guidance incorporates and imposes the current duties imposed under the Section 122 Proclamation.

92. U.S. Customs and Border Protection enforces the Section 122 Proclamation under CSMS # 67844987, which provides that, imports, with certain exceptions, “will be subject to an additional ad valorem rate of 10%” from February 24 to July 24. Imposing Temporary Section 122 Duties, CSMS No. 67844987 (U.S. Customs & Border Prot. Feb. 23, 2026) (“CSMS # 67844987”) (Compl. Ex. 2).

PLAINTIFF STATES’ INTERESTS

93. Plaintiff States provide a wide range of public services to their residents and visitors. Essential to the provision of those services is the purchase of equipment, supplies, and parts, many of which are imported from other countries. Other products are manufactured in the United States but contain components that are imported from other countries. Because tariffs directly impact the costs of these products, they cause direct financial harm to Plaintiff States.

94. Plaintiff States include states that have standing based on the Section 122 tariffs they have paid or will pay as direct importers. *See generally V.O.S. Selections, Inc. v. United States*, 772 F. Supp. 3d 1350, 1369 (Ct. Int’l Trade), *aff’d in part, vacated in part, remanded sub nom. V.O.S. Selections, Inc. v. Trump*, 149 F.4th 1312 (Fed. Cir. 2025), *cert. granted*, 146 S. Ct. 73 (2025), *aff’d sub nom. Learning Res., Inc.*, 2026 WL 477534 (recognizing that the United States conceded that plaintiff states had standing because they had paid IEEPA Tariffs).

95. Plaintiff States also have standing based on the higher costs they have paid for imported products and by increasing the price of goods and services that they purchase from domestic producers and suppliers that rely on imports. “To suffer an economic injury from a tariff it is not necessary to incur direct liability to Customs, or even to directly import an article of dutiable merchandise. Fair traceability is more flexible than that.” *V.O.S. Selections, Inc.*, 772 F. Supp. 3d at 1368.

96. As direct or indirect purchasers, Plaintiff States—like other domestic purchasers—shoulder nearly all the cost of tariffs levied on the products they purchase. In fact, the Federal Reserve Bank of New York reports that 90% of the costs of tariffs are paid by American consumers and companies. *See* Mary Amiti, et al., *Who is Paying for the 2025 U.S. Tariffs?*, Fed. Rsrv. Bank of N.Y.: Liberty Street Econ. (Feb. 12, 2026), <https://libertystreeteconomics.newyorkfed.org/2026/02/who-is-paying-for-the-2025-u-s-tariffs/>.

97. The President’s invocation of Section 122 to impose, modify, and reinstate tariffs by executive order, memoranda, social media post, and other means has resulted in national trade policy that reflects the President’s whims on a particular day rather than reasoned decision. The President’s abrupt policy changes have disrupted Plaintiff States’ economies. President Trump’s Section 122 Proclamation was published on February 20, proposed to be changed via social media post on February 21, and took effect on February 24. Plaintiff States and other purchasers are left to sort out what products are included and what tariff rate, if any, will apply.

98. These erratic swings in trade policy not only affect the markets, but they also harm Plaintiff States’ ability to procure goods and services and to budget for and audit price adjustments. Unpredictable tariffs also are already burdening or almost certainly will burden Plaintiff States by increasing administrative costs.

99. When tariff rates increased in the past, many Plaintiff States saw vendors and contractors claim the rate increases as the basis for price adjustments. When a vendor or contractor seeks to impose a price-adjustment based on tariff rates, many Plaintiff States' agencies audit the adjustment to ensure that it is reasonably based on actual costs incurred. That is particularly difficult with regard to domestically produced goods made in part with foreign-sourced components, or contracted services that use some foreign-sourced materials. Due to the President's erratic tariff-rate directives, many of Plaintiff States' agencies must piece together the applicable tariff for a particular day by reviewing multiple executive orders, memoranda, social media posts, and so on, and also investigate how much of those costs were actually incurred by the vendor or contractor. That imposes a substantial and additional administrative cost to many Plaintiff States.

