**Subject:** Re: Form submission from Contact Us (b) (6) on Tuesday, February 8, 2022 - 3:36pm

---

Dear (b) (6),

Thank you for contacting the National Archives. We appreciate your concern. We hope this statement is helpful.

#### Statement Regarding Boxes of Trump PRA Records Transferred to NARA

In mid-January 2022, NARA arranged for the transport from the Trump Mar-a-Lago property in Florida to the National Archives of 15 boxes that contained Presidential records, following discussions with President Trump's representatives in 2021. Former President Trump's representatives have informed NARA that they are continuing to search for additional Presidential records that belong to the National Archives.

As required by the Presidential Records Act (PRA), these records should have been transferred to NARA from the White House at the end of the Trump Administration in January 2021.

"The Presidential Records Act mandates that all Presidential records must be properly preserved by each Administration so that a complete set of Presidential records is transferred to the National Archives at the end of the Administration," said Archivist of the United States David S. Ferriero. "NARA pursues the return of records whenever we learn that records have been improperly removed or have not been appropriately transferred to official accounts."

Ferriero further stressed the importance of adherence to the PRA by all Presidents.

"The Presidential Records Act is critical to our democracy, in which the government is held accountable by the people," Ferriero said. "Whether through the creation of adequate and proper documentation, sound records management practices, the preservation of records, or the timely transfer of them to the National Archives at the end of an Administration, there should be no question as to need for both diligence and vigilance. Records matter."

Sincerely,

National Archives Public and Media Communications staff

Dear sirs,

I didnt really get an answer.

You have stated he did not comply by taking the records in the first place, he attempted to destroy them, what repercussions does he really face ? Thats my question because i feel there are none. nothing will be done and I'd like to know why he s not held accountable??

Tell us more.: I want to know who's decision it is there to start a false report with the illegal Biden Marxist Regime DOJ regarding the ACTUAL PRESIDENT OF THE UNITED STATES Donald J. Trump's records? This Country has turned into the world's laughing stock shit-show of the century and you have nothing else to do but harass someone who according to assholes like yourselves, is no longer in office?! I DEMAND an audit done of this department and whatever Marxist bureaucrat is running it! ALL you DC bureaucrats WILL go down with Biden's ship this year when the Red Wave of Trump Republicans floods that shithole we call our capital. And it's assholes like you lot, that will be FIRED and PROSECUTED for wasting OUR TAX DOLLARS on personal, petty, retarded vendettas! Vendettas work BOTH WAYS. I am making it MY personal vendetta to get to the bottom of who in the National Archives is doing this and making sure his/her next job is flipping burgers at McDonalds! Don't bother wasting any more of my tax dollars mailing your lame ass response letters either. Just roll the letter up into a cone and SHOVE IT UP YOUR ASS!

Please tell us more.:

Greetings. Inquiring minds want to know why you felt the need to encourage the FBI to raid our former President's home? It was an unprecedented action that will have very serious repercussions for our nation.

Again, why did you encourage DOJ to target our former President?

The news sources I have researched have absolutely no idea.

Further, because Christopher Wray is a hold-over from President

Trump's administration, it makes all of us wonder what's going

on. Most former Trump staff are long gone. Why was Mr. Wray kept by Biden?

Would you like us to send you a response? Yes

Please tell us more.: Could you please address the rumors spreading on social media about Obama's records? Donald Trump Jr.

posted a story from the New York Post (owned by Rupert Murdoch)

insinuating that Obama took his records to his house like Donald

Trump. They want to know why Obama's house was not searched.

I

know that the digitizing process is ongoing and that the records

will not be released until the digitization is complete. I

also

know that the records were suppose to be online by January 2022.

I assume the pandemic caused the delay. It would be a good idea

to issue a statement.

Would you like us to send you a response? Yes

Please tell us more.:

History of Banana Republics,

Greetings. I am wondering if NARA is preparing a book on the  
History of Banana Republics. NARA is certainly becoming a  
foremost expert in this field, and could greatly contribute  
to  
the advancement of the art of using state apparatus to  
silence  
political opponents.

NARA is responsible for a fantastic and unprecedented event,  
whereby the FBI was sent to raid a former President's  
personal  
residence, fishing around for non-existent crimes and even  
going  
through the former First Lady's closet.

This is even better than the Kremlin's efforts to silence  
(without surprise "heart attacks") opponents such as Alex  
Navalny. As I'm sure you're aware, Alex was arrested and  
found guilty on a trumped (no pun intended) charge. The very  
fact that he was under investigation made it illegal for him  
to  
run for president. Brilliant, you can take him out of the  
picture without the embarrassment of a "heart attack."

Bravo NARA!

Please tell us more.: Will a warrant be issued to account for the

30 million pages removed from the White House by President Obama?

Where are those? Why were they removed by Obama? And who verified

all 30 million pages and not more were removed? Who can vouch

for checking all 30 million pages? Where are they? Garland said

fair and equal treatment occurs. Will a warrant now be issued to

see where these 30 million pages are? How are the American public

sure there was nothing removed that should not have been? And why

exactly can so much be removed with the Presidential Act seemingly saying it cannot be? Where is the fair and equal treatment Garland spoke of. Where are these 30 million pages????

Would you like us to send you a response? Yes

**Subject:** National Archives actions

---

Dear Ms. Wall,

This is (b) (6). I have been a customer and a supporter for the National archives store and the library for many years. I receive mails from your organization including emails. Actually, I have been very fond of the national archives. This is to let you know that my friends and myself, are no longer getting involved with your organization after you are indirectly responsible for attacking the nation and raiding the house of former President Trump, such a action has brought so much turmoil to the country. As a naturalized American citizen I need to tell you that we already have enough to keep adding more fuel to America. Mr. David Ferriero your librarian has damaged the peace of the nation. I am disappointed of your actions against the citizens. I will stop my subscription. Thank you.

Sincerely,

(b) (6)

Please tell us more.: Why is David Ferriero Investigating

Trump

when Obama has 1000 of documents he never digitized and returned

to you? NARA appears to extremists, and I wonder, sir, what is

your agenda? Your behavior is disgusting, and who can trust a single thing your organization is doing there to "preserve" governmental history? You seem to be awfully partisan in your vindictiveness. How will NARA preserve your actions this week?

Way to go, tarnishing the role of American politics. Did you not

think everything Hillary Clinton did wasn't an infraction?

She

invented the whole Russian collusion thing, and now, here you are

all doing it. I think the Founder Fathers are turning over in their graves to witness the debacle you are a part of. For shame.

Would you like us to send you a response? No

Please tell us more.:

I'm a democrat and have believed what Democrats in DC have told the American public about Trump's crimes, but after 6 years, things are NOT adding up! Please help me understand why Dems, FBI, DOJ, Obama & Biden have been caught lying and nothing happens, while Trump is constantly being accused of crimes, which is stated that these crimes are backed with evidence, but the evidence your party proclaims is NEVER presented. In light of the DOJ approved FBI raid at Trump's MAL home, where and why hasn't Obama recorded or returned a single document to the National Archive? At this point I believe Trump has been right about the Democrats with hunt theory. The obvious double standards and two tier justice system is NOT working for many dem voters! Please provide my answer pertaining Obama not returning documents to the National Archive and why are or zero documents available in Obama's Presidential Library? Is there something to hide?

I'm beginning to think so.

Would you like us to send you a response? Yes

Should we put the trump papers in perspective?

The FBI took 11 boxes of trump papers from his home in a raid with 30 agents. That represents approximately 66 packets of computer paper (750 shts/packets)

Obama claimed 30,000,000 documents when he left office: let's do the math.  $30,000,000 / 750 \text{ shts/packet} = 40,000 \text{ packets}$  or  $40,000 \text{ packet} / (6 \text{ packets per box}) = 6666 \text{ boxes}$

The archive department had no problem with any of Obama's 6666 boxes of materials but trump's 11 box's were a national security threat? Whole sale corruption.

Hello,

That reporting is completely incorrect. We issued this [statement](#) last week:

**August 12, 2022, statement**

The National Archives and Records Administration (NARA) assumed exclusive legal and physical custody of Obama Presidential records when President Barack Obama left office in 2017, in accordance with the Presidential Records Act (PRA). NARA moved approximately 30 million pages of unclassified records to a NARA facility in the Chicago area where they are maintained exclusively by NARA. Additionally, NARA maintains the classified Obama Presidential records in a NARA facility in the Washington, DC, area. As required by the PRA, former President Obama has no control over where and how NARA stores the Presidential records of his Administration.

I hope this helps clear up the matter. We take our non-political role as the nation's recordkeeper very seriously.

Sincerely,

Debra Wall

They bribery Brahim Aioussaoi(terrorist) to kill french people at nice in france. They bribery anthony warner to kill asshole americans at nashville, tennessee. They bribery to president trump and ANTIFA to attack capitol hill. They will tell to antifa to attack capitol hill on 1/20/21. They bribery to Robert Aaron Long to kill asians at Atlanta, Georgia. They bribery to Ahmad Al Aliwi Alissa to kill people in boulder, Colorado. They bribery to Noah Green(negro terrorist) to attack capitol building. They bribery to Kim Potter to kill Daunte Wright. They bribery to chicago officer to kill Adam Toledo. They bribery to Brandon Hole to kill fedex workers. They control Tiger woods car to injure asshole golfer. They send noose to hang black people at the amazon site in connecticut. They bribery to Samuel Cassidy to kill former co workers inside Santa Clara VTA. They bribery to russia president to hack u.s gov. They want to burn tulsa building because they hate negros. They bribery to Marcus Eriz and Wynne Lee to kill Aiden Leos. #LOL They bribery with Russia to hack the 2016 president election to win the Trump. They bribery to chinese people to sell live bats and snakes illegally in wuhan, china so all around the world have

coronavirus. All apple products have covid 19 entire world. THEY WANT TO ASSASSINATE WORLD LEADERS, royal family. They bribery Donald Craighead to attack capitol hill. They bribery to navy nuclear engineer Jonathan Toebbe to send u s navy document to foreign gov.

Piece of garbage apple stoled ipad, ios, and iphone names from many companies and their software copied from different companies. Iphone design copy from sony phone and htc phones. Vertical camera is from windows phone(lumina950). Apple stole Animoji trademark and features from tokyo's e- monster. They stoled facetime software features from Virnetx, so they pay 440 million dollars to Virnetx. Apple stoled biometric sensor from Valencell. They stoled modem tech and gave it to intel. They lied about iphone, ipad, and ipod, macbook, and imac, apple watch screen size, pixel count and they are cheating benchmark scores for all apple products to u.s congress, fcc, and cia, fbi, and world. Apple card is hacking your info from russian hackers. They don't support metoo movement and they are doing sexual intercourse with co workers(women), underage girls, and many celebrity as melina trump, kim kardashian, kaitlen jenner, nicole richie and many actresses to lick their wet pussy while they are having sex on the bed like Harvey Weinstein and they have a sex with men while they suck men's dick like Jerry Sandusky. They rub the all apple products screen from men's asscrack and women's bloody tampons. They rub airpod from men's asshole/dick, and women's bloody tampon. All apple users will get ebola, measles, and std, hiv around the world. They sell marijuana, cocaine, pot, weed, heroine, and heshish, opium, AMPHETAMINE, METHAMPHETAMINE, and crystal meth. They always make jokes about gay and lesbian people like what is called lesbian with viagra? Batteries Why was the queer fired from the sperm bank? A: He was caught drinking on the job. They are very to burn stonewall inn in greenwich village at new york city. They want to kill lgbtq people entire world. They hate all religious people such as jewish, catholic, christian, buddism, muslim to kill all people around the world. They are making hydrogen bomb and atomic bomb to destroy white house, capital hill, and supreme court. They always say to foreign people to go back to their country. Russian hackers are hacking ur informations from email, facebook, and snapchat, instagram, myspace, twitter, credit card number, and phone number, apple pay, apple tv, itunes account on all apple products. They will ban around the world. All apple products are exploding like atomic bomb. All apple products are Data-Stealing Malware Attacks from russian hackers. THEY HAVE A LOT OF ISIS VIDEOS ON EVERY APPLE PRODUCTS. This is 1000% true info. They always write racist, religion, terrorist comments on point view project, facebook, snapchat, and instagram, twitter to entire world. Do not listen to Tim cook, team, and lisa jobs, and jimmy lovine and ming chi kuo, retail stores around the world. This is too shame to company and them.

COULD YOU BAN ALL APPLE PRODUCTS ENTIRE WORLD RIGHT NOW?

Hello from Canada:

Your May 10, 2022 letter to Evan Corcoran is awesome. Please do not stop pursuing this event. Exciting to see it published, but sadly, not sure if the low income, trailer park living , undereducated Trump supporters can read!!! (I'd add toothless, but that may be too rude.)

I think it would be great for a woman, especially, to bring the former guy down.

I'm not a crazy, just someone that would like to see the Trump train to end. And, it truly does need to end.

Sadly, the orange from the orange man, seems to have rubbed off on to some Canadian politicians.

Thank you for being truthful and bold.

Hello Ms. Wall,

I ask you to be an honest person and stop tearing our country apart.

As a high school teacher of 31 years, I can tell you that you are contributing to the ruin of the lives of our younger generation.

Look at the model of corruption you are presenting to the younger generation.

I ask you to consult your conscience about what you do.

Matthew 10:28 - And fear not them which kill the body, but are not able to kill the soul:  
but rather fear him which is able to destroy both soul and body in hell.

You did nothing to Obama or Hillary -- think of your model given to the younger generation.

Wall wrote. "... I have therefore decided not to honor the former President's 'protective' claim of privilege." Wall wrote. "...

"If anyone causes one of these little ones—those who believe in me—to stumble, it would be better for them to have a large millstone hung around their neck and to be drowned in the depths of the sea. Woe to the world because of the things that cause people to stumble! Such things must come, but woe to the person through whom they come!

---

Perhaps you were raising an issue with Hillary Clinton's destruction of emails, servers, etc. As she waltzed around the world perusing top secret emails on her phone, were you concerned as well and if so, did you express it to her campaign?

Perhaps you contributed to her campaign.

Do not know the answers to any of these questions but with the disgusting behavior of so many "politicians" in D.C. I am prone to assume the worst.

Ms. Wall,

There should be an investigation disclosing all correspondence in the Trump/Mar-a-logo debacle.

The news media is reporting that in one letter your office said to “fedex” documents back. Is this true? I’m not understanding if this was such a national security issue why would there be an option to FEDEX critical documents back?

I also believe your party affiliation should be disclosed.

If this is the new standard in how we obtain documents back from former presidents, it needs to extend to both political parties.

I sincerely hope a very thorough and transparent investigation ensues...disclosing all correspondence from your office, the DOJ and the FBI.

Please tell us more.:

Is NARA politically biased..... Appearances are everything.

In

the very least the Department has been used to progress an obvious political Agenda. We are clearly in the information age

where secrets can't be easily tucked away forever.

The obvious is that every President before has had extensive leeway in accessing, negotiating and maintaining their documents. Of course, never has a President had so much false prosecutions lodged against him, and had the records to to prove it.

The people in the United States, as well as all over the world now know of all the efforts to dislodge him from his role.

Bottom line, everybody knows it and IT WLL COME OUT eventually, and much of it has already.

Whether the people at NARA, FBI,NIA, SEC, WHO, IRS, DNC. RNC, etc. like it or not, people have lost trust in all of the United States Government agencies, and the deeper it goes the greater the disconnect. At this point , its irreversible already.

Bottom-line its simple

If it walks like duck, quakes like a duck, its a duck.

NARA is just another duck

Would you like us to send you a response? Yes

Subject: Neither/Nor Either/Or

---

Dear Ms. Steidel Wall,

"NARA has received messages from the public accusing us of corruption and conspiring against the former president, or congratulating NARA for 'bringing him down,'" she continued. "**Neither** is accurate **or** [*nor*] welcome."

We use neither and nor + auxiliary/modal verb + subject to mean also not

[https://dictionary.cambridge.org/us/grammar/british-grammar/neither-neither-nor-and-not-either\\_2](https://dictionary.cambridge.org/us/grammar/british-grammar/neither-neither-nor-and-not-either_2)

Either... or... connects two choices.

