**NOTICE OF MOTION AND MOTION TO DISMISS**

**TO PLAINTIFFS AND TO THEIR ATTORNEYS OF RECORD:**

PLEASE TAKE NOTICE that on July 11, 2024, at 10:00 a.m., or as soon thereafter as the matter may be heard by the Court, at the courtroom of the Honorable James Donato, Courtroom 11, 19<sup>th</sup> Floor, United States District Court, located at 450 Golden Gate Avenue, San Francisco, California, Defendants Hermès of Paris, Inc. and Hermès International will and hereby do move the Court for an order dismissing Plaintiffs’ Complaint, Dkt. 1 (“Compl.”), on the ground that it fails to state a claim under Federal Rule of Civil Procedure 12(b)(6). This motion is based on the Memorandum of Points and Authorities, and all other matters properly before the Court.

Defendants seek an order pursuant to Federal Rule of Civil procedure 12(b)(6) dismissing with prejudice Plaintiffs’ claims for failure to state a claim upon which relief can be granted.

**STATEMENT OF ISSUES**

1. Whether the Complaint fails to state a claim under Section 2 of the Sherman Antitrust Act, 15 U.S.C. § 2.
2. Whether the Complaint fails to state a claim under Sections 16720 and 16727 of the California Cartwright Act, Cal. Bus. & Prof. Code §§ 16720, 16727.
3. Whether the Complaint fails to state a claim under the California Unfair Competition Law, Cal Bus. & Prof. Code § 17200.

**OTHER AUTHORITIES**

Phillip E. Areeda & Herbert Hovenkamp, *Antitrust Law: An Analysis of Antitrust Principles and Their Application* (Aug. 2023, online) .....7, 12

1 **I. INTRODUCTION**

2 Plaintiffs fundamentally misunderstand the antitrust laws. Hermès does not require a  
3 customer to have purchased its many other products before purchasing a Birkin or Kelly  
4 handbag. But, even if it did, that would not violate the antitrust laws. Plaintiffs’ conclusory  
5 allegations are both legally and factually unsupported, and they utterly fail to meet the  
6 requirements to state a tying claim. The Court should dismiss Plaintiffs’ Complaint with  
7 prejudice because no amendment can cure its fatal deficiencies.

8 “A tying arrangement is a device used by a seller with market power in one product  
9 market [the tying product] to extend its market power to a distinct product market [the tied  
10 product].” *Rick-Mik Enters., Inc. v. Equilon Enters. LLC*, 532 F.3d 963, 971 (9th Cir. 2008)  
11 (citation omitted). The Supreme Court has long recognized that, because tying arrangements are  
12 often “procompetitive,” *Illinois Tool Works Inc. v. Indep. Ink, Inc.*, 547 U.S. 28, 36 (2006), tying  
13 does not violate the Sherman Act unless the seller uses “market power over the tying product” as  
14 leverage to “exclude other sellers of the tied product,” *Rick-Mik Enters.*, 532 F.3d at 971  
15 (citation omitted). Plaintiffs’ Complaint does not define any viable tying product market in  
16 which Hermès could have market power and says nothing at all about foreclosure of competitors  
17 in any allegedly tied product market.

18 This Court should dismiss Plaintiffs’ Sherman Act claim, for at least four independent  
19 reasons:

20 1. Plaintiffs do not allege that Hermès possesses market power in a properly defined  
21 tying product market. Their conclusory assertion that Birkin and Kelly handbags together  
22 constitute their own product market is legally erroneous and unsupported by factual allegations.

23 2. Plaintiffs do not allege a properly defined tied product market. Their attempt to  
24 group all Hermès products (except for three handbags) into a single “Ancillary Products” market  
25 consisting of disparate products ranging from jewelry to shoes to perfume to home goods  
26 contravenes controlling precedent and flunks both basic economics and common sense.

27 3. There are no allegations that Hermès has excluded other sellers of the supposedly  
28 tied products. Without well-pleaded allegations that other sellers of jewelry, of shoes, of

1 perfume, of home goods, and so-on, have been excluded from competing, there is no viable tying  
2 claim—and there is no harm to the competitive process, the focus of the antitrust laws.