CAUSES OF ACTION

Count I

The Section 122 Proclamation is Ultra Vires (Against All Defendants)

100. Plaintiff States incorporate by reference the allegations contained in the preceding paragraphs.

101. The President has no inherent authority to impose tariffs. The Constitution grants only Congress, not the President, the "Power To lay and collect Taxes, Duties, Imposts and Excises" U.S. Const. art. I, § 8, cl. 1.

102. The only statute cited in the Proclamation claiming substantive authority to impose tariffs is Section 122. But the Proclamation violates and is plainly beyond the bounds of Section 122.

103. The President's tariff authority under Section 122 is limited to narrow circumstances. This authority may be exercised only when "fundamental international payments

problems require special import measures” The scenarios set forth in the statute as potential bases for such an exercise of power are not present—these include only (1) “large and serious United States balance-of-payments deficits,” (2) “imminent and significant depreciation of the dollar,” or (3) “[cooperation] with other countries in correcting an international balance-of-payments disequilibrium.” 19 U.S.C. § 2132(a).

104. The President has identified effectively one ground named in Section 122, despite many separate characterizations of it—a balance of payments deficit. A balance of payments deficit is a term of art incorporating into law a settled meaning from international financial accounting—it includes the balance of trade as only one element, but it also includes the balance of capital and financial transactions. A trade deficit does not qualify, either as a matter of economics or of law, as a balance of payments deficit. The Proclamation thus violates Section 122.

105. The Proclamation is also unlawful because it exempts many goods from Canada, Mexico, Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, and Nicaragua. Section 122 Proclamation ¶ 14(l)–(m). This violates subsection (d) of Section 122, which requires that any tariffs imposed “be applied consistently with the principle of nondiscriminatory treatment.” 19 U.S.C. § 2132(d)(1).

106. The Proclamation is also unlawful because it does not impose tariffs that are “of broad and uniform application with respect to product coverage except where the President determines, consistently with the purposes of this section, that certain articles should not be subject to import restricting actions because of the needs of the United States economy.” 19 U.S.C. § 2132(e). Despite these restrictions, the Section 122 Proclamation includes more than 80 pages of product exceptions, with no determinations establishing that any of the limited circumstances

warranting an exception is present. Section 122 Proclamation Annexes I, II. The Proclamation also violates Section 122 for this reason.

107. Plaintiff States have a non-statutory right of action to enjoin and declare unlawful official action that is ultra vires.

108. The Section 122 Proclamation is not authorized by Section 122 or any other statute. The Proclamation is beyond the bounds of the authority to tariff in Section 122 and clearly violates the statute. As such, it is ultra vires and unlawful.

Count II
The Section 122 Proclamation Violates the Separation of Powers
(Against All Defendants)

109. Plaintiff States incorporate by reference the allegations contained in the preceding paragraphs.

110. The President has no inherent authority to impose tariffs. The Constitution grants only Congress, not the President, the “Power To lay and collect Taxes, Duties, Imposts and Excises” U.S. Const. art. I, § 8, cl. 1.

111. No statute authorizes the President to issue the Section 122 Proclamation. For the reasons stated above, Section 122 does not authorize the imposition of these tariffs.

112. Plaintiff States have a non-statutory right of action to enjoin and declare unlawful official action that is unconstitutional.

113. Because the power to tariff rests with Congress, the President lacks inherent authority to impose tariffs, and the President has usurped Congress’s authority by imposing tariffs that violate Section 122. The Section 122 Proclamation is an exercise of Congressional authority in violation of separation of powers.

Count III
No statutory authority — 5 U.S.C. § 706(2)(C)
(Against U.S. Customs and Border Protection)

114. Plaintiff States incorporate by reference the allegations contained in the preceding paragraphs.

115. U.S. Customs and Border Protection is an “agency” under the Administrative Procedure Act, 5 U.S.C. § 551(1) (“APA”).