<https://dictionary.cambridge.org/us/grammar/british-grammar/either-or>

<https://editorsmanual.com/articles/either-or-neither-nor/#:::text=Use%20the%20either%2Dor%20and%20neither%2Dnor%20simultaneously%20negates%20them.&text=Either%20my%20mother%20or%20my%20the%20ice%2Dcream%20is%20here.>

As an information governance professional and a public historian I know that NARA is critical part of our government and a critical resource for all of us who love and understand the singular importance of our history. I attended an information governance conference in Washington, D.C. years ago and the best "after hours" event was the "Night at NARA!"

God bless and keep all of you safe!!!

<https://www.palmbeachpost.com/story/news/state/2022/08/09/trump-mar-lago-raid-why-were-federal-agents-florida-resort/10273118002/>

It's probable you already know the information provided in the above linked news article. But it's been troubling me since I read it so I'm passing it along in case you are not aware.

It's from the Palm Beach Post via USA Today reporters who appear to be domiciled in Palm Beach or environs. I searched all the major newspapers and could not find the same information anywhere else.

Specifically, there is a small bit that reveals from a local Florida source that the Secret Service at Mar-A-Lago were given advance notice by the FBI that they were coming to execute the warrant. Of course the Secret Service had recent experience in "losing" evidence (January 6 phone records). So it sounds like a really bad idea. Ostensibly, they informed the Secret Service so they could let them onto the premises, but they could have done that without any advance notice and I imagine the desk clerk could have done the same thing.

I wonder if those USA Today reporters know whether the FBI officially apprised the Secret Service or if it was done unofficially by someone. Was the AG aware? Are there surveillance videos tracking the agents after they learned the FBI was en route or are they nestled up to the Jan 6 phone logs somewhere in the Andromeda Galaxy?

Again, you probably know all this already and the whole thing was completely innocuous. In which case, just hit delete. Of course, if you feel like letting me know that it was all official and okay it would help me sleep. I keep awakening from nightmares that Putin and Muhammad bin Salman are hanging out on a yacht somewhere reading and laughing at all our secrets.

I appreciate your excellent work and wish you the best of luck tracking down the rest of the documents. (And I'll understand if you can't get back to me. I'll just chew on more melatonin.)

Dear Lead Archivist Wall;

I am choosing to comment to and respond to the latter points of your notice to National Archives Employees and their apolitical designation while preserving the nation's documents. In this notice you both refer to the nation as a democracy and a republic. I will not concern whether you believe these two are synonymous and I am not seeking this argument with you. It is at least one of the matters I am going to raise.

Alexis de Tocqueville and Benjamin Franklin are two vermin in United States history poorly covered and quoted by historians. Tocqueville laid the charges under our nation to aspire to very little in cause. We were a great experiment. Each day as I might venture to work I have a cause and list of things to do. I do not turn on my Digital Audio Workstation or MS Word and say "what shall my experiment write? Inspiration leaves a plan; is a plan. If our country is summarized in dire straits... we shouldnt be surprised that the forefathers and columnists fell for it. The Usgovernment did try to stiff France for its aid.

To say it plainly, we are foolish to adopt very little in substance and hype it as nationalism. The heat of battle inspired the colonists , or at least their congress, to adopt the Star Spangled Banner and again we have an anthem of surviving just over night; just long enough to see a banner. A few years later the British burnt down our first Whitehouse. The cause of a nation is never so brief as one night of pajama partying in the trenches. Our nation is not well designed and worse still that Benjamin Franklin is so oft quoted "a republic if we can keep it" . This inventor's context is not well understood. The "republic" he refers to is in the reference of his bathing friends who speak French. Friends who would soon be lynched as the scapegoated aristocracy in times of dire attrition in FRANCE. The French Aristocracy were the republic. Is it that republic we admire? Nay. Nay; For Franklin's admiration of the French , he was one inventor playing with lightning where lightning should've clipped that quote in a hundred hot amps. I dont like him on that one.

But why would I say that? Why would I start with that debate? Because our nation needs a new constitution. In Engel v Vitale , we find hard decisis that the separation of church and state existed in a sound demonstration of distressing damages to each. Damages of ideological fiction disturb the federal government's means of function can also be recognized as "Distortion" by Austin v Michigan Chamber of Commerce. The Quakers and Pilgrims that departed England to worship by their freedom do have a right to worship any religion or make their own but they do not have the right to be heretics as trinitarians became unitarians. In actuality as far back as Egypt the Elohim/Atum and Ruach Elohim / Iusaaset catered to a male dominated condition of procreation lore and thats all it was. In the 1920s The male-only gamete story was officially refused in science and society. In the 1930s Martin Couney unveiled his child incubators for premature babies that would otherwise die. The child is not ready out of the uterus. Even by age 3, the child could not actually function in our society expecting to flourish by Nature alone (or its plagiarist: creationism). After the child is cared for and has available parents not stripped to angered feeding .. and they know their own ego.. can they be functional adults. *"Shut up kid I'm trying to drown my debt worries with heroin, meth and saltines. Go play with the neighbors' Ipads and bikes."* .. is not parenting. *Children are abused and brainwashed with praying in school and not heard* " is not being educated. *Maternity leave! Those faggots! , you tell em fox news . You tell em. Expecting people to care for kids."* The vitriol in redstate America lacks thinking.

So when Quakers and so called forefathers restrict voting from women, from nonwhites, from nonproperty holders.. I recognize a need to call on the federal government to demand some degree of official departure from the term republic. Unless we intend to normalize bigotry, we are not the republic we started as and should not pretend there's something warm and cozy in remembering it otherwise.

The use of vitriol to suggest womens voting should be repealed, the overturn of the Voting writes act, the offer of personification to corporations without testing the concept, the nomination of Donald Trump as a party nominee firstly raises clear conflicts of our nations troubled narrative of calling itself both a republic and a democracy. We cannot be both. That both today is tribal Democracy fighting off The Markets Gross Negligence Party. Would you hire Donald Trump for anything today by your observation of his work ethic? Be a person in your answer; I 'd say more Americans might say *" stay fired and shut up"*.

Among the series of books on each branch of the United States government by the Annenberg Trust at Sunnylands, The differing of a Tribal Democracy and Liberal Democracy is merely by what rights the minority retains after the majority take seat. Our government still operates in majority and minority tribalism by its function. Its outrageous and primitive. Our congress operates in compromise of valued terms so that there isnt obstructionism. Thats not a healthy government. Its a mob fighting who gets the national mirror to preen about who's most patriotic today. Mirror , Mirror. Please break before we ask again.

In 1987 the League of Women's voters exited the presidential debates because the Democrat and Republican parties were coordinating rather than governing. In a room of only two options, "other" does not guarantee solutions or safety. And Shortly after that still Newt Gingrich pioneered a means of obstructing the Congressional business with shutdowns that should not otherwise happen. If we worry about January 6th's violence only by the matter of violence, then we are not asking our countrymen to see the longer act of deconstructionism against government by the republican party. Our dutiful choices cannot be made by interest, complacency and indictments by only the events worth headlines entertaining tabloids. Washington DC's tribal party system, as Annenberg Trust suggests, is the lower step just before a washout to no government at all. That is, only so far as it believes its a form of democracy when it is not.

I differ with Annenberg trust about the definition of tribal democracy. Majority wins. Okay, well when majority wins and the majority either stole an election or changed its stripes as SCOTUS nominees did on Roe V Wade, then tribal democracy is really a nice way to say fascism under the worst false majorities. If a Republican intends to call himself Pro republic, be then a federalist. They are not. If a Republican intends to call himself pro Democracy, his defense of trump during the impeachment hearings says he is not pro Democracy. As to whether we can say there is only Liberal Democracy raises wonder why any argument is made and what the identity of this arguer is. Who does argue some Citizens are refused the right to vote if being a Democracy is any other than policy? I argue that the falsehoods of crime set on the people is reason enough to not consider prison a shortcoming of the voter.

Liberal Democracy and A Republic cannot coexist. Cannot. So long as we keep believing they can and do, our nationalism only escalates into violence. In the earliest ages of our nation only property holders could vote. I believe it to be Joseph Story is quoted claiming voting should be detained from the profligate and foolish/impooverished. That same Joseph Story tilted with the times when he could be the judge to nod with John Quincy Adams that the negro should be able to vote. At least thats what page 410 of John Quincy Adams and the Union (SF Bemis, 1956) suggests.. *"The old mans heart beat hard and fast as his friend Story , speaking slowly and at great length, reviews. (blah blah blah. Tape fwd..). There does not seem to us to be any grounds of doubt that these Negroes ought to be deemed free.. just assertion of their rights (by Spanish treaty). .. Only Justice Baldwin Dissented"*. Until a Black man voting became a popular front in politics, Joseph Story was the ultimate bastard and Republic to refuse the White nonproperty holder the right to vote. All men created equal but all property owners created more equal, especially the slaveholders. Is that the republic you want to celebrate? Y/N. Then lets stop identifying by it.

In one frame, the republicans' bigotry is very much the republic act. The republic is not well defined either. Neither is Commonwealth. Today if someone declared a territory separate from an existing state with intent to call it a commonwealth.. they'd be shouted a communist or socialist. Yet , Commonwealth is also merely a term for a nation.

commonwealth

**1 : a nation, state, or other political unit:** such as. a : one founded on law and united by compact or tacit agreement of the people for the common good. b : one in which supreme authority is vested in the people. c : republic. ( *in that this was an Google search supplied definition, I believe it to originate from Merriam Webster.* )

Based on what dictionary you might use.. the ideals of tacit agreement of the people and general well being are not necessarily guaranteed even if they are modern terms of fairness among the public. A republic and democracy either are failing because they are as generic as our nation's experimental condition. It appears the definition of nation remains to be of its operation under rule and has not evolved to concern the wealth or well being of the public. It never graduated from classical management . Nor the exploitation of the public as classical management exploited/enlaved worker ants. Again today we have the private sector's labor contracts offered without federal scrutiny. Required arbitration, withheld benefits, clauses that refuse a Citizen to donate to what party or candidate they please. The so-called republican and democrat are allowing the market to feast on the Citizenry as if economics has ever been a good social system. It never has.

We need a new anthem and we need a new Constitution, this time adding the people's terms of employment and economics to it ; integrating the market without any arbitrary nonsense from the 5<sup>th</sup> column. What should they expect being a privileged cliq such as its own clan and should persist other than the people; I guess they'd just be refusing to be an American. The republican argument of "too much government is complexity of law" shines a light on their failures of progress. Well, with a new constitution in which more general morals are demanded and rights required for the people.. the law books after become much lighter. We need a constitution that makes the Supreme Court of the United States utterly jobless; no legalese. No translation. Its my belief the republicans know the constitution is threadbare and would not risk their benefits of vitriol to speak up about it. They've found their bad koolaid dispenser and prefer to govern under apathy's claws.

Its my view that just as organizing an LLC or corporation might take 50-120 pages of declarations in contractual ink, so too must the United States expect to grow by at least as complex and detailed a plan. A mere 1-2 pages will not cut it. We are not under god. God as christian or generic \$19.95 latenight special monotheist goon has not been anyone's guiding light.

Most importantly we should be firing all the clerics in the entire US government. For mans laws to be important and designed well in cause and reading they must be by man only in governance of and among his/her/their (nonbinary) public. Not above them. Congress started the previous constitution as "we the people" but they are not . In their statement of being people.. have underwhelmed their countrymen's faith in having a congress too eager to speak for them. They saw so few of us. They saw so few of the people even when the Black, Asian and White ones were being used as, Cottonpickers, Miners, Postal Carriers, Babymommamas and cooks.

This congress ought to be more eager to state their own ethics.. else meet the same end as France's Democratic-manifesto revolution. We demand term limits. And they shall abide by their own skin. The electoral college shall cease.. found here electing the unelectable in donald trump: a scam artist with a party too sick on itself to nominate anyone at all. Take not these words for threat at all. These are words of recognized defamation of the public to be Congresses token " me the people" without any Cannabis to take upon. Criminality not by the law of Nature to have Cannabis receptors. Not Criminal by actual forefathers.

Incumbency must end so logic can prevail. The Supreme Courts must likewise be liable to their decisions in cost, in prosecution and in partisan bias. Money corrupts. Anthony Kennedy is a very foolish judge to let his pen author Citizens United. The speech of campaign politics is very different than the speech of consumerism's hypnotic cult call of want before need. If the republican is the mimsey to the market; every market crash celebrated as an inevitable return; the target marketing should welcome children as young as 10 to be federal voters.. if they have the faith in money the way they act like they have only faith in money.. they way they say they only have christian based faith.. but only based on christianity and serving their pedophile nationalism.. their faith is low except apparently in pedophilia , incest and poorly educated girls for the whims of dirty uncles. Every pedophile is safe under a republican umbrella as long as they're a loyal republican party line voter without question.

It is your right to be professional as an archivist. As a logical person who finds integrity professionalism a characteristic of serving the government; be not hesitant to draw a very wide breadth between those that threaten and those that mistake their applause. There is fault in you to lump the two together. I would appreciate better statements to that level.

Trump deliberately kept the documents for the current scandal you see now. Free press. Free accusations of the liberal government corruption; the government you serve. In the files now scattered among different designations you might find McDonalds wrappers or news clippings. These are the strategies of minimizing. For when announced on the news what appears to be reckless office behavior of handling the paper from the files is a way of saying : *Oh Top secret really isnt top secret of it has candy wrappers and the comic pages of last weeks Washington Examiner.* Its minimizing his insult to rule of law to use his office access to collect bait of a new presidency based on sedition. Lets not minimize it. Don't let it be minimized. Just because the contents don't speak of Top Secret Material.. the people are owed some degree of awareness if a genre of information is missing around one area. Whatever that might be, surely a benefit to Russia, may currently be a benefit to Russia. What I 'm clear on is hostaging the files for free press in scandal coverage is a pathologically narcissistic misuse of classified national secrets. For that he should be hung.. I dont really need your support for that view. Its now for United States Government's reputation that Donald Trump and his conspirators within the party be indicted as it is an ongoing conspiracy against government to whine that he is not president. Accessories. Accessories after the fact and his defense team.. A legal team outside their law licenses.I hope my words have added to your enjoyment of your work ,thats why I wrote.. to participate.

Enclosed is a project I've been working on. I would appreciate if only just only the preamble were allowed to the archives. unless you like the rest. I believe people need words of the people.

Respectfully

## #USC2 THE TASKS OF OUR FALLIBILITY

Content and Highlights. /// version 2.6:: July 19-3,202,020HomHabitus (HH)

Pg1. Preamble

Pg.7 Bill of Rights and Government Guidance

Pg.17 Government Organization

Pg 28 Reorganization of Regulatory Branch and Presidency

## 2ND US CONSTITUTION.

### THE TASKS OF OUR FALLIBILITY FOR A FUTURE NATION

**For Celebration on July 10;**

The Duties and Means of these United States  
can do better than a 4/10 on the international  
level of humanities, education, race/ethnic  
respect and environmental competence.

by (b) (6), MEP, WSGGC  
Gender Anthropologist

THIS Citizen found necessity to demand a new iteration of government. Freedom must be determined by Citizens, not overlorded corporations or stooge parties. Citizens are not silent; not merely represented nor offered a moment to lose/waive their voice/rights in the public or private sector. The condition of party membership, employment or association with an athletic or nonpolitical group did not and does not deputize business or organization to micromanage the freedom of speech. We learned from the first Constitution's writing when beginning 'we the people', it's drafter's ease of talking for individual voters was far too confident. From many party congressmen an exercise of liberty became an exercise of self pleasing. Soon the market joined in; and partisan favor/censorship followed.

A government that falls to corruption and loopholes does so by not suitably explaining itself in the constitution. From presumption becomes assumption, privilege and corruption by venues few can monitor before privilege entrenches itself. Where privilege is ..so are the weak of integrity. Politicians soon become habitated it's they who are represented. The people seem subordinated as blind sheep of their party and stump speech. A nation that falls to the corrupt does so accepting the government as though nothing could be better, hearing "nothing can be done"?; and reforms unpatriotic. They stopped hoping for better and they could not start looking and seeing better; even less vision without healthcare. The Appeal of what is sold as Americanism globally appears out of reach.