3 4. Plaintiffs do not plead, as Section 2 of the Sherman Act requires, the willful  
4 acquisition or maintenance of monopoly power. Instead, they allege that Hermès has always had  
5 (and always will have) iconic products that have built a loyal following. The antitrust laws do  
6 not punish companies for creating better, more desirable products than anyone else.

7 Because Plaintiffs’ Sherman Act claims fail, their derivative claims under the Cartwright  
8 Act and the California Unfair Competition Law (“UCL”) should be dismissed as well.

9 These failings cannot be remedied, and the Court should thus dismiss with prejudice.

## 10 **II. STATEMENT OF THE CASE**

11 On March 19, 2024, Plaintiffs Tina Cavalleri and Mark Glinoga (collectively,  
12 “Plaintiffs”) filed an antitrust lawsuit alleging that Hermès of Paris, Inc. and Hermès  
13 International (collectively, “Hermès”) have engaged in a tying scheme in violation of the federal  
14 Sherman Act, the California Cartwright Act, and the California UCL.<sup>1</sup>

15 Hermès is a “world-famous designer and producer of high-quality merchandise,” such as  
16 “luxury handbags, . . . jewelry, fashion accessories, and home furnishings.” Compl. ¶ 15.  
17 Hermès sells those items through retail locations in the United States and also maintains a  
18 website through which it sells some but not all of its products. *Id.* ¶¶ 17-19. In the nearly two  
19 centuries since it was founded, Hermès has developed a reputation for artisan-crafted luxury  
20 products and built a loyal following. *Id.* ¶¶ 15-18.

21 This case concerns two of the many luxury items that Hermès sells—handbags known as  
22 the Birkin and Kelly handbags (defined by Plaintiffs collectively as “Birkin Bag”). “Each Birkin  
23 handbag is handcrafted from the finest leather by experienced artisans in France.” *Id.* ¶ 21. This  
24 is a deliberate process: “The manufacturing of a single Birkin handbag requires many hours of an  
25 artisan’s time,” and the “intensive labor and craftsmanship and high-quality leathers required

---

26  
27 <sup>1</sup> Because this case is at the motion-to-dismiss phase, Hermès recounts the facts as alleged in  
28 Plaintiffs’ Complaint and does not admit the truth of these allegations. *See Whitaker v. Tesla Motors, Inc.*, 985 F.3d 1173, 1175 (9th Cir. 2021).

1 make the Birkin handbag difficult to produce.” *Id.* Because of these supply limitations, Hermès  
2 cannot produce sufficient Birkin or Kelly handbags to satisfy demand. *Id.* ¶¶ 21-23.

3 Plaintiffs’ lawsuit claims that Hermès unlawfully conditions the purchase of Birkin or  
4 Kelly handbags on purchases of other Hermès products, such as jewelry, scarves, or home goods.  
5 Plaintiffs allege that Hermès has market power in the so-called market for “Birkin Bags”—a  
6 market they define without explanation to include solely Birkin and Kelly handbags, and no  
7 other handbags. *Id.* ¶ 48. They claim that Hermès uses this “market power” to coerce customers  
8 interested in purchasing a Birkin Bag (the tying product) to purchase unspecified amounts of  
9 other Hermès products (the tied product), which Plaintiffs call “Ancillary Products.” *Id.* ¶ 51.  
10 For example, Plaintiff Cavalleri allegedly spent thousands of dollars on “Ancillary Products in  
11 order to obtain access to Hermès Birkin Bags.” *Id.* ¶ 31. When she attempted to purchase an  
12 additional Birkin Bag in 2022, a sales associate allegedly told her that “specialty bags are going  
13 to ‘clients who have been consistent in supporting our business.’” *Id.* From this, Cavalleri  
14 claims she understood that she would be required to buy additional Ancillary Products to  
15 purchase a Birkin Bag. *Id.*

16 Plaintiffs’ Complaint does not identify any particular tied product that customers are  
17 required to purchase for access to Birkin Bags—nor even a total amount of money that  
18 customers are purportedly expected to spend. Instead, they claim that the tied product (and tied  
19 product market) is “Ancillary Products” and includes “any products sold at Hermès branded  
20 retail boutiques except for any Birkin, Kelly, or Constance branded handbag.” *Id.* ¶ 35.  
21 Plaintiffs do not explain how *all* Hermès products (excepting the three handbags) could fall  
22 within the same product market. Plaintiffs also do not allege that Hermès has excluded  
23 competitors or otherwise harmed competition in any tied product market. Rather, Plaintiffs  
24 assert only that the alleged tie has “effectively increase[d] the price of Birkin handbags” and  
25 hindered Plaintiffs’ ability to “cho[o]se among” luxury items “independently from their decision  
26 to purchase Birkin handbags.” *Id.* ¶¶ 26, 50.