116. The Customs and Border Protection’s CSMS # 67844987 is a final agency action subject to review under the APA. CSMS # 67844987 marks the consummation of the agency’s decision-making process because it announces the agency’s implementation of the Section 122 Proclamation.

117. CSMS # 67844987 is an action by which rights or obligations have been determined or from which legal consequences will flow, because it immediately changes tariffs rates charged at importation.

118. CSMS # 67844987 implements tariffs that lack statutory authorization and are ultra vires. *See* Count I, above.

119. The APA requires that a court “hold unlawful and set aside agency action, findings, and conclusions found to be ... in excess of statutory jurisdiction, authority, or limitations, or short of statutory right.” 5 U.S.C. § 706(2)(C).

120. Plaintiff States are thus also entitled to vacatur of CSMS # 67844987 under 5 U.S.C. § 706, all appropriate preliminary relief under 5 U.S.C. § 705, and a preliminary and permanent injunction prohibiting its implementation.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff States pray that the Court:

- a. Declare that the Section 122 Proclamation is ultra vires and a violation of the separation of powers;
- b. Stay, hold unlawful, vacate, and set aside the Customs and Border Protection's CSMS # 67844987;
- c. Preliminarily and permanently enjoin Secretary Noem, Commissioner Scott, the Defendant agencies, their agents, and anyone acting in concert or participation with them from implementing, instituting, maintaining, or giving effect to (i) the Section 122 Proclamation, and (ii) U.S. Customs and Border Protection's CSMS # 67844987;
- d. Order the United States to refund to Plaintiff States the Section 122 tariffs collected on entries in which they or their instrumentalities are the importers of record, with interest, as provided by law;
- e. Award Plaintiff States' costs of suit and reasonable attorneys' fees and expenses under any applicable law; and
- f. Award such additional relief as the interests of justice may require.

Title 3—

Proclamation 11012 of February 20, 2026

The President

Imposing a Temporary Import Surcharge To Address Fundamental International Payments Problems

By the President of the United States of America

A Proclamation

1. The United States plays a pivotal role in shaping the global economy. At the same time, the United States faces various threats to its own economy and national interests. Sometimes, the United States faces fundamental international payments problems, such as large and serious balance-of-payments deficits, an imminent and significant depreciation of its currency in foreign exchange markets, or an international balance-of-payments disequilibrium. These problems can, among other things, endanger the ability of the United States to finance its spending, erode investor confidence in the economy, and distress the financial markets.

2. Special import measures to restrict imports, such as surcharges and quotas, are key tools to protect the economy and national security of the United States, and, in certain circumstances, they are required to deal with fundamental international payments problems.

3. Given the gravity of fundamental international payments problems and the importance of import restrictions as economic, national security, and foreign policy tools, Federal law, including section 122 of the Trade Act of 1974 (19 U.S.C. 2132) (section 122), empowers the President to take action through surcharges and other special import restrictions to address fundamental international payments problems.

4. I have received certain requested information and opinions from senior officials on whether any fundamental international payments problems exist and the extent to which such problems could impair United States national interests, including economic and national security interests. The information and opinions discuss, among other things, the state of the balance of payments of the United States, the standing of the United States dollar in foreign exchange markets, and the state of international balances of payments. I have also received opinions and recommendations from senior officials on whether special import measures to restrict imports are required to address any fundamental international payments problems. These opinions address, among other things, whether a surcharge in the form of *ad valorem* duties is required to restrict imports to deal with large and serious United States balance-of-payments deficits, to prevent an imminent and significant depreciation of the United States dollar in foreign exchange markets, or to cooperate with other countries in correcting an international balance-of-payments disequilibrium.