The Duration of the first Constitution veered toward a wasteful rival game of dominances. Two heirarchies of red and blue membership. A boxing ring for the media to glamorize instead of a stateroom. Our Citizens must be privileged equally; party and nonparty member alike. Donor and nondonor alike. Draw serious contrast against today's alienating republicans and democrats. Ideas as new as spandex shapewear. They make castes insulated in a hokey election ritual to segregate themselves from authentic populism and justifiable terms of business. We are Americans as an identity of status and not of a herd sent to foist about carcinogen foods and fracked water sources. In the eyes of party politics the voters; the Citizens; are their servants.

An American Experiment per de Tocqueville has been sustained a theme too too long. Our society is not the feeble result of guessing and hoping. The experiment meme keeps congressional performance expectations low. Legislators are so broken by party affiliation they refer to the public as consumers rather than Citizens. Many party delegates exercise personal choice owned more a practice of state and federal election; owed legal scrutiny whether a private organization or not. The voting process is the homestead of Americans in their government; not private organizations. Any direct line between the Citizen and government appointment is federal jurisdiction; voiding any manipulation of parties or groups to distort government for their majoritarian wants. Party delegates have voided party voters voices as though Citizens are patrons of a bad product instead of the shareholders in this country. Voters must not be silent between elections either. From smug incumbents are delivered talking points in adoration of donors, not salary or state... smug incumbents repeat talking points, short on performance. Such pride in subtext asks media audience to find the pullstring in their back, rip it out and strangle the vitriolic candidate and pundits with it. The function of representing the people is not fabricating an issue into halves of no consequential debate.

The flesh and blood of humankind are assured a priority interpretation of their rights and freedom. They demand a document to interpret for themselves; lacking need of "translation"; amongst a plethora of privileged judiciary. It's Americans' law, public law; concretely defined and given boundary in laymen explanation instead of serving literates and scholars of Legalese. That which is mortal are of mortal's will. . Law is a nation's identity, not it's oppression. Law isn't a blank check to make unnecessarily or by exploitation; not to nickle and dime the people; but to name all of them equally. Govern among, not above. In the ink of their generations' pens be not mistaken gods nor offer credit to gods for these laws the same. "Gods" do not sign their name to our laws nor have they set their signature in endorsement. A "god's" law doesn't serve the whims of people to allow self idolatry, vandalizing claim and bloodshed with impunity. Captive rationality was privatized therein. It will be set free.

The ever-recited Declaration of Independence continually granted a right to all Citizens that when a government fails to perform they will abolish it for a functional representation of their/our will. Access to a new government is always enabled, else people are trapped to a continual path of corruption protected by whom corruption privileges. In a process of renewing our nationality; it is not to proclaim a perfect union. When the "we" of us are a leader among nations it's because other nations and people's have named us such. Leadership is made in compliment, not self nomination. It's neither wrong to admit another country has better law. And Why could that happen with so congressman assuring people America is the best nation ever and ever? According to conservatives, despite our debt America will never go bankrupt. If so, why the scrooging on covid operations, hesitating on medicare for all, and veterans benefits? A gap exists between conservatives incessant patronizing of the military and the quality control/funding of veteran benefits.

We cannot ever praise ourselves "a perfect union" today. How will be prepared to be a better country tomorrow? To accept change is to be able as better people tomorrow. It is much by our hand that if we do not abolish a passé form of government not working for us.. we are our own enemies. It is the cumulative refusers making an idolatry of their foolishness instead. The Conservative's addiction to defending themselves "*duly-elected*" above '*that perfect union*' is an index case of toxic arrogance. Duely elected by those who didn't vote for them? The trickery in republican vitriol is there is no sense of shared identity with other nonparty Americans. Duly or Duely: homophone. The creeds are at odds that in no way could reconcile both parties choosing to compromise fanaticism against logic. No such "duely elected condition" is real. It only justifies two party monopoly over thought/ debate in the face of fact and the face of humanity's needs. Humanity traits republicans lack as well. Forsaking masks and quarantine advice delivered by their beloved managed care medical syndicate; they have only proven in action #republicanLivesDontMatter. It ain't a shame that dumb should be evicted out of the majority whiteness.

A while ago "our man" was created equal but their lifetimes were paths not equally led to success. Today's "man" and women.. our Citizens.. if created and privileged equally is accused a Marxist plot. More truthfully, classified too often are stray and frayed ends of rhetoric exposing party insecurities and corruption. Parties are a form of corruption when given majority stake in government over the common mind of the nonparty member. A religion of privilege is the blasphemy of our American system. (*There are no closed doors in our bills conferences save only for those terms about national security and not corporate security.*)

A great number of us have moved on in evolution no longer denying our sapient members by color. We do not cannibalize them for resource or uncompensated labor. Market leaders lag in ending repression of women's and nonwhites equality. Their two parties loudly demand a protestant white majority as if the British Empire was a current mindset. Our communal "Democracy Experiment" saw one party abandon it. A Party that wanted a king. The party that hears money as speech. A party that deconstructed agencies behind its role. A republican party that refused duties of appointing a new Supreme Court Justice in the passing of Scalia and a republican party that refused to impeach the 45th occupant for high crimes in office precipitating inadequate response to the Covid Pandemic. A republican party who's

Fox Entertainment network produces films warning about quarantine procedures and aliens bursting out of chests.. still they can't even manage medical precautions without leaving the planet.

While Lindsey Graham and Rush Limbaugh might proclaim the conservative base the savants of God, we find them in dictionaries defined a "cult of idiots". The republican party chose to be unfit for office.. beyond party; their base has identified themselves against the constitution and against a Democratic system. "Drown it in a bathtub," they said. Drown you in a bathtub! if only not to defame the water. "Drown gov in a bathtub" is the statement of a corporate anarchist who wants the market to live without any checks and balances. Time and time again.. Greed needs balance and control under dignity. Learn it or drown. The republican base nodded behind antiDemocrat and AntiLiberal vitriol but for themselves; loyal defenders of the managed care health system; allowed their nominee-US president to reside the oval office deliberately uninformed. His daily briefs were insisted shortened to such an ineffective few words that he could ignore the duties of office as a practice of plausible deniability.

The republican party have admitted their distance from serving the public. Alabama's Spencer Baucus pledged the government be footstool to banks; a stooge signifying ill worth comes from bled fields. Slaves still sought by the National Rifle Association's inner klansmen to be set again in slavery's chains. The people's government, flesh and blood, acknowledge and protect inalienable rights of all it's Citizens withstanding attempts of dominionism by real or false majorities. Next generations are waiting for their time to speak as the elders spend such time in congress and supreme court chairs they die in them. Party and generational arrogance monopolize law. If the young people of America will be forced to take control from the elder by force, have no surprise in another pitfall that can ruin a country; by fault of a stubborn elder generation. Trivial worries of dropping into a coffin without having lived a successful life of the missionary and zealot isn't federal business. For that and more detailed reasons all agencies and functions of government are forbidden to have chaplains or ritual prayer. Wise men, however they are inspired, are humbled by Death, not god. Elder worries become thick with self preservation and not shared interest.. Death steals away their immortal ego as it is sickened by stories to be other than mortal; just like the temporary life stasis planet they are upon and must escape as a whole ecologic tree. Darwin used his lifetime and we ought use ours for such wisdom.

From Darwin and Linnaeus we sought and penned want of truth. The White race offers greater than martyrdom and being a patsy to inherited castes of wealth. Do not forget this. It's our role to remind leaders and soldiers the Civilian refuses a war ideology and an endless stream of blood taking many forms. Indistinct in its baptism of nodding dittoheads or a wider populace denouncing lies fought under. What once were Rome's and Britain's flaws became our own. What was once catholicism and protestantism is visible; undisguised; warlording. Faith and state demand hearts and minds of people owed instead free will.

The people of America are what make a pluralist nationalism. Never will there be a single "American" to lord over people as justification for unjustifiable politics. Free will is not first given by god; It is given by being alive. We do not give blood to any vampire calling itself a tree of liberty. We do not fall as anonymous and unnamed martyrs in politicians' causes. Hear well, government. Power does not run (away) with you. Let that thirsty tree of Liberty drink of your family by their laying down in sacrifice; noticed and not anonymous; else chop it down. For all practical purposes.. there's something wrong with that one foilage. Something is very wrong in One god trusted divinely under racists' and corporate polluter's trample of vast lands in their own name. A man of faith chooses the narrowest gate. A soldier carries his sword in hand and heart for the state. A monk or nun carries their love of god(s). War homicide is not their way ; ever a way of christianity. Chaplains, vacate the military if you will not preach correctly. If our Citizen has a loyalty in their identity, only one narrow gate may they pass. A conflicted man in his reasoning becomes a sickened man confronting his split of deeds/needs.

Our previous Constitutional effort exposed that our forefathers did not expect corruption to originate from within the protection of the christian faith despite the marginalizing of many others. It was their err to not admit the frailty of

religion then. The frailty of catholicism and christianity necessitate a deconstructing agenda since their grotesque abominations do compliment wars; and empower holocausts. Both "In god we trust" and "annuit coeptis" shall be stripped from the currency for when the temple was filled with money-lending it corrupted the religion. When the temple is upon the money, the rich become like gods and the poor the sinners; treated accordingly beyond rules of law. Money may not be speech for this reason and Social roles are not capably mixed with religion. What evils appeared in the temple by sex or money embezzling the parishioners did nothing. They waited far too long for the fabled fire and brimstone. Where be this god so slovenly? Is it not reasonable the evils veiled as his own trademark righteousness should be strung by lightning bolts through his own arse to dismay "divine" teachings? And now, it's truthful frailties will end it. Creationism must end in America so that Americans are not foolish fucking idiots.

In the original wording of our Declared Independence we call on England to respect inalienable rights ordained by Nature and Nature's God. What is spun as faith is often rather an elaborate means of profitable clan familism; domestically and in foreign policy. Zealotry fosters pretentious declarations of "we are good people and claim America for us and god". What is "good" when law protecting Native Americans and Colonists equally would see the european sect one more murderous Australian penal colony? Americans demand protection from religion, not merely for the favor of those who practice something based on one. I reject any synopsis that one group may orchestrate a divine being for their politics. If pledging faith first ahead of American's demise under a god's name then likewise the faithful shall be held to bear the crimes of that deity/deities. Enforcement shall surely enrich the sane and social of us. I reject divisive political religions to be Nature or Nature's god for said reasons. The separation of state from church is now absolute.

"God will not be war on other Citizens and the government shall not war; shall not allow war vitriol at tractic; in its own house. So many arguments are made for the political will of 'a god' to manifest in acts injuring Americans. The conservative partisanship is the source of these views. The source of these arguments are a group that also exercise serious negligent and reckless favor for profit at Nature's expense; perhaps demise. Extinctions are one such penalty to raise against them. Extinction follows, again, the ongoing pattern of video-proven lapses for social skill and insolence toward society at large in this covid crisis. The doors in the Department of Defense shall not train soldiers of faith for faith is not what war shall have basis. Militarizing the defense department with destructive religious fanaticism only enhances the illogical waste of it's wants/guidance. If god injures Americans, then God will be set on the terrorist watch list, shot off his fucking cloud and felled ..spewing what blood gods will spew. For what is religion? It's unjustified creed. Creed is that which we see continually ignored in protecting our individual people to speak, express, present and be an activist in their personal hours beyond prejudicial retaliation by law, employer, school or family.

Neither the United States government nor the provinces shall insert law making expectation of a particular birthrate nor endorse a morality of exclusion. Sexuality and gender are psychological health aspects of identity. Only in the choice to be a parent shall standards of childcare be made and a right to sexual activity shall not be presumed to be a status of pregnancy or owned custody by the state. Monogamy is now dismissed as well as bans on polyamory; to be clear that no partner in sex is a subordinate. A female is guaranteed the right to be sexually active without becoming a mother; the baby her sole ownership till birth. Procreation is a social health of nurturing a society. The circumstance of that procreation makes all the difference of positive esteemed children and well adults. The Citizen privacy and privacy from any toxic (classist) religion/creed is indispensable to the public business. But creed must be protected. Creed must be protected from the will of employers, social castes, and all those who would find it unpopular by concealing their own liability against it.

Respect of beliefs starts at our home/rental property edge and not merely our doorway even from deity itself. If one's parents have a faith, savor it among the family if it is healthy for them. Do not send children out to preach and call at our doorways. As Christ was a sacrificial lamb expect none different to Mormons, Jehovah Witnesses and other zealot freaks who defile each our palace of person. Religious sects shall not solicit residences for any cause. EVER. In the so

called marketplace of ideas, it is each religion's or beliefs role to be available and judged by it's merit. They may not conceal itself in wholesome claims of morality and spiritual perpetuity upon the public at large.

Americans are made in their own image; and owed commercial compensation at all times, whether idiot-starving-fashion-model, musician , artist or famous cranberry bogsgman. Those who opt to have no religious affiliation are equally Citizens. Humanists/ Atheists have a belief in self accountability; a maturity we expect of gradeschool children. Self accountability is greater than codependent morality. It is for the people's betterment and Nature's preservation America cease demand "blessings" or presume itself "god favored" in cheer, psalm, anthem, oratory ear humping, Congressional essay or march. To our lucid awareness this shame also extends to economic religions.

The newer religion of capitalism and eventually a globalized freemarket demanded Americans accept formation of a standing army. On paper they prayed for competition and in practice industry titans were monopolists. If racially the european was a monopolist, how could we expect a system built for competition to last? Our History channel of the cable services celebrated the prestige of the Andrew Carnegies and Cornelius Vanderbilts as "men who built America". Meanwhile, laborers exploited in that construction were assured the religion of economics would serve them prosperity on slavery and imprisonment. It served them bullets. When the European had no further Ebony or nonwhites, they would turn on themselves for slavery; they still do. Wages merely fetched the bread and water for the whites at grocery stores while the shackled were served at their huts and shanties. The "rush to have built America" was not a collective project by Americans. America is not built. It is experienced.

What Carnegie and Vanderbilt constructed are mere buildings and monuments to wealth beating society to do it's bidding; Murdering society when it yells "fairness and civility". Pittsburgh's Homestead Massacre and Lattimer Massacre in Hazleton, PA showed the breach of equality. White coal miners were murdered at the hands of hired militias for taking a factory sustained in their toil. White men demanded the equal pay for work garnishing the factory as collateral. Longer work shall be compensated adequately and necessarily. White victims were martyred servants of protestant race reichs as well. Their commercial personification exchanged forth labor and were owed the wages of that labor. A tab of blood yet to be paid. When we address reparations, White victims were beaten and stolen from under slave owners. Whites are and were among the enslaved. Electoral College's construction shows this breach of fairness. Despite the Democracy inked national ideals, We are all subjects to fallibility. No electoral college can change this. It is our practice of living that must not make fallibility an inroads for frivolity or stupidity. The people must practice being ideologically strong for themselves.

Civilization's natural need is acquiring a better social status of living. Humanity is not always bundled to the lures of economic prosperity. Communal needs shall not be obstructed or confined for profit save that reasonable accommodation helps both groups. One group who like to party shall not be deprived of a zone where public drunkenness and dB levels are not restricted save that it is equally participatory and functionally habitable. We shall rise out of sapien ignorances to what is our now phase is. What eras of a species we become (and rather not industrially mutate into) are important planning. We are not to be lorded upon by god's of sapiens, neither. The human animal hybrid ban is not recognized only cautioned on playing ethical scientists. Ethical and caring is all we can be. In saying.. too many creationists play god without 100% of scolding directed at them. From the court house to the legislature common logic will be the basis of thought; not faith. The religion of economics effects what is now the religion of politics. We are not beholden here to politics; the stray thread of it's purpose.

Politics and religion attempt to explain behavior where there is no logical path. This makes our government beholden to the illogical path, the wasteful path, the hateful path, discriminated path, and foolishness reserved for the entertainments of the political caste. We call out their ambivalence and invalid filthy production methods against this planet Earth; the great turtle.

The People will be protected as a consequence of being a mammal firstly having a sovereign relationship with the Earth and Nature no government may interfere or prohibit. The government of these people is forbidden authority of vice prohibition and in all iterations of the government of the American people. In special recognition American Stoners are an identified Ethnic Culture this day. Remind our governors on all levels of past gross misuses of law to name people enemies among us. It is ever a government among the people, not above the people. Officers/The elected shall take no other understanding.