27 Plaintiffs purport to represent a class of U.S. residents (and a subclass of California  
28 residents) who “purchased or were asked to purchase Ancillary Products in order to purchase a

1 Birkin Handbag.” *Id.* ¶ 34. They seek damages, injunctive relief, and attorneys’ fees. *Id.* at 15-  
2 16 (Prayer for Relief).

### 3 **III. ARGUMENT**

4 Under Federal Rule of Civil Procedure 12(b)(6), “[d]ismissal is proper when the  
5 complaint does not make out a cognizable legal theory or does not allege sufficient facts to  
6 support a cognizable legal theory.” *Chubb Custom Ins. Co. v. Space Sys./Loral, Inc.*, 710 F.3d  
7 946, 956 (9th Cir. 2013). To defeat dismissal, the complaint “must contain sufficient factual  
8 matter” to “state a claim to relief that is plausible on its face.” *Ashcroft v. Iqbal*, 556 U.S. 662,  
9 678 (2009) (quoting *Bell Atl. Corp. v. Twombly*, 550 U.S. 544, 570 (2007)). While the court  
10 generally accepts as true a complaint’s “well-pleaded facts,” it does not accept “legal  
11 conclusions” or “[t]hreadbare recitals of the elements of a cause of action.” *Id.* at 678-79. If the  
12 allegations do not “plausibly give rise to an entitlement to relief” on the merits, the case must be  
13 dismissed. *Id.* at 679.

#### 14 **A. Plaintiffs Do Not Plead The Elements Of A Tying Claim Under The Sherman** 15 **Act**

16 As explained above, tying occurs when the “seller conditions the sale of one product (the  
17 tying product) on the buyer’s purchase of a second product (the tied product).” *Rick-Mik Enters.*,  
18 532 F.3d at 971 (citation omitted). Tying alone does not raise competitive concerns, as many  
19 “tying arrangements may well be procompetitive.” *Illinois Tool*, 547 U.S. at 36. The required  
20 elements in an unlawful tie include the possession of market power in the tying market and the  
21 threat of foreclosure in the tied market. “Tying arrangements are forbidden on the theory that, if  
22 the seller has market power over the tying product, the seller can leverage this market power  
23 through tying arrangements to exclude other sellers of the tied product.” *Rick-Mik Enters.*, 532  
24 F.3d at 971 (citation omitted). Accordingly, a tying claim requires allegations of anticompetitive  
25 harm in the form of “reduced competition in the market for *the tied product*.” *Blough v. Holland*  
26 *Realty, Inc.*, 574 F.3d 1084, 1089 (9th Cir. 2009) (emphasis added) (citation omitted); *accord*  
27 *Illinois Tool*, 547 U.S. at 36. Conversely, a tying arrangement that does not have the effect of  
28

1 foreclosing rivals in the tied market will not harm competition and is therefore lawful. *See*  
2 *Blough*, 574 F.3d at 1089.

3         These principles were articulated in the classic antitrust tying case against Microsoft.  
4 “Microsoft required licensees of Windows 95 and 98” to also license Microsoft’s Internet  
5 Explorer browser “as a bundle at a single price.” *United States v. Microsoft Corp.*, 253 F.3d 34,  
6 84 (D.C. Cir. 2001) (per curiam). The United States alleged that the tie violated the Sherman  
7 Act because it enabled Microsoft to leverage its market power over the Windows operating  
8 system (the tying product) to exclude competitors in the market for Internet browsers (the tied  
9 product). Because of the facts of that case, the D.C. Circuit remanded for consideration of the  
10 tie’s actual effects on “competition in the tied good market” under the rule of reason. *Id.* at 95-  
11 96. The case then settled.