5. These senior officials have informed me that fundamental international payments problems within the meaning of section 122 exist and that special import measures to restrict imports are required to address these problems. Specifically, my advisors have determined that an import surcharge in the form of *ad valorem* duties is required to deal with large and serious United States balance-of-payments deficits. My advisors have also opined that certain products should not be subject to the surcharge because of the needs of the United States economy and that the recommended exceptions are consistent with the limitations of section 122, the purposes of section 122, and the national interest of the United States.

6. Among other things, I have been informed by my advisors that the United States balance-of-payments position, under any reasonable understanding of the term in the context of section 122, is currently a large and serious deficit. My advisors have studied different methods of evaluating balance-of-payments deficits, including calculations based on current-account statistics. In my advisors' opinions, under any of these methods, the United States balance-of-payments position is a large and serious deficit.

7. For instance, my advisors have informed me that the United States runs a deficit in selling goods and services overseas, as reported by the United States Bureau of Economic Analysis (BEA) in the "balance on goods and services"; has recently reflected quarterly deficits in its return on investment or labor, as reported by the BEA in the "balance on primary income"; and runs a deficit in voluntary transfers, such as remittances, as reported by the BEA in the "balance on secondary income." In other words, the United States runs a trade deficit, does not currently make a net income from the capital and labor that it deploys abroad, and experiences more transfer payments, on net, flowing out of the country than into the country.

8. As my advisors have informed me, the United States runs a substantial trade deficit. The large, persistent, and serious annual United States goods trade deficit has grown by over 40 percent in the past 5 years alone, reaching \$1.2 trillion in 2024. In 2025, the United States goods trade deficit remained at approximately \$1.2 trillion. The effects of this deficit are serious, and this deficit contributes to the fundamental international payments problems facing the United States.

9. As my advisors have also informed me, the annual balance on the United States primary income turned negative for the first time since at least 1960 in 2024. From 1960 to 2023, the United States ran a surplus in its annual balance on primary income. That positive balance on primary income served as a stabilizing force for the United States balance-of-payments position even in the face of large and persistent trade deficits. In 2024, however, the balance on primary income turned negative and thus ceased to serve as a counterweight to the trade deficit in the United States current account. Indeed, in 2024, the United States maintained a current account deficit of 4.0 percent of gross domestic product (GDP), almost double the current account deficit of approximately 2.0 percent that prevailed between 2013 and 2019, and larger than that which prevailed from 2019 to 2023. As a share of GDP, the staggering deficit of 4.0 percent represented the biggest annual current account deficit since 2008.

10. As my advisors have also informed me, the net international-investment position of the United States is in an ongoing decline. According to the BEA, at the end of 2024, the net international-investment position of the United States, as a share of GDP, was negative 90 percent, a sharp deterioration from the average of negative 41 percent in the decade between 2010 and 2020. In my advisors' view, this is a highly atypical position for a country, particularly the United States. Indeed, both in terms of United States dollars and as a share of GDP, this represents one of the most negative net international-investment positions of any developed country. Because the current account is one of the primary drivers of changes in the net international-investment position, the atypically large negative net international-investment position of the United States shows that the United States balance-of-payments deficit is large and serious.

11. Further, as my advisors have informed me, the balance on secondary income of the United States has been persistently in a deficit since the 1960s.

12. According to my advisors, an import surcharge in the form of *ad valorem* duties is required to address these fundamental international payments problems. In my advisors' opinions, imposing an import surcharge would deal with the large and serious United States balance-of-payments deficit. My advisors have further recommended that certain products should not be subject to the surcharge because of the needs of the United States economy

and have opined that a surcharge with certain exceptions would more effectively deal with the balance-of-payments deficit than would a surcharge without the exceptions.

