Thank you, Allison.

One item for tomorrow's meeting might be materials to give (b)(6)

For potential inclusion:
Transition Briefing Book
Org. Charts
Recent CBJ
Strategic Plan
Budget as submitted to OMB
EO and PM responses to OPM, OMB, GSA, etc.
Contact info for senior staff
(?) Updated Uzbekistan Post Expansion Plan including option for VSP for first two years

+(b)(6)

(b)(6) is with DOGE and will arrive at Peace Corps tomorrow – most likely early afternoon. (b)(6) will need access to our systems and financials. She is being lent to Peace Corps so she will not be paid by Peace Corps. ((b)(6) and team – she is on the epacs (?sp) system.) We do not know how long she will be with us.

(b)(6) will be working over the weekend. (b)(6) She will let Nancy or I know her arrival time and we will greet her on the 1st floor and take her to see (b)(6) on the 2nd floor to get her badge so she can get underway. She will need a computer with access, and most likely will need an office or conference room to work out of (exact needs tbd).

We gave Allison a heads up and she indicated we would huddle tomorrow morning to discuss the details and review the plan.

Best,
Karen and Nancy

Team,

I received two phone calls, within 5 minutes and wanted to bring it to your attention, here is what I know.

Phone call #1: (b)(6)

He is serving as a senior advisor at the U.S. Office of Personnel Management and introduced himself as a White House Liaison.

He advised me that (b)(6) @usaid.gov will be detailed to the Peace Corps

Phone call #2: (b)(6)

(b)(6) called to get more details on her onboarding. She expects to be onboarded tomorrow with a laptop, badge, and cell phone. She stated she works for GSA and was originally going to be detailed to USAID. She stated she has directives, will be working with the Peace Corps, in a leadership position short term.

QUESTION for Nancy and Karen, can you confirm that (b)(6) is the White House Liaison at OPM?

HEADS UP for (b)(6) we may have a (b)(6) onboarding tomorrow

Best Regards, (b)(6)

Subject: Detail to Peace Corps - (b)(6)

Team,

I received two phone calls, within 5 minutes and wanted to bring it to your attention, here is what I know.

Phone call #1: (b)(6)

He is serving as a senior advisor at the U.S. Office of Personnel Management and introduced himself as a White House Liaison.

He advised me that (b)(6) @usaid.gov will be detailed to the Peace Corps

Phone call #2: (b)(6)

(b)(6) called to get more details on her onboarding. She expects to be onboarded tomorrow with a laptop, badge, and cell phone. She stated she works for GSA and was originally going to be detailed to USAID. She stated she has directives, will be working with the Peace Corps, in a leadership position short term.

QUESTION for Nancy and Karen, can you confirm that (b)(6) is the White House Liaison at OPM?

HEADS UP for (b)(6), we may have a (b)(6) onboarding tomorrow

Best Regards, (b)(6)

Hi Ed,

I wanted to ask Federal CIO's that have had the DOGE IT teams visit them about the technical access requests and accesses given. However, when I click the "Ask Peers", it pops up as follows:

I don't see a way to change it from "Post Anonymously to: **Information Security"**. Can you tell me

Dear (b)(6)

Thank you for your email. Please see some points below re: eCase.

- My weekend contact information-(b)(6)
- Regarding eCase- I can provide an “over the shoulder” review of the database upon request. I can also provide data reports, and various audit/administrative reports upon request. We have a new ISSO representative- (b)(6) who replaced (b)(6) He would be available to provide better information on back-end programming, IT security , software composition information.
- I can provide a new user role to a designated individual if requested. However, this may require a longer turnaround time than an “over the shoulder” review, as it may require follow-up from the vendor to provide them with the appropriate scripts/patch-ins.

If you need any further information, please let me know.

Thank you,
(b)(6)

Good morning and happy Friday, Team Peace Corps.

We will be welcoming the DOGE folks this afternoon. We have been made aware that they intend to work on the weekends, so we will need you on standby. If practical, please provide updated contact data. If we receive requests regarding your systems, the designated POC will be contacted first.

As discussed, you should be prepared to do the following to be as helpful as possible:

- Provide high level overview.
- If access to the system is requested, set up account and provide instruction on use.

- If data from the system is requested, confirm what is required to meet their needs (data, format, etc).
- EO 14243 provides for equivalent datasets under the condition that it does not take any longer to provide than direct access. This can be raised with them, but the method of access is their decision.
- As closely as is possible, follow your system procedures (albeit expedited).
- Under all circumstances, ensure that clear records are kept on what is requested and provided to your A/D, copying (b)(6) (CIO) and (b)(6) (CISO).

If you have any questions, don't hesitate to reach out.