12         Today, most tying claims under the Sherman Act are analyzed under a unique rule set out  
13 by the Supreme Court. To establish that a tying arrangement violates the antitrust laws, “a  
14 plaintiff must prove: (1) that the defendant tied together the sale of two distinct products or  
15 services; (2) that the defendant possesses enough economic power in the tying product market to  
16 coerce its customers into purchasing the tied product; and (3) that the tying arrangement affects a  
17 not insubstantial volume of commerce in the tied product market.” *Rick-Mik Enters.*, 532 F.3d  
18 at 971 (citation omitted).

19         These elements are difficult to establish. *See id.* at 971 & n.2. A plaintiff must show not  
20 only that the defendant has tied together two economically distinct products, but also “that the  
21 defendant has market power in the tying product.” *Id.* at 971 (quoting *Illinois Tool*, 547 U.S. at  
22 46); *see Illinois Tool*, 547 U.S. at 43 (“proof of power in the relevant market” required for tying  
23 claim). A showing of market power typically requires evidence that shows “the defendant owns  
24 a dominant share” of the relevant market, “there are significant barriers to entry,” and “existing  
25 competitors lack the capacity to increase their output in the short run.” *Rebel Oil Co. v. Atl.*  
26 *Richfield Co.*, 51 F.3d 1421, 1434 (9th Cir. 1995). Finally, a plaintiff must also show that the  
27 tying arrangement has “a significant negative impact on competition in the tied product market.”  
28

1 *Sidibe v. Sutter Health*, 4 F. Supp. 3d 1160, 1178 (N.D. Cal. 2013) (citation omitted); *Blough*,  
2 574 F.3d at 1089.

3 Here, as explained below, Plaintiffs' case fails these requirements because Plaintiffs do  
4 not allege market power in any viable tying product market, and they do not allege effects in any  
5 viable tied product market. Plaintiffs' Sherman Act claim also separately fails because Plaintiffs  
6 have not pleaded the requirements of antitrust standing or the willful acquisition or maintenance  
7 of monopoly power.

8 **1. The Complaint Does Not Define A Viable Tying Market In Which**  
9 **Hermès Could Exercise Market Power**

10 "A threshold step in any antitrust case is to accurately define the relevant market."  
11 *Coronavirus Rep. v. Apple, Inc.*, 85 F.4th 948, 955 (9th Cir. 2023) (citation omitted). In a tying  
12 case, this means the plaintiff must plead sufficient facts to define a viable market for the tying  
13 product. *Illinois Tool*, 547 U.S. at 46; *see, e.g., Sidibe*, 4 F. Supp. 3d at 1174-75 (plaintiff must  
14 "plausibly define" tying product market). This step is critical, because without an accurate  
15 definition of the market, the court cannot determine whether the defendant has market power  
16 sufficient to coerce the plaintiff into buying the tied product. *See FTC v. Qualcomm Inc.*, 969  
17 F.3d 974, 992 (9th Cir. 2023). When the plaintiffs' market definition allegations "lack sufficient  
18 clarity to state an antitrust claim plausibly," the complaint must be dismissed. *Coronavirus Rep.*,  
19 85 F.4th at 956. So, for example, a "complaint's relevant market definition" is "facially  
20 unsustainable," and thus requires dismissal, where "the plaintiff fails to define its proposed  
21 relevant market with reference to the rule of reasonable interchangeability and cross-elasticity of  
22 demand." *Packaging Sys., Inc. v. PRC-Desoto Int'l, Inc.*, 268 F. Supp. 3d 1071, 1084 (C.D.  
23 Cal. 2017) (citations omitted). Here, Plaintiffs' tying market definition is both legally deficient  
24 and factually unsupported.

25 To start, Plaintiffs' attempt to invoke a single-brand product market fails as a matter of  
26 law. As part of an effort to minimize the fierce competition across all segments of luxury goods,  
27 including handbags, Plaintiffs allege the tying market is a market consisting of the Birkin and  
28

1 Kelly handbags—and absolutely nothing else.<sup>2</sup> Courts commonly reject such claims of a so-  
2 called single-brand market, and this Court should do so as well. “Single-brand markets are, at a  
3 minimum, extremely rare.” *Apple Inc. v. Psystar Corp.*, 586 F. Supp. 2d 1190, 1198 (N.D. Cal.  
4 2008). “Even where brand loyalty is intense, courts reject the argument that a single branded  
5 product constitutes a relevant market.” *Green Country Food Mkt., Inc. v. Bottling Grp., LLC*,  
6 371 F.3d 1275, 1282 (10th Cir. 2004). The reason for this skepticism is straightforward: a single  
7 brand rarely, if ever, has no economic substitutes, as would be required for the brand to  
8 constitute its own market. *Coronavirus Rep.*, 85 F.4th at 955-56.