13. After considering the information, opinions, and recommendations that have been provided to me by senior officials, among other relevant information and considerations, I find that fundamental international payments problems within the meaning of section 122 exist; that those problems significantly harm United States national interests, including economic and national security interests; and that special measures to restrict imports are required to address those problems, as authorized by section 122. Specifically, I find that a surcharge in the form of *ad valorem* duties on certain imports is required to deal with the United States' large and serious balance-of-payments deficit. Accordingly, I impose, for a period of 150 days, a temporary import surcharge of 10 percent *ad valorem*, as described below, on articles imported into the United States, effective February 24, 2026.

14. Because of the needs of the United States economy, I determine that the surcharge imposed in this proclamation shall not apply to the following products, as further detailed in Annexes I and II to this proclamation:

- (a) certain critical minerals;
- (b) metals used in currency and bullion;
- (c) energy and energy products;
- (d) natural resources and fertilizers that cannot be grown, mined, or otherwise produced in the United States or grown, mined, or otherwise produced in sufficient quantities to meet domestic demand;
- (e) certain agricultural products, including beef, tomatoes, and oranges;
- (f) pharmaceuticals and pharmaceutical ingredients;
- (g) certain electronics;
- (h) passenger vehicles, certain light trucks, certain medium- and heavy-duty vehicles, buses, and certain parts of passenger vehicles, light trucks, medium- and heavy-duty vehicles, and buses;
- (i) certain aerospace products;
- (j) information materials, donations, and accompanied baggage;
- (k) all articles and parts of articles currently or that later become subject to additional import restrictions imposed pursuant to section 232 of the Trade Expansion Act of 1962, as amended (19 U.S.C. 1862) (section 232);
- (l) articles that are entered free of duty as a good of Canada or Mexico under the terms of general note 11 to the Harmonized Tariff Schedule of the United States (HTSUS), including any treatment set forth in subchapter XXIII of chapter 98 and subchapter XXII of chapter 99 of the HTSUS, as related to the Agreement between the United States of America, United Mexican States, and Canada; and
- (m) textile and apparel articles that are entered free of duty as a good of Costa Rica, the Dominican Republic, El Salvador, Guatemala, Honduras, or Nicaragua under the Dominican Republic-Central America Free Trade Agreement.

15. I find that each exception described in paragraph 14 of this proclamation—in whole or in part, separately or in any combination—is consistent with the limitations of section 122. These exceptions, which are further detailed in Annexes I and II to this proclamation, reflect my determination that each product covered by each exception should not be subject to a surcharge because of (1) the unavailability of domestic supply at reasonable prices, the necessary importation of raw materials, the avoidance of serious dislocations in the supply of imported goods, or other similar factors; or (2) the fact that the surcharge would be unnecessary or ineffective in carrying out the purposes of section 122, such as with respect to articles already

subject to import restrictions or goods in transit, which—for purposes of this proclamation—are goods that (i) were loaded onto a vessel at the port of loading and in transit on the final mode of transit prior to entry into the United States, before 12:01 a.m. eastern standard time on February 24, 2026; and (ii) are entered for consumption, or withdrawn from warehouse for consumption, before 12:01 a.m. eastern standard time, February 28, 2026. I have determined that each exception described in paragraph 14 of this proclamation—in whole or in part, separately or in any combination—is consistent with the purposes of section 122 and will best serve the purposes of section 122. Each of my determinations to except an import from the surcharge imposed in this proclamation is independent from the other. The import-restricting action and the exceptions in this proclamation are not made for the purpose of protecting individual domestic industries from import competition.

16. In my judgment, the surcharge imposed in this proclamation is consistent with the purposes of section 122, the national interest of the United States, and the needs of the economy of the United States. Restricting imports through the surcharge imposed in this proclamation is required to address the fundamental international payments problems within the meaning of section 122 that I have found to exist. The surcharge imposed in this proclamation will deal with the large and serious United States balance-of-payments deficit.

17. Section 122 authorizes the President to impose, for a period not exceeding 150 days unless extended by an Act of the Congress, a temporary import surcharge up to 15 percent *ad valorem* and other temporary limitations on articles imported into the United States in situations of fundamental international payments problems.