Subject: DOGE Laptop Preparation

Hey (b)(6) – see below for the laptop preparation statement(s) you requested. Apologies, this has been sitting in my drafts since Monday!

Scenario #1 – PC receives DOGE names in advance

Laptops will be immediately available to DOGE staff upon arrival at HQ. All laptops will be pre-configured with the identified software installed, accounts created, and access(es) granted.

Scenario #2: DOGE arrives unannounced

Four laptops have been set aside and pre-imaged in preparation of DOGE's arrival. Upon receiving the names of the DOGE staff, Hosting Services will manually create their accounts. Upon creation of their accounts, the Service Desk will immediately configure each laptop, load profiles, and install software. OCIO will require 90 minutes from receipt of the DOGE team names to laptop prep completion.

Hi Joaquin and (b)(6),

We compiled a list of PC systems and started prepping the procedures for providing access to them if and when requested. The question came up as to whether IG systems should be on that list. When PC responded to the inventory request from OMB back in December, we did not include any IG systems so I have any reason to believe they would be requested if they are using that list as their guide.

Nonetheless, I wanted to reach out to you to determine if IG system's should be included or not. To date, I have not received any guidance on how this is being handled at any agency. I appreciate your thoughts on this matter.

Team,

As you are probably aware, a DOGE employee visited Peace Corps today. She and a few of her colleagues will be working here with us over the coming weeks. They will be sitting in conference room 7218 for the duration of their stay. During their stay with us, please observe the following:

- Do NOT walk by the conference room to peek in. The location was selected for their privacy.
- Be mindful of your hallway conversations.
- Do NOT discuss their presence outside the agency. Do NOT share their names with anyone.
- Be courteous and respectful of their time.

These folks are professionals with a big job to do and a narrow window in which to do it. We want them to be able to do their job safely and effectively. Your decorum and professionalism is expected.

Hi,

Quick update, the DOGE team came in to do an assessment which is on-going. They have done the same at several other agencies that don't make the press.

The only reminder is if we do receive media requests to work with the Communications team and not respond independently.

Thanks,

Hi All,

If you have not heard the DOGE team will be at Peace Corps headquarters today, they may have just arrived. At this time there is no indication of what they will request or who they will interact with outside of their designated POCs. There is office space being made available to the team on the 7th floor within the CIO space. There are staff who will be working with them over the weekend and as needed going forward, all TBD.

No direct indication they will be interacting with OHS, asking all staff to be compliant with any requests we may receive.

If you have any questions or concerns, please let me know.

Thank you,

If you have not heard the DOGE team will be at Peace Corps headquarters today, they may have just arrived. At this time there is no indication of what they will request or who they will interact with outside of their designated POCs. There is office space being made available to the team on the 7th floor within the CIO space. There are staff who will be working with them over the weekend and as needed going forward, all TBD.

No direct indication they will be interacting with OHS, asking all staff to be compliant with any requests we may receive.

If you have any questions or concerns, please let me know.

Thank you,

(b)(6)

Dear Team:

Good morning.

Just to let you know that the Trump's DOGE team would be visiting Peace Corps this afternoon, and would be here at Peace Corps moving forward.

They would be located on the 7th floor in the IT Dept. Please if you meet any member of the team, please welcome them warmly.

I would keep you informed if there is anything specifically, they request from our office.

Do let me know if you have questions

Thank you

Nancy and Karen,
(b)(6) reached out to let me know that you two should be added to the list of people that get notified in the event a DOGE Team comes to visit PC HQ. I have the below contact information for you both.

If a team does visit us, we will gather in the Harris Wofford conference room on the second floor. There will also be a also be an open Teams meeting for those that may not be in the building. See below for the Teams link we will use.

Let me know if you have any questions.

All the best,
(b)(6)

EXERCISE

All,
I wanted to share with you that we will be conducting an ***in-person exercise*** next Friday, April 4th for the DOGE Welcome Team. If you are in the To: line of this email, please make every effort to join the team in the Harris Wofford room on the 2nd floor. The exercise will commence *around* 2 pm and last for approximately one hour. Those of you on the CC line are either back-ups to the principle, in-person participants (b)(6)) or will be notified by phone call of a DOGE arrival in the building for awareness purposes ((b)(6)
(b)(6)).

Once the exercise commences, OSS will send out a meeting invitation and Teams link to participants (those in the To line). Additionally, you will receive a call from either (b)(6) or I letting you know a DOGE Team is in the building and that we are assembling in the Harris Wofford conference room. Please note that this will

likely be a fast-moving process to meet potentially demanding expectations, so we are exercising in that manner.

If you have any question, please reach out to me or (b)(6) (who is back in the office next week). The rest we will save for game day!

All the best,
(b)(6)