9         The weight of authority, in the Ninth Circuit and elsewhere, has rejected the notion of a  
10 product market artificially drawn around a single brand. The exception when courts have  
11 entertained the idea of a single-brand market is in the limited world of derivative aftermarkets,  
12 “where demand for a good is entirely dependent on the prior purchase of a durable good in a  
13 foremarket,” *Epic Games, Inc. v. Apple, Inc.*, 67 F.4th 946, 976 (9th Cir. 2023) (emphasis  
14 omitted), *cert. denied*, 144 S. Ct. 682 (2024), and a manufacturer has concealed its aftermarket  
15 restrictions when consumers make their foremarket purchases. A prominent example from the  
16 case law is Kodak’s policies locking customers into Kodak-compatible copier parts, which arise  
17 only “once customers have purchased and are ‘locked in’” to one brand’s products and must  
18 purchase the brand’s parts in order for the primary product to function. *Psystar*, 586 F. Supp. 2d  
19 at 1197 (discussing *Eastman Kodak Co. v. Image Tech. Servs., Inc.*, 504 U.S. 451, 459 (1992));  
20 *see PSKS, Inc. v. Leegin Creative Leather Prods., Inc.*, 615 F.3d 412, 418 (5th Cir. 2010)  
21 (“possibility” of single-brand market “limited to” aftermarket). That rule has no application  
22 here, where Birkin and Kelly handbags are alleged to be the *primary* market and they have  
23 numerous economic substitutes.

24         Even if a single-brand market could theoretically exist outside the aftermarket context,  
25 however, Plaintiffs here have not pleaded sufficient facts to show that the Birkin and Kelly

---

26 <sup>2</sup> As the leading antitrust treatise explains, plaintiffs often unsuccessfully argue “that a price-  
27 quality class, a single brand, or even a single popular model within the defendant’s product line  
28 constitutes a relevant market.” Phillip E. Areeda & Herbert Hovenkamp, *Antitrust Law: An  
Analysis of Antitrust Principles and Their Application* ¶ 1736d1 (Aug. 2023, online).

1 handbags constitute their own market. Plaintiffs rely on (1) the Birkin Bag’s trademark (Compl.  
 2 ¶ 18); (2) Hermès’ general reputation as a highly regarded fashion brand (*id.* ¶¶ 15-17); and  
 3 (3) the Birkin Bag’s limited supply and high price (*id.* ¶¶ 21-25). None comes close to  
 4 establishing a separate market. As a matter of law, the existence of a *patent* is insufficient to  
 5 infer market power—so a trademark is certainly not enough to define an entire market. *See*  
 6 *Illinois Tool*, 547 U.S. at 45-46. Nor is consumers’ high regard for Hermès or the Birkin and  
 7 Kelly handbags sufficient: even “intense” “brand loyalty” is not enough. *Green Country*, 371  
 8 F.3d at 1282. As then-Judge Stephen Breyer explained, “virtually every seller of a branded  
 9 product has *some* customers who especially prefer its product,” but that does not alone show  
 10 “market power.” *Grappone, Inc. v. Subaru of New England, Inc.*, 858 F.2d 792, 797 (1st Cir.  
 11 1988). Moreover, “[t]he consumers do not define the boundaries of the market; the products or  
 12 producers do.” *Coronavirus Rep. v. Apple Inc.*, No. 21-cv-05567, 2021 WL 5936910, at \*11  
 13 (N.D. Cal. Nov. 30, 2021) (citation omitted). Any suggestion that the Birkin and Kelly handbags  
 14 have *no* economic substitutes is patently wrong. And Plaintiffs’ vague references to the Birkin  
 15 Bag’s price and supply, which are characteristic of a wide range of competing luxury products,  
 16 are not enough to establish a single-brand market either. *See Rebel Oil*, 51 F.3d at 1433.