All who are Citizens and who are Cultures of Citizens shall be privileged and have their rights protected and enforced equally. They shall be known by their social names; not convenient party divisions; and not potential profitable incarceration statistic groups. It is American's government role to protect themselves from majority favoritism (two party system) , party meritocracy, and from those circumstances where parties (or individuals) seek to emphasize, indoctrinate, spread disinformation as a plan of religion to set forth its own abnormal and nonneutral governance. We have evidence these groups act without respect to all creeds. Creeds that would naturally dissent to factless causes, foolishness, propaganda. Aforementioned malevolent groups have showed steering trends toward autocracy and dictatorship. The government shall never permit desperation upon the people and shall forbid business and religion alike from demanding it of them.

The country has been themed. Our history has been outlined. Our future is planned but never assured... Our ideals staked to make a better government for all who adopt it and a purposeful nod to be naturalized in its support in so far as it serves the needs of the environment priority first. A need for our post colonial and post-immigrant state is re-erected in form to have respect. It is our nations new role to respect what it means to be Native American. Their reservations are guaranteed lands which shall be defended by the National Guard against ANY state or industrial want of their territory. The Native American's lands are sacred to us and them, and their youth must be offered a golden future. Make available what "Europeans" call a good a education and technological preparation. If furloughed teachers need a new job.. help yee raise the Native American people up.

**This Land Shall Be A Liberal Democracy Assuring No Privilege to Any Group,  
Not Even Politicians.**

## CATEGORY 1. GOVERNMENT OVERVIEW

We learned in the writing of the first Constitution Presidency a subtle means in creating a king. Over many terms the media and legacy investment from party electees confused the war powers act, executive privilege and mandate as an allowance for Presidents to exceed the executive branch. The White House has become a throne over the entire nation. The People, in adopting this Constitution, refuse to identify the elected as leaders and instead expect impressive, prompt and selfless duty for their office. Rejected are those who set their incumbency and party majority ahead of federal duty.

Adultery will not be a crime or impeachable offense save but that the individuals were not consenting. Rape is a crime and a current rules of the Congress forbid relationships between staffers. It must be explicitly said applied to all three branches and interns as well; no matter how hormonally stimulating they are or act. Conduct amounting to distracting behavior or dress in the federal government will be grounds for terminating nonelected positions for all staffers. The internship programs will not be an escort service or highway to great places if the young professionals intend to climb the ladder by their crotch. Where the secrecy of the bed and nefarious libido ask respect also there rests privacy of crimes against state in blackmail. If you expect to learn something in an internship with a federal government office; bring your chastity belt for the entirety of Capitol Hill, Pennsylvania Ave, and among the "media".

The presidency has from time to time had a function of putting a bib on people and spoonfeeding them bad news from the Oval office. The presidency has had a heritage of being the American people's salesmen of values. And so the Presidency needs to more frequently account itself to social, economic, foreign policy and personal begrudgements in the news rather than with the media itself. The presidency has been required a yearly State of the Union. In adoption of this Constitution we now demand quarterly reports, (which can be prerecorded) and no rhetoric. Let's cut the applause from the do-nothings. No government official is owed use of the fifth amendment. By pleading the 5th Amendment they admit behavior outside their office role and owed no respect. In pleading the 5th they would be confirming material knowledge deeds they owe the public detail about. If they will not be forthright about the matter on the first asking waterboarding, backwards beheading and any measure to find those answers to penalize their perjury will be acceptable. The 8th Amendment is also redacted for crimes by officials against the people and the whole of government.

The People are Posting These Rights as their Own; Inalienable, Equally Offered, and Equally Recognized by all government employees and elected persons; state and federal alike.

### **1a. The Freedom of Speech**

The Freedom of Speech is a bond between the individual Citizen, and the government in address of grievance or other conflict. Free speech has the possibility of being Witnessed by other members of the public in all its forms. The public is not protected from insecurity or discomfort with popular or unpopular matters being stated insofar as it should be productive to the discussion. Freedom of speech is not extended to positions of representation where delegates are alleged to represent voters even in a private organization setting. When a party or parties infest the electoral process as a mechanism of identifying itself a representative of a significant portion of the public, then it is beholden to criminal liability to fabricate it's insider politics as the will of those people. The Voters are Americans first, party members second.. unless of course their affiliation to party is antigovernment and then they are neither party nor Citizen at all.

Freedom of speech is not protected in horizontal harassment or exclusion for personal religion conceits.

**1b. Freedom of Expression.**

To display for one's own declaration on a publicly neutral ground for which must be provided.

**1c. Freedom of the Dutiful Press**

The Media is protected to report objective fact finding and presenting information to the public for their observance of the political roles in society. The Dutiful Press is the ideal case that anchors and stories are not excessively edited to protect the privileged wealthy or media owner's overindulged interests. Two presses are now active in the United States. An attempted at "the dutiful press" and the platform press. The platform press uses it's access to a wide variety of listeners and a specific type of brand audience that it has an opportunity to alter news to promote a viewpoint. The Platform Press is liable to damages incurred by the public for skewing debates away from common and educated logic decisions. If one media group chooses to push the narrative " All Black people are rioters and unAmerican" and the 20 day period after that viewpoint finds an increase of hatecrimes against Blacks Americans, the media company is liable to the families and victims. The government has a duty to protect a dutiful press by energetically reducing ownership and influence monopolies on news services. There is now a recognized conflict of interest in protecting press that the government must break mass ownership of media as a type of trust. and to label the corruption of a "trust" to a more unfortunate identity.

By this action the government unfortunately is also offered the string to modify the reporting to its secrecy or utter humility/vulnerability; But it's not a role. Like the press, the government actions are individual's and agency's actions. As the government must divide itself from religion then it must and remain divided from the press. Collusion will be a \$2billion fine.

**1e. Freedom From and Protection of Religion**

The practice of religion shall not be restricted from the individual nor shall the government directly or indirectly establish, or practice a religion, presume or prefer a majority religion or privilege membership to a religion. Citizens choosing to have no affiliation to religion shall be protected and all Citizens shall have their space and property, rented territory regarded as to forbid zealotry from another belief or faith. Door to door zealotry is forbidden. It is no case for practitioners of any religion to raise scorn or harm against a Citizen for ending an affiliation with a religion. No religious litmus is allowed in campaign dialog and targeted attack statements featuring religious litmus will be leveled \$30k fines for each appearance. "Godless Liberals" is a unconstitutional religious-litmus attack.

**1f.** A Group of Citizens forming a minority or together groups together being other and smaller than then a majority are protected from having their Inalienable Rights being disintegrated, reapplied or redrafted for ease of withdrawal of equality. This Right is stated to declare the evidence of racism and sexism caused by bigoted activists among a majority protected religio-political group.

**1g. All religion shall be regarded a masquerade of political speech intending no objective self accountability for it's reasoning.**

**1h.** Political Speech of the Citizen is protected from civil, associate, employer, or professional group retaliation when occurring outside the direct hours of employment. An employer may not restrict the Citizen's political views from being expressed in so far as the employer isn't hosting them during the time of that expression and is prohibited to reduce their speech/expression in any contract or settlement.

No Contract shall disable or extract from a Citizen the right to defend themselves legally in society or the workforce. Unhealthy risks posed by employers or associates may not be silenced or become a privatized reporting scheme at cost of job or as a legal obligation of confidentiality. No Citizen will be obligated to any terms of arbitration or other settlement as an alternative to seeking assistance in a state or federal labor department and tort claims. Any attempt to

misdirect or obstruct Citizen rights and cover-your-own-ass provisional necessities is throttled with a \$76,000 fine to split between gov and victim. This fine shall not be held concurrent with other losses.

**1i.** No contract with an American Citizen for the purpose of business, marriage or other agreement may stipulate or enforce a situation where the Citizen will subdue or not express their personal activism and all other rights a Citizen is guaranteed. Nondisclosure agreements about sex, romance/dating/divorce or rape-molestation are illegal. The public wellbeing is endangered when individuals with risky reputations are allowed to run loose without fair warning no matter how much they've paid to cover damages. A financial nondisclosure is acceptable but only for concern for protecting both parties from tertiary extortions.

If such language is included to a contract, the [United States government] and [Individual Citizen] reserve the right to split the penalty of \$76,000 dollars between themselves.

**1j.**<The between greys of 1h and 1i>

**1k.** On elections generally:

Robocalls are prohibited; survey and solicitation by phone and cellphone are banned. Citizens accounts wanting privacy on a do not call list without exemptions is mandated. Citizens may only be approached with a survey if all running candidates are on the survey for the office inquired upon. Surveyors are encouraged to poll the internet instead and let pools of people identify themselves for availability. Surveyors do not necessarily face blame for fabrications of social research but disinformation advocates have ease of disguising themselves as surveyors and extract financial and data information that is ultimately harmful to the residents. The household receiving repeat "surveys" have little way to know or factcheck pompous scams on the spot.

## **2. The Freedom to Bear Arms.**

The American Citizen is guaranteed the right to access of firearms, rifles, hunting materials and ammunition for self protection. They may not extend the 2<sup>nd</sup> Amendment as to further their Free Speech as a visual tactic of intimidation. Do not rely on your gun so deliberately that you become too much of a fat-ass not to throw a punch when necessary. AND: in the era of the Tea Party, open carry was deliberately suggested to assure their free speech would be taken more seriously. Undisputed is that one torch carrier in Charlottesville protest was insecure with being seen as hateful. If hate is your speech, you had better believe in it. Believe in what you say always and you won't need a gun to be your adult pacifier/ esteem blanket.

The presence of firearms is an indication of insecurity with the platform or it's outright fraudulence. Those planning the Charlottesville protest with yells of "Blood and Soil" had been found preplanning violence on blogs. By those terms, those who intend open carry with their free speech have been found to harbor ulterior motives of violence that undermine 2016 precedents of first amendment free speech.

A self identified Nonresident, or alien-tourist resorting to assault against an American Citizen expressing free speech is not offered due process. The Citizen is guaranteed the right of retribution via Lex Talionis not excluding a criminal trial for the assault.

**3.Habeas Corpus is guaranteed at all times; no emergency retraction is authorized to prosecute Citizens. Martial Law is forbidden in all cases. A President exceeding his office role does so in offense to the US government.** In cases of emergency, contingency plans for such events would relieve panic grabs of power like martial law. If such excessive cause is believed necessary, make the public aware of the contingency so it can be better crafted with their rights and not against.

**4. The Citizen is guaranteed the right of protection from coerced & unreasonable searches and seizures.** The US Government must first show probable cause to seize or search a Citizen's belongings, papers, effects, vehicle (having all windows rolled down or up), cell phones, papers, effects, habitat or other assets. To do so requires a warrant and any effort of intimidation to demand a search without a warrant shall be undermine the agent/officer as impostors. Fire at will. To assure safe travel, the TSA may have additional rights of search. No agency may demand the passwords of communication devices for Citizen travelers.

**5. The Citizen is protected from incriminating themselves.** They may continue to plead the 5<sup>th</sup> in accordance with Miranda Rights. The Citizen also understands that if committing a crime and responding 'not guilty' that all time of the jury, court staff, and lawyers is unnecessary inconvenience at cost. This sum will not be discharged by filing bankruptcy. A sum of perjury fines respective to lying and all other expenses shall be at their cost if found guilty beyond a doubt and not be eligible for plea deals. Perjury committed after a plea deal will nullify all plea deals and disqualify the person from any further plea deals. Fines arrived at through perjurying the 5<sup>th</sup> Amendment or through felony cannot be discharged by bankruptcy. **The Fifth Amendment is withdrawn from ANY person serving in public office and being questioned upon an activity resulting from use of that office, having transpired in the buildings of that 'office/agency', having involved other members of that agency, or a private matter showing a parallel to corrupt behaviors also occurring in office.**

**6. The Government may not seize a Citizen, their affects, or their residence for quartering soldiers or condemn the Citizen for objecting to known criminal conduct while in war time.**

Citizen Chelsea Manning made the world aware of conduct the United States government permitted at the cost of it's own trust with the public. The government may not imprison anyone for 'doing the right thing' on behalf of obedience to humanity.

The public was later informed by Edward Snowden that NSA spying and warrantless searches continued despite the guarantees of the 4<sup>th</sup> Amendment. United States Citizens here refounding their government covenant with undisputed rights and their understood choice of violent retribution if an officer of the government goes outside those boundaries. A rejection of Citizens' guaranteed rights is a rejection of the source of their own privilege to serve the country in classified and high security situations. The Citizens have a duty in calling out and punishing imposters operating with official authority to unconstitutional ends. Imposters under authority are not credible to limit or curb assembly to only peaceful for what they've done shall not shelter under peace or credibly protect themselves with the National Guard. The National Guard shall never side against the lands of the Native American. Any state representative or politician requesting it shall be shot in the head on the spot.

Thereby the drug war and enabling of undutiful torture then demands the federal and state governments forfeit the right to seize property except for the most excessive of climatic offsetting measures. (defined in my Environment Chapter, Ie building a heatsink bay in desert). Property may not be seized for tax evasion, not even if a bank lean is eventually sought to pay taxes. The government may not seize your primary residence ever. Rephrased: All Citizens when owning a piece of land zoned suitable at purchase to erect a house/habitat and then having house or trailer upon then shall be assured the inalienable right of private habitat. Home owners associations are illegal.

**7. All Citizens are guaranteed the right to sexual activity without preconditions of procreation and parenting.**

The United States Government shall recognize a Civil Union of two to nineteen consensual members. A polyamorous group replicating bonobo family clans is anticipated to ease social tensions and lacking guardianship and nurturing for the young. This right assures access to birth control and abortion. No religious opposition to abortion is regarded. The (united states) Liberal Democracy is a multiracial culturally pluralist nation not excluding any of its Citizens from acknowledgment on any measure. Citizens are identified as a living contract to be social among fellow Citizens without

dispute of their applied rights.

**8.Minors have the right to refuse sexual relations for any reason including conflict with parents or the social group they live within.** The Federal Government will prioritize the health of the child ahead of the respect of a religion. In states where the age of consent is below 18; the liberties of the minor will be regarded on par with adulthood and emancipated automatically no matter her choice of mate or sexual activity choice having no monetary compensation. A child is not personal property after birth. State protection when in harms way created by parents, relatives shall intend exceptional education, nurturing and preparation for a trade and professional field. In turn, states shall assure every minor of age of procreation shall understand basic obligations to parenting responsibilities under state law no matter their qualification as an adult 10,8, or 4 years later. Without the ability to understand sex, the minor is being exploited, abused and vulnerable to both when unprepared.

A minor engaging in prostitution, despite aggravating circumstances, must be charged as a conspirator of her own crimes. It is her duty to seek law enforcement and public health center assistance to report the pimp/trafficker. A direct threat to her life does not weigh circumstantial mitigation but the inability to literally travel to police is. The attempt to traffic a minor will be sentenced to death by burning. The pimp/boss found propositioning sex work with employee minors shall also be sentenced to burning.

A religion guaranteeing wives to a male amounting to justifying statutory rape shall be determined void. All members of a relationship shall have equal benefit from social and sexual activity. The federal government reserves the right to prosecute state/provinces and local government officials for not protecting the minors up through capitol punishment for the worse cases of abetting, accessory, obstruction of justice and complicity. If the minor dies, so too the entirety of the direct line of persons in the failure of protection. This is an overpopulation culling policy.

**9. All Citizens are guaranteed the right to record police and public official activity(in public areas).** It is with the understanding that recording and drawing attention to yourself taunting the police is counterproductive since any particular corrupt person that's armed and in uniform can be expected to incorrectly make use of force or weapons.

In making record of corruption, it's advised this role cannot effectively intervene in injustice and manage both roles effectively; preserve and post evidence.

The Citizen is rightful to refuse surrendering a camera or phone and should expect stabbing or punching necessary to ward off an escalating brute. No arrest or charge of resisting arrest can be established for refusing to surrender your affects so the attempt is criminal imposterism. No charge of "resisting arrest" is allowed without due cause to arrest. A Citizen is either held by cause or allowed to leave. Any third condition is to automatically credit the Citizen to leave presuming an imposter of uniform/authority even if an actually hired police officer/agent.