18. Section 604 of the Trade Act of 1974, as amended (19 U.S.C. 2483) (section 604), authorizes the President to embody in the HTSUS the substance of statutes affecting import treatment, and actions thereunder, including the removal, modification, continuance, or imposition of any rate of duty or other import restriction.

NOW, THEREFORE, I, DONALD J. TRUMP, President of the United States of America, by the authority vested in me by the Constitution and the laws of the United States, including section 122, section 301 of title 3, United States Code, and section 604, do hereby proclaim as follows:

(1) Except as otherwise provided in this proclamation, as set forth in Annexes I and II to this proclamation, all articles imported into the United States shall be subject to a 10 percent *ad valorem* duty rate.

(2) The surcharge imposed in this proclamation shall not apply to imports of articles listed in paragraph 2 of Annex I to this proclamation and as enumerated in Annex II to this proclamation.

(3) Except as otherwise provided in this proclamation, the surcharge imposed in this proclamation is in addition to any other duties, taxes, fees, exactions, and charges applicable to such products.

(4) The surcharge imposed in this proclamation shall not apply in addition to tariffs imposed under section 232. To the extent a tariff imposed under section 232 applies to part of an import, the surcharge imposed in this proclamation shall apply to the part of the import to which section 232 tariffs do not apply but shall not apply to the part of the import to which section 232 tariffs do apply.

(5) The surcharge imposed in this proclamation shall be treated as a regular customs duty.

(6) Any article subject to the surcharge imposed in this proclamation, except those articles eligible for admission under “domestic status” as described in 19 CFR 146.43, that is subject to the surcharge imposed in this proclamation and that is admitted into a United States foreign trade zone on or after the effective date of this proclamation must be

admitted as “privileged foreign status,” as described in 19 CFR 146.41, and will be subject upon entry for consumption to any *ad valorem* rate of duty related to the classification under the applicable HTSUS sub-heading.

(7) The HTSUS shall be modified as provided in Annex I to this proclamation. The modifications shall be effective with respect to goods entered for consumption, or withdrawn from warehouse for consumption, on or after 12:01 a.m. eastern standard time on February 24, 2026, and shall continue in effect through 12:01 a.m. eastern daylight time on July 24, 2026, unless the surcharge imposed in this proclamation is expressly suspended, modified, or terminated on an earlier date, or unless the effective period of such surcharge is extended by an Act of the Congress.

(8) The head of each executive department and agency (agency) is authorized to and shall take all appropriate measures within the agency’s authority to implement this proclamation. The head of each agency may, consistent with applicable law, including section 301 of title 3, United States Code, redelegate the authority to take such appropriate measures within the agency.

(9) The United States Trade Representative (Trade Representative), in consultation with any senior official he deems appropriate, shall monitor and review the status of conditions related to the fundamental international payments problems of the United States, the effect of the surcharge imposed in this proclamation, and any factors he deems relevant. The Trade Representative shall also inform the President of any circumstance that, in the Trade Representative’s opinion, might indicate the need for further action by the President, including under section 122. And the Trade Representative shall inform the President of any circumstance that, in the Trade Representative’s opinion, might indicate that the surcharge imposed in this proclamation should be suspended, modified, or terminated.

(10) The Trade Representative, in consultation with the Chair of the United States International Trade Commission and the Commissioner of U.S. Customs and Border Protection (CBP), shall determine whether any additional modifications to the HTSUS are necessary to effectuate this proclamation and shall make such modifications to the HTSUS through notice in the *Federal Register*, including any technical correction to Annexes I and II to this proclamation.

(11) The Commissioner of CBP may take any necessary or appropriate measures to administer the surcharge imposed by this proclamation.