17 Plaintiffs’ Complaint is utterly lacking in the kind of allegations that would be required to  
 18 make this the exceptional case of a single-brand market. Like the plaintiffs in *Coronavirus*  
 19 *Reporter*, who raised similarly deficient allegations of a single-brand market, Plaintiffs here do  
 20 not “attempt to demonstrate the cross-elasticity” of demand for the Birkin Bag. 85 F.4th at 956.  
 21 And like the plaintiffs in *Coronavirus Reporter*, their complaint “fails to draw the market’s  
 22 boundaries to ‘encompass the product at issue as well as all economic substitutes for the  
 23 product.’” *Id.* (citation omitted). Indeed, Plaintiffs nowhere explain why the tying product  
 24 market includes the Birkin and Kelly handbags—but excludes *all* other handbags (including  
 25 other bags made by Hermès, like the Constance Bag). *See* Compl. ¶ 35. Because “the alleged  
 26 markets lack sufficient clarity to state an antitrust claim plausibly,” Plaintiffs’ Sherman Act  
 27 claim should be dismissed. *Coronavirus Rep.*, 85 F.4th at 956.

28

1                   **2. The Complaint Does Not Define A Viable Tied Product Market In**  
2                   **Which Competitive Effects Can Be Assessed**

3                   Plaintiffs' Sherman Act claim fails for the independent reason that Plaintiffs do not  
4                   define a viable *tied* product market. If anything, the deficiencies in Plaintiffs' allegations  
5                   regarding the tied market are even more glaring than for the tying product market.

6                   Just as Plaintiffs must properly define the tying product market to state a tying claim,  
7                   they must also properly define the *tied* product market. *See Packaging Sys.*, 268 F. Supp. 3d at  
8                   1083-84 (complaint must define “relevant market for both the tying product and the tied product”  
9                   and finding that “ambiguities make Plaintiff’s market definition unsustainable on its face”);  
10                  *Sidibe*, 4 F. Supp. 3d at 1176 (similar). This is a critical step, because the harm that tying law  
11                  seeks to prevent is foreclosure of competition *in the tied market*. *See supra* at 4-5. Absent a  
12                  proper definition of the tied market, courts cannot determine whether the plaintiff has properly  
13                  shown that the tying arrangement affects a “not insubstantial volume of commerce in the tied  
14                  product market.” *Rick-Mik Enters.*, 532 F.3d at 971 (citation omitted); *Sidibe*, 4 F. Supp. 3d at  
15                  1178 (Plaintiff must allege “facts showing a significant negative impact on competition in the  
16                  tied product market.” (citation omitted)).

17                  Here, Plaintiffs' definition of the tied product market is facially unsustainable. Their  
18                  Complaint appears to allege that the tied product market is “Ancillary Products,” which they  
19                  define to include “any products sold at Hermès branded retail boutiques except for any Birkin,  
20                  Kelly, or Constance branded handbag.” Compl. ¶ 35. To start, this market definition does not  
21                  appear to reach beyond Hermès—even though Hermès faces clear competition from different  
22                  sellers on the wide range of products it sells. Courts commonly use “judicial experience and  
23                  common sense” to reject such “artificial” market definitions that are “contorted to meet [the  
24                  plaintiff’s] litigation needs.” *Hicks v. PGA Tour, Inc.*, 897 F.3d 1109, 1121 (9th Cir. 2018)  
25                  (citation omitted). Plaintiffs' Hermès-only market of accessories and other luxury goods defies  
26                  common (not to mention economic) sense, and is plainly unsustainable.

27                  But even if Plaintiffs intended to define the market to include not just Hermès products,  
28                  but some undefined class of similar products sold by other luxury brands, their argument is just

1 as flawed because it seeks to combine multiple distinct products into one single market.  
 2 Plaintiffs’ market definition includes everything from “home furnishings” to “jewelry” to  
 3 “apparel” to “fashion accessories” and more besides. Compl. ¶ 15. As explained above, “[t]he  
 4 principle most fundamental to product market definition is cross-elasticity of demand for certain  
 5 products or services”—meaning, “the extent to which consumers view ‘two products [as]  
 6 be[ing] reasonably interchangeable or substitutable’ for one another.” *Coronavirus Rep.*, 85  
 7 F.4th at 955 (first alteration added) (citation omitted). Plaintiffs offer no explanation for how  
 8 goods as diverse as home furnishings and jewelry could be reasonable substitutes for each  
 9 other—and no such explanation would be economically plausible.