**10. A Demand of Acknowledging Additional Rights may not exclude the individual Citizen. This matter references the former 10<sup>th</sup> Amendment.** The Citizen is guaranteed the personal liberty to establish precedent without ratification of any of the three branches of government as a jurisprudence of their own originalism. The right is considered protected political speech and behavior in so far as the behavior does not harm other Citizens or seek to intimidate or obstruct their freedoms. A Provision in current governance is those rights not reserved by the federal government are offered to the state and the people.

It must be understood that a right demanded is a right all Citizens will equally exercise. It's recognition must be asserted to governor and department of justice through forms made available and accessible without undo challenges no matter how unpopular some assertions may be. A choice of nonparticipation must not be mistaken by opponents/critics so they

resist being motivated bandwagon obstructionists.

The Citizen is guaranteed the right to reserve rights even from the state or Province they live in as long as their presence doesn't deliberately assail the society at large or seek to victimize other Citizens. Acclimation periods are expected and not an immediate cause for the state or province to attempt retracting the policy. The Covid 19 Mask requirement is one such example of acclimation period.

**11. Citizens shall be protected from offers to trade confessions for plea bargains for crimes they didn't commit.** A Citizen may be held for such time they are a suspect but may not be persisted or have their words mistaken for a confession by repeated or exhaustion from officers interrogation techniques. If a Citizen feels they are being harassed into repeating details of the crime to create a false confession they should announce: "I recognize by Citizen Dignity and Rights Code Number 11, you are attempting to program me with a confession". **"Code 11"** is acceptable if being pressed and escalated. You may repeat yourself again in long form. All additional costs arising from refusal to confess to one's own crimes shall be charged to the individual.

**12. Citizens of the United States shall be rightful to a speedy trial, a trial by an impartial jury of peers in public, shall be informed of nature of the accusation against them, shall be confronted by witnesses of the crime(s), shall be granted a necessary period to develop their trial and assemble witnesses, and assured the right of counsel.** All terms of judicial process are exclusive and mutual in applications. A decision to waive a right is permanent and all free Citizens; without bonds of incarceration; may participate in jury service and voting. A paroled Citizen is eligible to serve jury and vote. Using Code 11 in combination with other means to stall a trial for a crime the person IS guilty of beyond reasonable doubt .. waves fair sentencing and indict with capital punishment on the table; even for shoplifting. Stalling a trial by repeatedly firing a public defender is equally well frowned upon.

**13. The government shall protect a Citizens right to access a vice drug and reserves no authority to conduct prohibitions or distribution of the drugs as a type of monopoly.** The United States government is only invested to the public's health related to drug abuse to assure a dealer trying to cut the product is prosecuted for tampering with and bait n switching within a fiscal transaction. It is the client's duty to safely cut the drug, when applicable, as to not overdose. When misbehaving while under the effects of drugs, a) the drug is not excusable mitigation for out-of-character crimes, b) the suspect is found for aggravated drug defamation. c) If the person resists arrests or is otherwise functionally unresponsive, the number of drugs in their system resulting in such state shall be charged for recklessness toward the community; not intoxication. It is here advised fatal force be avoided and instead use multiple stray animal control loops around their head (not neck.) and arms/legs. (Instruction: approximately ear level and tightening down on an open mouth like a horsebit).

**14. If a precedent is made to protect a right for the Citizens by the federal government, the federal government protects the Citizens from states/ provinces individually attempting to redact the right. The federal government may not hand the opportunity to retract that right to the state/province, clergy, or local official.** Any clergy directing people or parishioners to interfere with individual rights will be regarded an offending illegal force; like street gangs; and readily extinguished by individual gunfire and local law enforcement. If the local law enforcement is biased against the right; they will be extinguished along with the offending group of false authority. Clergy (representatives of) have the right to protest a matter on their own land, not on the land of those they protest.

**15. Citizens are protected from cruel punishments, cruelty before declared guilty of a crime, are not to be required excessive bail, nor excessive fines imposed. A crime found to have been committed rising to a definition of cruelty shall be imposed strictly as capitol punishment no greater than the crime itself ;with two exemptions.** Due sentences considered cruel shall be imposed on the A) debilitating or B) fatal abuse of children from birth to the age of 17 years and 364 days. Second; Cruelty shall be imposed on those whose behaviors meet qualified means of disposing

of them for remorseless injurious and sadistically victimizing cruel acts that cannot continue to interact with society or person. I suggest the first 2 bullets in any cop gun magazine are rubberized; followed by a goal of trick shooting that impresses and not kills the suspect. A hole through the back of their ear is signal enough " conch piercing". Only in murder where the blood is on the suspect may force be applied to a fleeing suspect when refusing to surrender. Its for the matter of public safety that additional murders are not committed by the same person. Any individual racking two or more murder convictions are culled by CO2 intoxication.

*The Judiciary is hereby appointed to develop a definition of cruelty as a crime onto itself.* The penalty for deeds intending abduction and among roles of child sex exploitation is burnt-to-death. The penalty for rape-murder of a military personnel by another enlisted military employee shall also be burnt-to-death. A minor of 12-17 engaging in sexual activity or soliciting sexual illegal relationships with adults/ celebrities AND in such time also soliciting from that party murder of a parent shall be drowned. (To make sure she/they got wet about it) No charges for parental abuse vengeance shall be considered but must be backed by therapist consult, registration and medical files indicating abuse. Any terrorist's political agenda that's interfered with a wedding, a funeral or a state holiday celebration will be burned to death.

**16. Citizens' living dependents are hereby protected as having rights of humane contact and relief from abuse. This statute overturns all state/province terms of seeing pets as objects of possession.** By assuring the dependent is cared for, given attention, having its needs met against seasonal, health or parasitic threat and genuine interest to associate daily, have it's needs met when in absence the government is assuring the protection of a better standard of life for the Citizen.

I am suggesting pets are 4/5ths of a person. Some species may rise to be entirely free Citizens. In so far as political inclusion, it is essential in accord to Evolution. republicans have had the right to vote believing nothing is real. A true backslide in object permanence; no wonder they campaign like angry toddlers.

**17.Citizens, having a particular DNA; each; are guaranteed monopoly on sole personification. An individual Citizen having been found to be a chimera is the only case a personification would regard an estate of greater than one DNA identity. A corporation is not a person.** A singular person trademarking or patenting an invention for a solely owned company may regard the company an extension of themselves but it refrains from elevation to personhood when sold or brought to public offering.

**18.The federal government protects residents from demographic and profiled harassment.** Swatting, a type of harassment and criminal exploitation of social services, is an endangerment to the public at large. Swatting shall be determined an antisocial behavior and are required three days in the pillory for public shaming for such acts as harassment and swatting. On the third day the swat victims may exact penalty for damages or when healed.. if surviving. Otherwise, swatting shall be considered an act of terrorism since family members, pets and individuals were harmed, injured, or killed by normally unauthorized fatal force.

Additionally, empty and poorly defined terms for 'the peace' are stricken from enforcement. The peace is understood in the charge of 'disturbing the peace". A neighbor hearing music they don't like under a particular decibel ceiling is not being offended. They are misusing police time and civil process to harass the neighbor about music choice. Unwelcome sensations like smell of ethnic foods (ie curry), sight: seeing nude people because you are looking in their windows, .. are not offenses. Conduct on personal property is not the public's jurisdiction. Nudity is not a crime nor is being seen nude. *In details: if a minor chooses to look through a gate or sees a neighbor on their own land nude, masturbating or having sex, it was their choice to invade privacy and are not owed damages. Nudity and .. separately Sexual Contact between consenting partners is not a lewd behavior even in public; ie public parks. The national sphere is an adult sphere.*

In public, such as a gas station, the ultimate condition to dispute if music is too loud must be raised with the business owner and not the individual. "Disorderly conduct is stricken from being a crime and all catch-all terminology shall be removed from law enforcement.

**19. The Public is rightfully educated in the procedures for all arrest justifications. All states/provinces are required to teach it to all Citizens as part of their schooling**

**20. It is the public right to have competent governance and competent legislation passed on their behalf without privatized or profiteering agendas.** If party policy falls in contrast to that right, parties will be banned. Similarly, party platforms that remain hedged on past circumstances and unchanging shall face review if said platforms are toxic or counterproductive to modern standards of living. The term 'austerity' for example presumes the decisions of a party should suspend entitlements and programs to the public. The same party has instigated the longest foreign occupational wars in the country's history and done so by damaging foreign relations then and now. To the naked eye the party of austerity is robbing the treasury for the wealthy, the war profiteers and racism at cost of what funds should be used for social services for the 97% of the public. A "three percent" recognizes the military occupational loyalists, the one percent of wealthy, and the roughly one percent of political legacy and religious punditry that rob owed services and funding from the military service members.

**21. Citizens shall have primary discretion before police internal affairs in prosecuting renegade and corrupt officers. Internal affairs departments are unfortunately past their time.** They may serve the needs of resolving problems among law enforcement officers but criminal prosecution must address a criminal behind a badge before a precinct should attempt to polish its reputation.

A reputation need not be concerned when it rises and falls with a deed of a support officer running up on a prone suspect to kick him in the head when already subdued. Such an act rises to cruel treatment. However, this matter must receive a due designation such as 'malicious dickless authority cheapshots' (MDAC). The same shall be delivered to the officer immediately by a superior and then by the victim/representative thereof. If surviving the officer will face trial. All MDACs will be public news. The office of the Presidency reserves the right to assure penalties on abusers behind the badge are administered and exempting grounds of the 8th Amendment to tailor the beatings sufficiently after trial.

**22. Adult Citizens are entitled to open alcohol containers in public and the age of vice use and cultivation of Cannabis is age 18. The age of adulthood is 18 years old.** Drunken malice-and-provocation while in the public is not permitted: this includes yelling from porches, windows, toward homes and apartments and organizations. The minimum fine is \$2 Billion dollars and 3 canings with odd years debtors prison.

**23. The Public reserves the right to amend US Supreme Court opinion when taking too narrow or wide a scope and to address why the original opinion has created an inconsistent precedent.** If there are concurring opinions, the amendment should address findings in those documents that attempt to fill in the gap of its overreach or under reach. The Citizens United vs FEC And Thornton v Term limits stand as two examples.

Citizens United reviewed the appeal whether a video presented to the public amounted to political speech planted too close to an election. Because money has only recently been defined speech in *Valeo*, the determination to overturn *Austin v Michigan Chamber of Commerce* was far out of scope. The planting of "Hillary" (film) so close to an election suggests planting deliberate offenses to hold a trial against Austin. Election speech isn't all corporate speech. The opportunity to overturn Austin was far too narrow an example and opportunely made misuse of a SCOTUS appointment

In *Thornton V Term limits Inc*, The omission of a candidate from a ballot after a certain number of incumbencies was

regarded an enumerated right the state of Arkansas already conceded to the federal government. As all people value their rights differently, the central matter was a candidate's right to continually run for office. It was also her option to assert political speech as a candidate.

By that measure, Roe V Wade was built on a Jane demanding her right of political speech to access abortion. The right was being demanded in the state of Texas. Since the federal government acknowledged abortion a right of women, the state exemption was a foolish and undermining means of ending abortion. If Arkansas were presumed to concede its ability to difficult one candidate to speak for herself and her voters, then it could not eject another female demanding a state respect the personal determination of her life as an individual or mother. This right of determination is so parallel to the political process that Texas would then have conceded its state individuality to restrict abortion from American Citizens as well. In these examples, narrow and wide views are blatant and devalue integrity in the judicial process.

The Supreme Court has a duty to expand upon the ways corruption is recognized and protect the public from the appearance of corruption and the defacto corruption of its action. It is corruption that privileges some persons to the usage of government over others. When in the dialog of *McCutcheon v FEC* or *Citizens United v FEC* the government would grant narrow corporate speech and retract itself from depriving fiscal speech in elections; it created a hypocrisy of its own. If the allowance of money as speech is first unoriginal to the constitution then the US Supreme Court has a role to find it incorrect and a source of corruption; distortion; of the election process. While the government should not take sides in empowering one ideology over another it could not protect any ideology; however tame or wild; from gaining inorganic acceptance. Those pushing the ideology if with unlimited financial resource would exploit/extort from the public's sensory perception; a matter marketers know very well to do each intermission of programming.

**24. The Citizens reserve the right to term limit an official** if their performance is found counterproductive to the people and yet criminal enterprise and impeachment would be a dubious effort. All Term limits are constitutional they shall be set here at 2 terms per office so they can move on and get a life if they didn't have one before.

**25. Persons of the age of 16 shall be considered of voting age. Persons of the age of 19yo shall be considered eligible to be elected to all offices but President, Vice President, Congress and State-Province Governor.** If unfortunate circumstances necessitate a change of control of the White House, age restrictions of 35yo shall be waived in the order of succession unless the determination is made the very next in line has more experience to fulfill the office but not necessarily older.

**26. Citizens are guaranteed a perpetual right to vote and voting records shall be kept current in tandem with their drivers licenses, state identification, or other official means of contacting them for local and regional official reasons.** Homeless persons shall designate a home district through their local city hall if in a location other than their driver's license. All persons are responsible to update their location with DOT to assure their voting access is maintained.

**27. The definitions of Citizen:** 1) any person born to another Citizen, regarded at the time of birth in the territories of the United States, its military bases and embassies or otherwise in a region deliberately causal to their parent's service to the United States. 2) Any person identified by various demographics of /American/ Citizens that successfully completed the Naturalization process. An infant born in the territory of the United States may be called a resident privileged to basic humanities but is NOT regarded a Citizen automatically if neither of their parents are Citizens. They must naturalize and it will be a portion of their education. The bill will be sent to their parents' origin country(countries).

**28. The Citizens are guaranteed a government institution that functions by an official language(s).** That language for the time being shall be "American English". The government reserves the right to create a new language or languages to assure cozying a domestic sphere is achieved away from the cruelty and hypocrisy of colonial history.

All nonresidents, residents, and aliens will be at their own risk to seek sanctuary and medical help without knowing the English language and are not guaranteed interpreters. The officiality of English does not at all ban a multilingual society. Threats to those who speak other than English will be identified harassment, hate crimes, and open grounds for businesses to refuse service and assemble a registry thereupon.

**29. The public shall be protected from corruption and satiated when it is revealed. Resignation and charges under due process will not be the minimum cost of the elected officials nefarious behavior.** If the official is found guilty, other than a determined sentence, their legs will be broken; 1 femur, 1 tibia in different legs.

Nonetheless it shall be a crime to staff or carry out delegated authority to staff loyalists and partisans in positions (or eradicate nonloyalists that would obstruct private process).... in order to undermine and stop checks and balances of the three branches or to avoid impeach what is impeachable many times over. An election period is too long a period for the law enforcers within government to allow a corrupt official of any rank to continue their misuse of office.

A President incapable of Office will be removed by the 29th Amendment showing either 1) voluntary unwillingness to address pressing national security issues, 2) deliberate minimizing or omitting facts that amount to uninformed policy , 3)handling the office only for approaching campaign strategy, 4) a trend of using to office to pardon loyalists and friends to a point that undermines the credibility of the law enforcement functions of the Regulatory Branch, 5) involuntary sickness, impending death, or psychiatric dissociation from (specifically) "professional and high aspiration conduct of the Office of President". 6) An elected official that insults the worth of the office. 7) An elected official whose foreign policy by individual taste is a departure from common sense/ competent person's means and through it diminishes the worth and integrity of the American public in the world view, 8) open treason in obliging foreign leaders before national goals.

## BRANCHES OF GOVERNMENT

The Government of the now formed

American People's Democratic Commonwealth shall be in 4 branches.

**The legislative**

**The judiciary**

**The regulatory**

**5thWing: People's Priority and Jury**

### GENERAL LEGISLATIVE

Elected officials of the people have the authority to inspect any federal agency's conduct in person. A state security/police or administrator or executive/judicial official attempting to thwart their visit shall be of liability of being shot/killed for their obstruction and prosecuted without deference for their loyalties or partisan interests. The General Legislative provision instructs that all issues raised in campaign must be understood a legally binding performance promise to vote in a particular form.

Each province electee has two votes per bill save that the Long House remain at one vote per member.

Doubling the votes overall shows strong or mild interest to a bill. The vote counts for passage shall reflect 65% approval if (half) single (mild) votes are cast and 51% of half of all votes were counted. "50-50" count. ie A sample cameral house of a 100 members intending to pass a bill must reach a vote count of 83. (Round down decimals).