(12) (a) Any provision of previous proclamations and Executive Orders that is inconsistent with this proclamation is superseded to the extent of such inconsistency. If any provision of this proclamation or the application of any provision to any individual or circumstance is held to be invalid, the remainder of this proclamation and the application of its provisions to any other individuals or circumstances shall not be affected.

(b) If any exception to the surcharge imposed in this proclamation is held to be invalid in whole or in part, only that exception or that part of the exception shall be treated as invalid. The surcharge imposed in this proclamation shall apply to imports to which the invalidated exception or the invalidated part of the exception applied before its invalidation, but to the extent consistent with law, the surcharge shall be collected only prospectively from the date of the invalidation. No other exception, part of an exception, or application of an exception shall be treated as invalid. This severability provision shall operate even if the surcharge must be applied retroactively to imports to which the invalidated exception or the invalidated part of the exception applied before its invalidation. I would adopt each exception in this proclamation in whole or in part, separately, or in any combination. Each exception, in whole or in part, in this proclamation is supported by the needs of the United States economy and one or more of the factors described in section 122 and is consistent with the national interest of the United States and the purposes of section 122.

(c) This severability provision reflects my determination that the surcharge imposed in this proclamation should remain operative until July 24, 2026, in a way that is consistent with law, including the limitations of section 122, to deal with the large and serious United States balance-of-payments deficits found in this proclamation, regardless of whether any exception or exceptions, in whole or in part, are invalidated. The surcharge imposed in this proclamation—with any combination of the exceptions in paragraph 14 of this proclamation, or even without any of the exceptions in paragraph 14 of this proclamation—is required to deal with the large and serious United States balance-of-payments deficits found in this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand this twentieth day of February, in the year of our Lord two thousand twenty-six, and of the Independence of the United States of America the two hundred and fiftieth.

2. U.S. note 2 is modified by inserting the following new subdivision (aa):

“(aa) (i) Except as provided in headings 9903.03.02–9903.03.11 and in subdivisions (aa)(ii) through (aa)(viii) of this note, and other than products for personal use included in accompanied baggage of persons arriving in the United States, heading 9903.03.01 imposes an additional *ad valorem* rate of duty on imports of all products of any country. Notwithstanding U.S. note 1 to this subchapter, all products that are subject to the additional *ad valorem* rate of duty imposed by this heading shall also be subject to the general rates of duty imposed under subheadings in chapters 1 to 97 of the tariff schedule. Except as provided in subdivisions (aa)(ii) through (aa)(viii) of this note, all products that are subject to the additional *ad valorem* rate of duty imposed by this heading shall also be subject to any additional duty provided for in this subchapter or subchapter IV of chapter 99. Products that are eligible for special tariff treatment under general note 3(c)(i) to the tariff schedule, or that are eligible for temporary duty exemptions or reductions under subchapter II to chapter 99, shall be subject to the additional *ad valorem* rate of duty imposed by this heading, except as otherwise provided in this subdivision.

The additional duty imposed by this heading shall not apply to goods for which entry is properly claimed under a provision of chapter 98 of the tariff schedule pursuant to applicable regulations of U.S. Customs and Border Protection (“CBP”), and whenever CBP agrees that entry under such a provision is appropriate, except for goods entered under heading 9802.00.80 and subheadings 9802.00.40, 9802.00.50 and 9802.00.60. For subheadings 9802.00.40, 9802.00.50 and 9802.00.60, the additional duty applies to the value of repairs, alterations, or processing performed, as described in the applicable subheading. For heading 9802.00.80, the additional duty applies to the value of the article assembled abroad, less the cost or value of such products of the United States, as described.

Products that are provided for in heading 9903.03.01 shall continue to be subject to antidumping, countervailing, or other duties, taxes, fees, exactions and charges that apply to such products, as well as to the additional *ad valorem* rate of duty imposed by this heading.

(ii) As provided in heading 9903.03.03, the additional duty imposed by heading 9903.03.01 shall not apply to articles the product of any country that are classifiable in the following subheadings of the HTSUS:
