## **OPEN SYMBOLOGY**

Financial Instrument Global Identifier

# OPENFIGI.COM SEARCH API IS NOW AVAILABLE!!!

Mapping for asset classes that have not been assigned other market identifiers can sometimes be tricky. Even

if other market identifiers do exist, access to that content may often be restricted. OpenFIGI now provides a Search API, allowing users to map to FIGIs using key words and other filters to drill down to the instruments that match your specified criteria.

https://www.openfigi.com/api#post-v2-search for more details

## **NEW SEARCH API**

#### >> Request URL:

- https://api.openfigi.com/v2/search
- Example: {"query": "IBM"}
- >> All filters currently used in the OpenFIGI V2 API can be used in the Search API
  - Example: {"query": "IBM","marketSecDes":"Equity"}
- >> We enabled paging for large results (100 results per page)
  - Use the cursor at the bottom of the results to see results
  - Example: {"query": "IBM", "start": "3df3r>"}

#### >> Rate Limit:

- Rate limiting by API key
- Works with existing API Key
- Max 20 Search jobs per minute per API key
- Search and mapping jobs can be submitted together
- Max 250 combined jobs (search & Mapping) per minute per API key

#### New Open Symbology Facilitators

#### Polygon.io, LLC

"It's so nice to be a part of this open initiative to make logical symbology and reliable information available to everyone. OpenFIGI powers much of our symbol APIs. It's an invaluable asset to us." Quinton Pike, Founder & CEO, Polygon.io, LLC"