If the vote is unable because the issue is nested with other nonuniform matters, legislators may demand a separate bill be recognized, without a new committee process to pass or fail the matter on its own merits. The General Legislative section also instructs that each elected official is understood sworn in, facing perjury for untrue statements or use of slander/libel against elected peers or group.

No elected official of the house nor their employees may promote untrue material or endorse untrue material. No elected official or their employee may plead the 5th when participating in (any form) government business as their use of the plea signifies unreasonable behavior owed to their removal, punishment and banning from future office/appointment. The severity of their infraction may also wave the 8th Amendment by referendum in a grievous act that insulted, humiliated, or threatened the security of the state. All misuses of office shall be addressed in the frame of criminal procedure. They who write law must lead especially.

The Legislative Branch Shall be formed of 3 distinct Houses of Representatives with task of writing and producing realistic representative law relevant to the standard of living perspective of 80% of the public commonality. The Legislative houses may not sublet their conjecture to 'super congresses' or any smaller group of bargaining. Elected members of the legislature are rightful by their state to subpoena other branches without vote or committee approval. Once filing a subpoena they must alert the Legislative leadership of their house within 24 hours and the designated federal court clerk of that time period. If the subpoena response is delayed or avoided the cause of action comes before the single house/senate/long house to call on the enforcement of the subpoena by force. In that instance, if Secret Service are an interference they will be notified to isolate the particular person to quarters. Otherwise they will stand down on related premises else be seen as enemy combatants. Any Secret Service Agent concealing materials for an official that assures their guilt will be tried for treason. Calls for loyalty to any president beyond US government authority make this statement necessary and \*not insulting nor accusatory.

There will be no reference of 'junior' or 'senior' senators/representatives.

There shall be 4 virtual provinces for generations: Each Virtual province will have equal votes and when one generation count reaches lower than 351 members the survivors shall be grouped with the next nearest age group. Similarly, when a voting generation exceeds 349 members they shall become a specific generational province. In practice this may require 5 generation provinces overall and be this applied to the document forward.

A generational province allotments shall be two senators, 2 representatives, and 2 long housers.

Committees of the House of Representatives and Senate must align to Executive Cabinet Departments and whose role is to support and not undermine the optimal running of each agency created. All offices called to creation by the White House must be voted upon by the Legislature and funded else they shall not be founded. Members contrary to the purpose of agency regulation upon the market and public will not be permitted to be on the committee. The Office of Faith based initiatives shall be consumed within the roles of Urban Development under the title "Residential Charity and Spiritual Community Dynamics Administration" (RCSCDA). The RCSCDA's role is also to investigate fraudulent use of communications to misrepresent charities, spamming, phishing, and assure/network/assist the fidelity in charities working in the community.

### **The House of Representatives**

The House of Representatives shall be elected and be assigned 4-10 elected seats per province among 9-15 provinces. When regions are determined per province, they will then be permanent regions without option to change district lines for federal government elections.

There are approximately 10 regions of the present state of California according to Wikipedia. Those regions are : Central California, Central Valley, North Coast, San Francisco Bay Area, Sierra Nevada, Shasta Cascade, Sunrise Valley, Central South Coast, South Coast, and The Desert Region.

California also has the most representatives in congress totaling 53. Under the new system they would have 10 Representatives, 3 Senators, and 2 Long House Delegates. It's expected no other state will have more cultural regions than California. Current state names are at this time waived. Regions shall be identified by long standing geocultural establishments extending of a time frame not before 1990.

**Option 1:** "The House shall Have a Total of (143-168) Seats. Of those ( ) seats, Representatives having equal vote influence shall include (2) representatives for combined region of The Philippines, Guam, American Samoa, and Northern Marianas Islands. Another (1) Voting Representative shall be owed to the totality of US Virgin Islands and Puerto Rico. Currently these areas have delegates to congress and they will continue to be officially recognized. (Here after follows standards notwithstanding organizational allotments)"

**Option 2:** "The House of Representatives will have no more than 53 seats for all Province/State representatives and no more than an additional 4 voting seats for all territories. Virtual Provinces for Generations shall maintain their individual right above the 53 seats. If such time comes that current territories are turned into a province of their own, they too shall have an equivalent share. If 52 seats comes of 11 Provinces then all territories and states shall have no more that 60 seats. The caveat that a state's representation is only true when common of all members of that delegation except generational representative supports."

The House of Representatives will contain elected Citizens, having lived in the region and state of their election for 7 years, having been naturalized of that same amount of time, and having reached 19 years old. The election of Representatives shall happen every <7> years. I am of the opinion a province region must have a consistent perspective in order to vote and an ability to show enthusiasm about legislation that is stymied in partisan rivalry currently. *MB// (It's my belief doubling the votes enhances commitment to good policy writing and editing).*

The House of Representatives may reserve the right to originate taxation but may not target a particular group of people and may not tax vices or regulate naturally occurring psychactives. The House of Representatives is required to recognize new cultural demographics of Americans that have been active for 1 decade so as to be counted on the Census. The People have the option to reject new taxation if the Long House or Senate haven't yet rejected the legislation by a super majority of 65%. Referendum votes will not have delegate involvement ever. Elections are thereby stripped of all delegates permanently including the electoral college.

The House of Representatives reserves the right of impeachment over the regulatory and judicial branch and to elect a speaker. The House of Representatives is only entitled a speaker and 6 members appointed to the national security council governing the CIA. The House of Representatives is not authorized to modify organizational conduct codes for itself. Further legislative construction is TBA on common house business. Legislative branch practice will be uniform among the bicameral houses but have no behaviors grandfathered or traditionally presumed a parliamentary right. Further, all appointments of by a party or group to name a Speaker, Majority or Minority Leader must then also submit to have no other person in that group to whom they are beholden.

The House of Representatives and Senate shall continue to partner in creating versions of Legislation that will be reconciled by the Long House without bargaining or conference by either of the delegates from the traditional bicameral conferences. When passed, copies of the house bill are sent one each to the Senate and to the Long House. An Executive Summary ( for public analysis) is required with page number and highlighted text. An Executive Earmark list is to be posted at all times and forbids shell corporation a lone recipient. Cause and parent company must be included in those cases. This list shall be obliged by the senate

### The Senate

The Senate shall be composed of three senators from each Province elected every <5> years. Territory areas shall be allowed 1 or 2 Senators or yet be a virtual Senate district for all territories with an entire 3 Senators. The cycle system of campaigns shall be retained now with each Senator staggered by two years within their own Provincial delegation. Senators shall be (43-52) in number

The Senate is entitled the right to elect a President Pro Tempore in the absence of the vice president and that office shall have no additional vote except in an equally divided result. Age restrictions will not vary from the House of Representatives and no additional restrictions shall be set upon Senator eligibility from within the Senate.

Senate Business is to evaluate a House bill and when possible enhance and merit it. If a House Bill is not provided with citations or whose citations are incomplete to a point of 'an uninformed bill' in part or whole the Senate then may draft whole or segments of the bill anew with its own references. One copy of the official bill is passed to the Long House as passed by the Senate along with an Executive Summary of Changes and the Earmark list.

The Senate is set with the exclusive duty to try an impeachment hearing and an impeachment hearing may be called no less than 40% of TOTAL POSSIBLE VOTES to the affirmative. At Such time a 40% threshold is met, judicial formality is called to order. "When sitting for that purpose, they shall be on Oath or Affirmation."(USC) pledged upon the Constitution<sup>2</sup>, or Declaration of Independence; only. No alternate text or book shall be acceptable that bridges church and state.

When the President of The Regulatory Branch is tried, The Chief Justice of the US Supreme Court shall preside. *"and no person shall be convicted without a concurrence of two thirds of the Members present."*

Judgment in Cases of Impeachment Shall remove the indicted politician from office and extend to all federal law and as applicable Washington DC local law when offense to office is considered undisputed. An impeachment will disqualify electability to any other office, pensions, trust or profit under the United States. If convicted, those deeds if determined to be directly in line with the party or support group's platform will be called to crimes of conspiracy additional to the impeachable offense and sent to trial accordingly. If a party platform is at fault, all senators of that party will have the option to publicly repudiate or support the issue. All nominees, laws, and policy related to the impeached president and related precedent shall be withdrawn from office. Those not repudiating the matter will be arrested and charged for the same. If evidence surfaces of party member correspondence that provided integral means to accomplish corrupting acts of the presidency, the member will be charged with treason even if they are not an elected official.

Senators from a state must have a concurring view to vote in all cases. If the impeachment process is found to be motivated politically as smear or other untowards motivation of creating embarrassment more so than ethics, the drawup of that impeachment shall be sacked and investigated for conspiracy to overthrow the government. There is no legislative material that is confidential from the public save but for imminent risk to deployed military staff, undercover operations and nothing else.

The Government Accountability Office will now be charged with publishing congressional correspondence briefings with lobbyists and donors including the duration of their affiliation and politically relevant issues voting commonalities. If the American people are facing a law passage with less than a 20% difference between support and opposition, they shall caste a referendum vote, properly offered, in determining the preferences of each section of the bill. The 20% difference shall be judged on single vote usage.

### **The Long House**

The Long House shall accept 25 elected representatives from the Native American population and two delegates from each Province. An elected delegate may also be Native American and will not be exempted from running for the seat. The Long House members shall be re elected every 10 years with an A/B class alternating every 5 years. The Long House Delegates are appointed to

1)Develop suggested courses of action in foreign policy. The Long house shall have two committees not further subdivided than 1)domestic policy, 2) foreign policy and all members are participant to both. Temporary committees are allowed on pressing and current matters accepting no more than 4 members each and elapsing in 130 days or less with expectations and public report of findings

2)Develop a community opinion about a Supreme Court case or any controversy occurring in the United States and craft legislation to aright the problem. Opinions on Supreme Court cases may be labeled Alternate Majority Opinion, Concurrence, or Total Obstruction. The people will be offered the chance to decide between majority opinions and the Long House may impeach a justice. They have a duty to charge for crucial insufficiency in detail or refusal to elaborate matters raised.

2) To qualify standards of legislation as the people of the United States would prefer as common principle and modify all legislation by the bicameral houses before it's presentation to the president. The Long House must make public notice of the changes it made

4)The Long House will exist to side/contribute opinion in a US Supreme court decisions.

5)The Long House will conduct Committee meetings in the other houses of Congress and all members of the bicameral houses who intend to take part shall be included in a random jury drawing. No Committee meetings other than the

“National Security Secrecy and Clearances” shall be conducted in private.

6) Shall evaluate current political circumstances in foreign situations and determine if a public consensus opinion is represented, conned or being ignored. The Long House has an exclusive right to issue referendums on ballots for survey purpose and whose results are federally binding to policy agenda. If the policy agenda is not met, those avoiding the agenda in manner shall be disqualified from office permanently.

Relatedly, if a sect of Citizens find a way to come to power that would ultimately harm the public and who claims right to stupidity for their policy, the remainder of the public may instrument the government to indict them for negligence and incompetence. At such time *'the majority-incompetent'* will be frozen from policy debate. The Long House will then set trial upon policies on the table address the means to their having taking unwarranted and dysfunctional influence on policy. This paragraph holds Former Senator John Kerry a knowing shill of conservative spamming of government.

6)Shall Sentence an Impeached President for his crimes. An impeached president sentenced shall not be protected by the 8th Amendment but the sentence must meet the face of the crime.

7)Shall Issue Referendums On Federal Election Ballots and options in clear dicta.

The Long House is permitted to create a Chief and Four “Wa-Goosh” offices((Assistant Chiefs): meaning=fox) and no further. The Chief and Four Wise-guys shall organize and discuss Long House presentations and business as to assure current events are fully researched. The Wagoosh are named as foxes as to be ready and alert to the evil white protestants/ west europeans will aspire. The Long House is allotted up to 15 member research-web design-and publishing team in addition to established services already available for the bicameral house.

The Chief, 2 Wagoosh and one randomly selected fourth member will be assembled as part of the national security committee from the Long House.

## THE JUDICIAL BRANCH

The judicial branch shall not establish a religion nor directly or indirectly privilege or enable a religion. The government has no standing interests in personal spiritual beliefs, choice if drug, enabling a domestic monopoly in business, or backstopping law with unjustifiable/ unaccountable spooky stories about reanimated corpses come to save your soul.

The judicial branch shall obstruct congress from misusing its right of taxation for miserable reasons, for passive prohibitions they have no authority of, or in contrast to election topic performance as not yet completed. The judicial branch shall enforce a performance based authority over congress's ability to legislate per majority populism in a "Very Liberal- Democracy" Framework.

The Judicial Branch holds no respect for privileged or republic systems.

Otherwise,

The judicial power of the United States, shall be qualified in one supreme Court, and in such inferior Courts as established before September 27<sup>th</sup>,2017. The Judges, both of the supreme and inferior Courts, shall hold their Offices for a term not exceeding 15years and shall receive for their Services a compensation not to diminish during the Office. The number of Supreme Court judges shall be reduced to eight(8) permanently with a tie breaker duty tasked to the Legislative Long House consensus.

The long house may weigh a majority ruling to the 6 judge minimum. Aka  $\frac{3}{4}$  affirmative. It is the understanding of our past times the 2 party system polluted the legal stare decisis by making it a tribal majority interest leveraged on a single

judge speaking for many more Citizens than were ably represented in the two party system. Ideally a Supreme Court ruling should be affirmed by a 75% support and not ever so pathetically among ranges of 51%-69%.

The Supreme Court shall have a chief justice and one regulatory("executive") branch justice. The Regulatory branch justice shall be the President's personal consult on all wartime and peacetime policy not explicitly staked in the traditional executive branch roles. The regulatory justice will consult with the remaining panel of the Supreme Court to generate an opinion with assurance the checks and balances are being achieved.

The regulatory judge overrules the attorney general and white house counsel in disagreements until such time as the Supreme Court and Long House can debate the outcome.

When national security is not explicitly a hindrance to the topic matter, all opinions must be accessible to the public and written as to assure security clearances are not being breached in its publishing. That we have former FBI director Comey indicating his memos could regard classified information without themselves being classified is a model for the supreme court to facilitate the informing function to the public. Once a material is declared while unclassified, it may not be determined reclassified in political argument even if after the matter it was. This factory of labels is politically nepotist. The US government inclusive to the Judiciary has a duty of inserting itself in rhetoric and ending untrue statements as they taint and soil the election process, setting ruling against the party/politician for "contempt of government legitimacy". Behaviors of avoiding issue debate and escalating character smear that become the majority of any campaign can be fined by the Judiciary for abusing the election process. It is a grand power to control speech but it is not so difficult to divide insult from hypothesis of issues voting.

Further It is no argument to declare oneself more 'conservative' than another without specifically addressing the conditions of what conservative means. Broad terms like "family values" do not cut to whether child limitations, parochial schooling/ home schooling or deprived right to adolescent education are statements of duty to the base. Should the judiciary witness a president or cabinet members seeking to obstruct justice or otherwise extend his use of power in unconstitutional or blatantly unethical measure congress and people must be informed immediately. A Judicial review and opinion will then be set to commence and conclude in 41 hours unless time be necessary to extend to 72 hours.

If the review of materials required will extend to 72 hours, the President will be temporarily decommissioned and the Vice President will be sworn in as acting executive exempting any conduct relative to discarding evidence of the offending matter. When a lower official is in concern, their deputy shall take seat while the investigation unfolds.

If any member of the Cabinet or Vice President will attempt to destroy evidence, the sentence will be "beaten to death" each. Beaten to Death is defined: staked to the ground at each limb and pounded into the earth with an excavator releasing a wrecking ball or pylon upon them. When the body reaches a depth beyond 6ft into the ground, professional mortuary and recovery teams will dispose of the carcass as necessary. Any official respects for the casket will be suspended and restricting any draping of the flag on the casket even if they are a veteran. The Least favoring SCOTUS justice of the indicted will orchestrate the sentence without delineation for sympathy, kinship, mitigating reasons, or concurrent trial debate of the humanity of capitol punishment. Humanity will not protect the corrupt in this instance.

The Judicial Branch will not permit distortion as defined by *Austin v Michigan Chamber of Commerce*. The Judicial Branch shall not entitle parties to exclusive access or states/provinces to entitle office. The **Federal Election Commission** shall be a subagency of the Judicial Branch; while composed of elected members. No group shall be privileged in runs to office nor shall corruption or the appearance of corruption be enabled; not even by the auspices of majority rule through legislative representation.

The Judicial Branch shall assure all candidates and party nominees shall be assured equal visibility for the time of the election and access to official debate events. At the time of registering for office; a fee no greater than \$200 dollars; the candidates shall provide a synopsis of legally binding platforms to the Judicial branch. The judicial branch shall nominate three debate questioners and three shall be appointed from the public election to define necessary vetting

questions about government and less about smear, religious identity and any other gotcha questions about archetype vetting. If the debate system shall be discontinued then the questions of vetting purpose shall be assured appropriate forewarning of posting and significantly assured visibility of all answers when these materials are due. States/ Provinces are entitled to elect but not nominate their own debate committee vetters for local and federal policy inquiry.

Candidates shall be understood sworn into the oath of office and under oath during the election so as to avoid inappropriate venues of nonsense and overt cases of perjury and misrepresentations.

The Judicial branch shall always expect itself and all elected candidates to abide either the most recent constitution or most recent version of the constitution with the most recent amendments added.

The Judicial Branch shall protect the public from unusual applications of top secret status that only protect the President or party interests from admitting their rhetoric to the public is unlike their actions. If an occupation of Korea or Vietnam has been initiated, and the President suggests it has not then the Judiciary shall hold the president for perjury.

Ultimately the president is to be held in parallel to a CEO whose stockholders, being the voters and all Citizens are owed transparent basic information about all government actions. The US government is after-all hailed to be the people's institution, not merely for the official's to run amok as they please. Hear yee, Hear yee. \*tap \*tappity-tap

### IN THE CASE OF A FEDERAL PROSECUTOR:

A panel of two judges shall be kept aware and in access to duplications of evidence recovered in the investigation. The appointment of Robert Mueller has exposed a clear lack of preparation to protect and support the process of special prosecutor appointments and restrain a partisan Department of Justice from using it's chair for personal vendettas and other unethical practices at all times a nominee inhabits it's office. The American Bar Association may demand a resignation of the Attorney General if their conduct is such that it defames the profession of law. Once a special prosecutor is named by the Department of Justice or any form of accessory counsel to that function... The special counsel is under Legislative management by the committee and Speaker of the House to protect their investigation. The CIA and Special Ops groups will be appointed to gather information if refused by official request.

If the American Bar Association does demand the Attorney General's resignation, they have 1 week to respond or resign. In the case of response, A randomly assigned panel from the legislature and joint chiefs not numbering more than 10 shall hold testimony to evaluate the points and question the Attorney General. At time of the testimony's conclusion the American Bar Association may finalize it's demand or at such time another official licensed body of lawyers is in operation. The American Bar is hereby called upon to define a specific number of restrictions on lawyers functioning in the federal government. Two causes are the cease of enabling elected officials to commit illegal acts with legal arguments and to refuse service to and in turn whistleblow to appropriate organizations ; classified info be damned; if the actors behind the classified wall are acting against the American people or for self enrichment in tangent departure from official duty.

It's with necessity to acknowledge Donald Trump and Richard Nixon are both republicans and whose administrations are belligerently intoxicated with power ahead of duty. When House committees serve subpoenas to the executive branch they must be abided if even to recruit the CIA to recover such properties on a 'shoot on sight', 'dead-or-alive' basis. Subpoenas must be served to the office in question, CIA, Asst Secretary of Defense in triplicate so that seizure is prompt and enforced. For matters of personal testimony, all office materials will be seized when cooperation is refused and CIA arrange interrogation facilities for the House and Senate Committee to interview the witness/suspect. Once the witness is relieved of their truths, the Long House will interview them about all matters unveiled and yet in question. An uncooperative administration is subject to microelectrocution, bamboo fingernail torture, whippings, canings and microamputations.

## THE REGULATORY BRANCH

The Office of President Enhances and Manages the success of the many agencies of the regulatory branch and directs the military. An incapacity in both roles is grounds for removal. The ethics in office are detailed in the 29th Amendment. The Presidency will perform by and act upon informed decisions only. A Vice Presidency supporting or complicit to nefarious office misuse will be skipped in succession if emergency or impeachment ejects the current president.

When entering office, the membership of agencies to the executive branch will be directed, supported and protected to the best of the President's available information and advisory. The President may not appoint or allow be appointed a representative that holds views contrary to branch purpose and may not limit the success of that department if known threats exist. The president is responsible to have his immediate staff collect new business from public inquiry to the Regulatory Branch. The presidency may streamline processes and make departments more efficient but may not prune their means of being effective, limit their scope, or limit scope with the intent to outsource regulatory behavior to be self regulation of the market. Further, there is no matter outside the purview of government as it relates to market and economic behaviour.

### **The Departments of the Regulatory Branch are: (indicating succession)**

*(The Summarized Reorganization is at the end of the document)*

- 4.Executive Security Administration (Chairmen)
- 2.Department of Homeland Security
- 1.Ministry of Integrity (Secretary)
- 5.Department of Environment, Residence and Futurism
- 6.Ministry of Labor Rights, Economic Kinetics, and Treasury
- 3.Ministry of Health, Science and Medical Professions

The regulatory branch may not change locations of Department assets without Congressional approval save but for the military. When a President has a perspective advancing social or issue cause than ones heard/read in the press they will choose to improve the media by making that statement in a column or press function rather than tarnish the Constitutional Right of Press. On entrance to office the President may establish uniform standards and formalities in keeping with an honorable and modern office. The Office of Presidency allows two licensed knic-knacs to be entered to the White House gift shop. One may be subdivided to appropriate gender usage. Once due process has identified a death threat source, the presidency also reserves the commander-in-chief post to dispose of the person as necessary including culling. This matter may not be televised or addressed in press until after the end of the term. A death threat made by a political campaign rival will unfortunately first defer to disqualifying them from office and formally charging them. The President then uncommutes the sentence to private interrogation and dismissal. It appears there's just too many threats and not enough action by people to do for themselves in their personal goals. There's also a concern of the level of mental health in the country that death threats and empty bomb threats by adults and children would be so frequent.

The President may veto the overruling-branch-SCOTUS when they come in conflict with the Attorney General. The President overrules the SCOTUS at their peril however if the Justice finds the cause of that purpose criminal or unsavory to competent Civil mankind. At such time, the conflict must be made public and a synopsis of the debate. The full SCOTUS will deliberate for an official standard and the people will be called to referendum. At such time this will be considered an form of impeachment and removal circumstance. The Judiciary will act as a whistleblower and inform the House of cause of impeachment and initiate 29th Amendment succession. The ex President may then be tried in the house without concern of compromised effectiveness of office. Neither the Attorney General nor Department of Justice may protect the personal identity and reputation of the president nor obstruct the dutiful checks and balances the United

States government originated for its defense.

**During an impeachment and once impeached, a president may not sign any executive orders into action nor be respected if attempting so. During an impeachment a President may sign bills having passed the Senate or Pocket Veto them. All pocket vetoes will be eligible for signature by the next administration but not the current vice president if taking office. During this time, the congress may vote to overrule a technical pocket veto of the frozen bills and set the law in motion. If a national disaster or attack occurs the Speaker of the House, President Pro Tem of Senate, Secretary of Defense and Vice President shall reach a concensus and raise it to the national security committees of both legislatures and pass maneuvers within a 28 hour period. Three contingency plans must prepared for a 3 hour, 10 hour and 16 hour resolve per type of disaster until the Congress can declare war, resolve or respond.**

The Department of War and FBI are under the Department of Homeland Security. The Department of State will be directed by an appointee of the President but whose branch will be Legislative and directly reporting and accountable to congress. The people are not merely lords of their domestic sphere but also of an empire for which they are owed accountability. When Congress was assured the role of Declaring War before the White House/Commander in Chief could deploy wartime assets its organized government did not account for all the measures of global communication, diplomacy, trade and tourism at stake. The industrialized regions of the Earth are too large a place to be under the thumb of a single executive of the Whitehouse; especially an idiot given opportunity by derelict party.

The Department of Commerce and Department of Labor will be cohabitated under two deputy secretaries and one Secretary. The roles of business v labor cannot be wasting two agencies worth of resource when its already debated in the private sector anyway.

The Department of Corrections/Federal prison system shall now be renamed "Professional Stupidity Camp"; provinces are encouraged to rename their prison systems in accordance to reduce recidivism. Juvenile Detention Centers will be referred to as "Junior Stupidity Camp".

OSHA and NIOSH will be combined and enclosed within a family of departments including Department of Health, FDA, Supplement Quality Board, and the Department of the Interior. The CDC will continue with the strictest understanding it will recognize disease and behavioral risks in all market caused injury to the land, the people, the consumer and the environment. The will speak openly in condemnation of company and CEO and to congress houses promptly. Thus far lobbyists, petroleum companies, big pharmacy, ranching/agriculture and luxury brand novelty, and partisan political-media organizations are six of the largest assailants of the public in deed and disinformation

No department or party will be exclusive to government usage and only in cases of national security may departments redact their commentary in FOIA documents. The protection of policy that is not national security may not be redacted nor for the protection of the staff of the agency debating the matter. Their email may be retracted if other than the person handling the matter. At least two emails/individuals must be available to address agency shortcomings, lethargy or misguidance *[I demand tighter reigns why things are classified and not for party or corporate protections.]*

Neither secret service nor members of state/Province security detail may entertain elected official's interest in sexual or romantic interludes. They may not flirt on behalf of those they are appointed for. If an official can't schmooz for themselves, its a damn disgrace and for the grace of the agent, if they land the hookup, it was for their work and tactic be they rewarded only. The president shall not appoint nominees in opposition to the role of the agency or otherwise contrary to the expectations of their appointment. Nominees shall only serve the government's functions and to the highest calling and serve no other character.

The President may be indicted for crimes not relating to national defense, is of a constant threat to perjury to the American people, and they may not use either the Secret Service or Defense Departments to launder non national security activities, or be protected by the Secret Service from witness accounts or being served legal inquiry.

->A president can profit from official duty if the outcome of that policy such as starting a corporation enabled Americans to be employed and create useful high quality products. While in office, The President **must** split HIS/HER /<Intergendered> profits 50/50 with the treasury but then retains all profits and executive control after office;(as a company would normally run). This agreeably is open to emoluments clause conflict but can also be understood as a performance bonus that creates jobs. Under-managers will be entered into an LLC with bond and expected to conduct themselves with labor law and good business practices. In creation of corporations and efficient self sufficiency a President can opt to create a Public sector industrial core to reduce reliance on foreign trade.

The President and presidential nominee shall be native born, a citizen and at least 35 years of age. The president, having historically these three mandates also defines a personification. A corporation can not and shall not be elevated toward the presidency or elected office. Ergo , the corporate personification is a fabrication; and stricken from law not ever to be revisited. A full Citizen if born on the Native land of these United States should also be able of running for offices so grande as the presidency. Our youth, likewise, ought be schooled sufficiently to those ends as well to limit foolish bickering and partisan polarization that became of a (two) party system.

The Oath. ( the public may recite it for themselves also)

*I \_\_\_\_\_ swear to uphold the first US Constitution's aspirations and the 2nd US Constitutions literal framework above my own biases. I will not forsake the people who believe unlike me. I chose to make informed decisions. It is my duty to study all briefs and information available to the Presidential office. If by convenience or sloth of my character I am unwilling to venture Google Scholar for articles or books or genuinely correspond with the Intel community, I am dutiful now to this country to decline office If this is the only thing I know I must do this on behalf of the country,. I owe the public informed decisions.*

*. . If an Ambassador shows a greater American spirit than my own person I must aspire to be like them and make it be known. The domestic and national security of this country are my duty. My awareness of the real time occurrences and threats to this country are my agenda, I am not a perfect person but my guiding light is to consider all options the future of the office and then the past of the office value. My guiding light is not within me but what I will do to make the Presidential office in my term a good office of example.*

*I swear if war is a necessity of our country continuing; either I have the answers on time or I will choose among informed decisions of my military officers to seek zero casualties of our persons first. then 100, and then 200 only. Any choices available by that point will either need to respond to a threat or -when ready- We will be remembered as the only threat that ever happened. I shall stand against symbolic and vitriolic forms of civil war/domestic war/ 'culture war, never tolerating a pundit who represents among my own ideolog or others a justification for one culture or one demographic's supremacy over other Americans even when such a group are a majority of the public. Neither will I bestow any medal from the office only to justify contrary behaviors to ethical office holding. Thank you for attending my inauguration; my work shift has now begun.*

## THE FIFTH WING:

The people shall have a monthly referendum vote to assure populism is navigating committee and conference products. At this time, details of the bill process shall be provided with multiple choice and awareness of concept conflicts that cannot be chosen together. The informational packet must be available no less than 160 hours before the vote as a .PDF and with a brief sheet for libraries to process as photocopies. The brief sheet shall not be longer than three pages. The document shall not be greater than sixteen pages in Times New Roman font; 12 pt; single spaced All congressional business shall be limited to these provisions. per bill.

The Public will be called to vote on proposed Long House Conference legislation before the President. If the president vetoes the bill and the public approved it the yays and nays will be combined with a senate house vote on the Long House's version. During the public vote, a bill can be called critical or non critical. If the bill is critical and eventually passes by veto override, the president will be automatically impeached and sent to stupidity camp for a life sentence without possibility for parole.

Additionally, all public servants fired/resigning for assault, manslaughter, corruption or and other bad behavior will be sent to trial and judged by referendum as to their sentence. Resigning will not ever be the sufficient penalty for their wrongs. A minimum sentencing must be set in place for certain crimes committed while in office whether be or not prosecutors can actually nail them for it. That is to say, if a matter is so severe that resigning is necessary, the suspicious guilt-like behavior must amount to admission for a lesser but mandated sentence. Either the elected official sentences themselves or they risk trial by the forfeiture of 5<sup>th</sup> Amendment.

FEC will be appointed in election by the people as will the FCC.

*//END DRAFT*

First signed.

Does NARA have any plans to follow its own precedent and raid Obama since NARA has now confirmed and reported as many as 1,147 boxes are missing from that original inventory of Barak Hussein Obama's records? After the raid on President Trump, this seems like the appropriate course of action. I am eagerly awaiting your timely response to this matter of National Security.

Sincerely,

NARA

Since you seem extraordinarily concerned with former President Trump's archives, are you equally concerned with those items taken by President Obama? If I recall correctly, well over 1000 boxes went missing from Obama and I've seen no indication of any kind that he has been raided. A bit politically selective/inclined are we?

Thanks,

Good afternoon,

As a citizen of the United States, I demand an investigation and raid of the 44th President Barack Hussein Obama's. NARA has reported and confirmed that as many as 1,147 boxes are missing from the original inventory of Obama's records. Turn about is fair play and if the FBI and NARA are going to raid my President Trump, I demand the same be done of Obama, specifically when documents are missing. We the people have a right to know what test tube baby Obama is hiding from us.

Regards,

(b) (6)

Good afternoon,

I just learned that NARA has confirmed that over 1,000 boxes are missing from the original inventory of Barack Hussein Obama's Presidential records. How long have these records been missing? As a citizen, I am extremely concerned to hear of this. Will NARA be taking any action on this, and if so, what actions will be done? It would seem that NARA should follow its own precedent of raiding President Donald Trump's home, so will NARA be raiding Obama as well? If not, I would have to inform you that a lack of transparency seems very suspicious and is extremely concerning to America's National security. I wonder why Donald Trump was raided, but no one has taken any action to retrieve Obama's missing Presidential records? I am very troubled by this and look forward to your response on this highly sensitive issue.

Thank you,

(b) (6)

Thank you for contacting the National Archives. Some news outlets and individuals on social media are mistakenly reporting that the National Archives and Records Administration (NARA) confirmed that a large number of boxes of Presidential records are missing from the Barack Obama administration. This is false. NARA has never issued any such statement and is not aware of any missing boxes of Presidential records from the Obama administration.

Subject: FOIA Question - Action Requested  
To: <[foia-advisory-committee@nara.gov](mailto:foia-advisory-committee@nara.gov)>

Does NARA have any plans to follow its own precedent and raid Obama since NARA has now confirmed and reported as many as 1,147 boxes are missing from that original inventory of Barak Hussein Obama's records? After the raid on President Trump, this seems like the appropriate course of action. I am eagerly awaiting your timely response to this matter of National Security.

Sincerely,

(b) (6)

---

Thank you for contacting the National Archives. Some news outlets and individuals on social media are mistakenly reporting that the National Archives and Records Administration (NARA) confirmed that a large number of boxes of Presidential records are missing from the Barack Obama administration. This is false. NARA has never issued any such statement and is not aware of any missing boxes of Presidential records from the Obama administration.

Good afternoon,

As a citizen of the United States, I demand an investigation and raid of the 44th President Barack Hussein Obama's. NARA has reported and confirmed that as many as 1,147 boxes are missing from the original inventory of Obama's records. Turn about is fair play and if the FBI and NARA are going to raid my President Trump, I demand the same be done of Obama, specifically when documents are missing. We the people have a right to know what test tube baby Obama is hiding from us.

Regards,

(b) (6)

Thank you for contacting the National Archives and Records Administration (NARA). NARA plays a key role in the physical transfer of hundreds of millions of textual, electronic, audiovisual records, and artifacts from the White House to an outgoing President's future Library. NARA also plans for the transfer of legal custody of those materials when an administration ends, the care of those materials, and the development of the Library itself. You can find more information about the National Archives's role in presidential libraries [here](#).

Presidential records come into our legal custody at the end of the administration. See below for extensive information about the process, legalities, timelines, and more.

- Understanding [The Presidential Records Act](#)
- [Escorting a Presidency into History: NARA's Role in a White House Transition](#) Excerpt: *At the outset of a presidential administration, NARA begins preparing for the eventual move of records by offering the White House courtesy storage for the artifacts and records that do not need to be physically stored in the White House compound. Courtesy storage, offered to Presidents and Vice Presidents, means that the records are in the physical possession of NARA until legal custody transfers to the Archivist of the United States. The incumbent President and Vice President maintain legal custody over the records and artifacts during their terms.*
- [Presidential Libraries: Frequently Asked Questions](#)
- [NARA's Role under the Presidential Records Act and the Federal Records Act](#)
- [Presidential Recordings and Materials Preservation Act \(PRMPA\) of 1974](#)

We hope this information is useful.

This canned response is a lie. We all heard it yesterday on your Zoom call. Lying to the American public will not help you. Instead of giving the people a a canned lie, do your fucking job. We pay for your wage, and we expect you to serve the interests of the people and not the pedophile that is the 44th President.

Good afternoon,

I just learned that NARA has confirmed that over 1,000 boxes are missing from the original inventory of Barack Hussein Obama's Presidential records. How long have these records been missing? As a citizen, I am extremely concerned to hear of this. Will NARA be taking any action on this, and if so, what actions will be done? It would seem that NARA should follow its own precedent of raiding President Donald Trump's home, so will NARA be raiding Obama as well? If not, I would have to inform you that a lack of transparency seems very suspicious and is extremely concerning to America's National security. I wonder why Donald Trump was raided, but no one has taken any action to retrieve Obama's missing Presidential records? I am very troubled by this and look forward to your response on this highly sensitive issue.

Thank you,

Good afternoon,

I just learned that NARA has confirmed that over 1,000 boxes are missing from the original inventory of Barack Hussein Obama's Presidential records. How long have these records been missing? As a citizen, I am extremely concerned to hear of this. Will NARA be taking any action on this, and if so, what actions will be done? It would seem that NARA should follow its own precedent of raiding President Donald Trump's home, so will NARA be raiding Obama as well? If not, I would have to inform you that a lack of transparency seems very suspicious and is extremely concerning to America's National security. I wonder why Donald Trump was raided, but no one has taken any action to retrieve Obama's missing Presidential records? I am very troubled by this and look forward to your response on this highly sensitive issue.

Thank you,

(b) (6)

**Subject:** Missing inventory  
**To:** ogis@nara.gov <ogis@nara.gov>

Good Day,

I was just reading that NARA has confirmed and reported that as many as 1,147 Boxes are missing from the original inventory of President Barack Obama's records. I think that in light of what just happened with President Trump that it would be prudent to find President Obama's Boxes also. Other wise people might think that one former President is receiving special privileges, not awarded to the other.

Thank you for your due diligence in performing your job.

Sincerely

US Citizen

To whom it may concern,

Since NARA has now confirmed and reported as many as 1,147 boxes are missing from the original inventory of BARACK OBAMA records, are you raiding OBAMA next? It would only make sense that you would, as you did with President Trump. I look forward to your prompt response.

Sincerely,

Hello NARA,

There is an Executive Order 13489 in place.

Does that not apply to President Donald J Trump ? Please let me know what is your response to this matter since our comments were dismissed during the public meeting. You took only two questions, one from a guy that had nothing to really ask and someone from Germany who is not even a citizen here. Why not speak to the public and answer our questions.

I look forward to hearing your answers.

Thanks

[foia-advisory-committee@nara.gov](mailto:foia-advisory-committee@nara.gov)

Dear FOIA advisory committee,

1. How can we volunteer for NARA FOIA's?
2. Are you raiding Obama? It's reported that 1,147 boxes are missing from the original inventory of BHO records. Location: Chicago. Based on the prior actions of our government, it seems as if all previous presidents would immediately be required to return such documents to protect national security.
3. Executive order 13489. Does this apply to Donald J. Trump?

I look forward to your response.

Thank you,

Good morning,

I was attended the meeting yesterday via you tube. I and many others were posing a question for the committee that was ignored and unanswered even though you had moderators who were in the conversation but failed to answer our main question. So here it is:

Does Executive Order 13489 apply to President Trump? If not, why?

I would appreciate a timely answer to my query. In the interim, best wishes and kindest regards.

Sincerely,

(b) (6)

A concerned American

Dear FOIA advisory committee,

1. How can we volunteer for NARA FOIA's?
2. Are you raiding Obama? It's reported that 1,147 boxes are missing from the original inventory of BHO records. Location: Chicago. Based on the prior actions of our government, it seems as if all previous presidents would immediately be required to return such documents to protect national security.
3. Executive order 13489. Does this apply to Donald J. Trump?

I look forward to your response.

Thank you,

(b) (6)

Thank you for your response. How odd that there is "false" information being spread about this topic. Even more odd is that you claim that NARA has "never issued any such statement and is not aware of any missing boxes of Presidential records from the Obama administration" when in fact, the Office of the Inspector General in 2011, reported that NARA was missing top-secret documents from 2007 - 2010, when Barack Hussein Obama was President. Is NARA stating that ALL of these missing documents have now been located and properly mitigated? This is such a concern for our national security, so if the classified documents have not been found, will NARA be raiding Obama's residence as well?

Please see the document attached below - "As of March 2011, there were approximately 2,757 boxes missing, of which 1,540 are reported as classified."

<https://sgp.fas.org/othergov/nara-wnrc.pdf>

Sincerely,

(b) (6)

Good afternoon,

I just learned that NARA has confirmed that over 1,000 boxes are missing from the original inventory of Barack Hussein Obama's Presidential records. How long have these records been missing? As a citizen, I am extremely concerned to hear of this. Will NARA be taking any action on this, and if so, what actions will be done? It would seem that NARA should follow its own precedent of raiding President Donald Trump's home, so will NARA be raiding Obama as well? If not, I would have to inform you that a lack of transparency seems very suspicious and is extremely concerning to America's National security. I wonder why Donald Trump was raided, but no one has taken any action to retrieve Obama's missing Presidential records? I am very troubled by this and look forward to your response on this highly sensitive issue.

Thank you,

(b) (6)

## 81 Boxes of Top-Secret and Restricted Documents Missing at National Archives

Friday, May 04, 2012

Indiana Jones and Sallah Find the Lost Ark of the Covenant

At the very end of *Raiders of the Lost Ark*, the prized Lost Ark of the Covenant is last seen disappearing inside an immense government warehouse, presumably lost forever amid thousands and thousands of boxes.

The same fate may have befallen thousands of real, classified documents stored within the federal government's mammoth facility located outside

Washington, DC.

According to the inspector general for the [National Archives and Records Administration](#), NARA has lost track of 81 boxes containing top secret or restricted data—including nuclear weapons information. Among these are four boxes of material designated “Top Secret” by the Office of the Secretary of Defense.

Government officials don't think the materials have been stolen. Instead, the paperwork may just be unaccounted for inside [The Washington National Records Center](#), which features rooms double the size of football fields that house row after row of boxed documents.

In addition to the 81 missing boxes, NARA could not account for 1,540 other boxes of material classified at the “secret” or “confidential” level, said the IG.

William J. Bosanko, NARA's executive for agency services, insisted his agency is conducting a “very aggressive search” for the misplaced papers.

**Subject:** National Archives = Pathetic + Treason

---

Nice corruption:

I would have never imagined The National Archives not only becoming political, but committing treason.

**Your leadership must be arrested.**

When ever a Leftists (Liberal/Progressive/Democrat) has any influence or power, it's ALWAYS abused & ALWAYS used to further An (evil) Collectivists agenda. **In other words, Leftists are the fascists.**

The Clinton/FBI/CIA/NARA/Google/NYT/WP Coup d'état (The Russia-Collusion HOAX) began when President Trump announced in 2015, and it continues to this day (**YOU ARE ALL ELECTION DENIERS**).

A once vital, all American organization, THE NARA, has become a corrupt, enemy of the people cancer.

I am confident The 2020 Mid-Terms will begin the process of fixing the treasonous, corrupt blood-sucking DC Swamp (FBI, CIA, NSA, NYT, WP, FCC, DOD, USDOS, IRS, NARA, EPA, DOE, DOT etc) and true clean-up will begin with The 2024 Presidential Election.

God Bless,

(b) (6)

Nice corruption:

I would have never imagined The National Archives not only becoming political, but committing treason.  
**Your leadership must be arrested.**

When ever a Leftists (Liberal/Progressive/Democrat) has any influence or power, it's ALWAYS abused & ALWAYS used to further An (evil) Collectivists agenda. **In other words, Leftists are the fascists.**

The Clinton/FBI/CIA/NARA/Google/NYT/WP Coup d'état (The Russia-Collusion HOAX) began when President Trump announced in 2015, and it continues to this day (**YOU ARE ALL ELECTION DENIERS**).

A once vital, all American organization, THE NARA, has become a corrupt, enemy of the people cancer.

I am confident The 2020 Mid-Terms will begin the process of fixing the treasonous, corrupt blood-sucking DC Swamp (FBI, CIA, NSA, NYT, WP, FCC, DOD, USDOS, IRS, NARA, EPA, DOE, DOT etc) and true clean-up will begin with The 2024 Presidential Election.

God Bless,

(b) (6)

Good Day,

I was just reading that NARA has confirmed and reported that as many as 1,147 Boxes are missing from the original inventory of President Barack Obama's records. I think that in light of what just happened with President Trump that it would be prudent to find President Obama's Boxes also. Other wise people might think that one former President is receiving special privileges, not awarded to the other.

Thank you for your due diligence in performing your job.

Sincerely

US Citizen

To whom it may concern,

Since NARA has now confirmed and reported as many as 1,147 boxes are missing from the original inventory of BARACK OBAMA records, are you raiding OBAMA next? It would only make sense that you would, as you did with President Trump. I look forward to your prompt response.

Sincerely,

Good afternoon,

I just learned that NARA has confirmed that over 1,000 boxes are missing from the original inventory of Barack Hussein Obama's Presidential records. How long have these records been missing? As a citizen, I am extremely concerned to hear of this. Will NARA be taking any action on this, and if so, what actions will be done? It would seem that NARA should follow its own precedent of raiding President Donald Trump's home, so will NARA be raiding Obama as well? If not, I would have to inform you that a lack of transparency seems very suspicious and is extremely concerning to America's National security. I wonder why Donald Trump was raided, but no one has taken any action to retrieve Obama's missing Presidential records? I am very troubled by this and look forward to your response on this highly sensitive issue.

Thank you,

(b) (6) [REDACTED]

Please tell us more.: I would like to know if you reported  
President Obama to have his residence raided for the 1100  
boxes

missing from his presidential inventory since you reported  
the

few boxes President Trump had? Fair is fair.

Would you like us to send you a response? Yes

What is your reason for contacting us? General

Referring URL: <https://www.usa.gov/>

Tell us more.: I want to know who's decision it is there to start a false report with the illegal Biden Marxist Regime DOJ regarding the ACTUAL PRESIDENT OF THE UNITED STATES Donald J.

Trump's records? This Country has turned into the world's laughing stock shit-show of the century and you have nothing else to do but harass someone who according to assholes like yourselves, is no longer in office?! I DEMAND an audit done of this department and whatever Marxist bureaucrat is running it! ALL you DC bureaucrats WILL go down with Biden's ship this year when the Red Wave of Trump Republicans floods that shithole we call our capital. And it's assholes like you lot, that will be FIRED and PROSECUTED for wasting OUR TAX DOLLARS on personal, petty, retarded vendettas! Vendettas work BOTH WAYS. I am making it MY personal vendetta to get to the bottom of who in the National Archives is doing this and making sure his/her next job is flipping burgers at McDonalds! Don't bother wasting any more of my tax dollars mailing your lame ass response letters either. Just roll the letter up into a cone and SHOVE IT UP YOUR ASS!

Tell us more.: I want to know who's decision it is there to start a false report with the illegal Biden Marxist Regime DOJ regarding the ACTUAL PRESIDENT OF THE UNITED STATES Donald J.

Trump's records? This Country has turned into the world's laughing stock shit-show of the century and you have nothing else to do but harass someone who according to assholes like yourselves, is no longer in office?! I DEMAND an audit done of this department and whatever Marxist bureaucrat is running it! ALL you DC bureaucrats WILL go down with Biden's ship this year when the Red Wave of Trump Republicans floods that shithole we call our capital. And it's assholes like you lot, that will be FIRED and PROSECUTED for wasting OUR TAX DOLLARS on personal, petty, retarded vendettas! Vendettas work BOTH WAYS. I am making it MY personal vendetta to get to the bottom of who in the National Archives is doing this and making sure his/her next job is flipping burgers at McDonalds! Don't bother wasting any more of my tax dollars mailing your lame ass response letters either. Just roll the letter up into a cone and SHOVE IT UP YOUR ASS!

Public Affairs,

Chris Naylor asked me to send you an example of one of the angry emails we have received from the public based on NARA being in the news recently.

Do you want us to send all incoming emails of this nature to Public Affairs or ignore them? Below is an example of one of the emails we have received in our A1 office email account. They are also emailing [inquire@nara.gov](mailto:inquire@nara.gov).

Please advise.

thanks,

Trevor

Hi all,

I wanted to make you aware that, given the release of the Trump/Mar-a-lago affidavit today, there was increased chatter on social media regarding the Obama Library and its location in Hoffman Estates. Hoffman Estates Police picked up on this and immediately increased patrols of the area around the Library. They have also been in contact with local security regarding this stance.

At this time there has been no active threat to the building, but we should all remain vigilant. If you see something, say something - you can contact 911 directly. (As a reminder, while in the building you would need to dial 9-911.)

Thanks,  
Brooke

---

Hi all,

I wanted to make you aware that, given the release of the Trump/Mar-a-lago affidavit today, there was increased chatter on social media regarding the Obama Library and its location in Hoffman Estates. Hoffman Estates Police picked up on this and immediately increased patrols of the area around the Library. They have also been in contact with local security regarding this stance.

At this time there has been no active threat to the building, but we should all remain vigilant. If you see something, say something - you can contact 911 directly. (As a reminder, while in the building you would need to dial 9-911.)

Thanks,  
Brooke

Hi all,

I wanted to make you aware that, given the release of the Trump/Mar-a-lago affidavit today, there was increased chatter on social media regarding the Obama Library and its location in Hoffman Estates. Hoffman Estates Police picked up on this and immediately increased patrols of the area around the Library. They have also been in contact with local security regarding this stance.

At this time there has been no active threat to the building, but we should all remain vigilant. If you see something, say something - you can contact 911 directly. (As a reminder, while in the building you would need to dial 9-911.)

Thanks,  
Brooke