10 Treating all Hermès products (apart from the Birkin/Kelly/Constance Bags) as part of one  
 11 single market makes no sense. Hermès faces different competitors depending on the kind of  
 12 product; for handbags, it may face one kind of competitive pressure, while the pressure it faces  
 13 with respect to home furnishings is completely different. Yet Plaintiffs’ theory would mean that  
 14 Cartier’s competition with Hermès for jewelry shoppers somehow would make it a competitor  
 15 for shoes too. Customers in turn would be expected consider jewelry interchangeable with  
 16 shoes. Plaintiffs’ contrived effort to create a single market from of an array of obviously distinct  
 17 products fails as a matter of law—and fundamental economics.

### 18 3. Plaintiffs Do Not Plead Facts Showing Antitrust Standing

19 Even if Plaintiffs could otherwise satisfy the elements of tying claim, their Sherman Act  
 20 claim would fail for lack of antitrust standing. To plead an actionable claim under the Sherman  
 21 Act, Plaintiffs must allege sufficient facts to establish that they have suffered “antitrust injury.”  
 22 *See Atl. Richfield Co. v. USA Petroleum Co.*, 495 U.S. 328, 334-35 (1990); *Somers v. Apple, Inc.*,  
 23 729 F.3d 953, 963-64 & n.5 (9th Cir. 2013) (noting that “antitrust injury” is also an element of  
 24 Section 2 monopolization claim). This demands allegations that the defendant’s unlawful  
 25 conduct caused “an injury of the type the antitrust laws were intended to prevent and that flows  
 26 from that which makes defendants’ acts unlawful.” *Somers*, 729 F.3d at 963 (citation omitted).  
 27 Plaintiffs must therefore allege more than that they have suffered harm, but “specific facts” of  
 28 *harm to competition* in the market. *Id.* at 965, 966; *see Host Int’l, Inc. v. MarketPlace, PHL*,

1 *LLC*, 32 F.4th 242, 249-50 (3d Cir. 2022) (requiring that “challenged conduct affected the prices,  
2 quantity or quality of goods or services, not just [the plaintiff’s] own welfare” (alteration in  
3 original) (citation omitted)). Plaintiffs’ Complaint fails this requirement too.

4 For a tying claim, antitrust injury means harm to “competition in the market for the tied  
5 product”—namely, the foreclosure or threatened foreclosure of rivals, to the detriment of  
6 consumers. *Rick-Mik Enters.*, 532 F.3d at 971; *see Blough*, 574 F.3d at 1089 (asking whether  
7 plaintiff had shown sufficient “foreclos[ure] to competitors by the tie” (citation omitted)). Here,  
8 Plaintiffs’ Complaint is utterly devoid of factual allegations regarding the potential or actual  
9 threat of foreclosure of rivals in the tied market.

10 Rather than allege harm to the competitive process in the tied market, Plaintiffs assert  
11 that the alleged tie has (1) “effectively increase[d] the price of Birkin handbags” for Plaintiffs  
12 and (2) hindered Plaintiffs’ ability to “choose among” luxury items “independently from their  
13 decision to purchase Birkin handbags.” Compl. ¶¶ 26, 50. Neither is sufficient under controlling  
14 case law. As to the first, the Supreme Court has explained that “‘merely enhancing the price of  
15 the tying product’ . . . does not” cause harm to competition. *Brantley v. NBC Universal, Inc.*,  
16 675 F.3d 1192, 1199 (9th Cir. 2012) (quoting *Jefferson Parish Hosp. Dist. No. 2 v. Hyde*, 466  
17 U.S. 2, 14 (1984)). This makes sense because, again, the relevant injury in a tying arrangement  
18 is not any increase in price in the tying product (over which the defendant is alleged to have  
19 market power regardless of the tie), but “reduced competition in the market for *the tied product*.”  
20 *Rick-Mik Enters.*, 532 F.3d at 971-72 (emphasis added). And as to the second, the Ninth Circuit  
21 has held that a tie’s “effect of reducing consumers’ choices” for which products to purchase  
22 “does not sufficiently allege an injury to competition” because it is “fully consistent with a free,  
23 competitive market.” *Brantley*, 675 F.3d at 1202; *see also Blough*, 574 F.3d at 1090 (requiring  
24 “foreclosure of competition” in tied market (citation omitted)).

25 At bottom, antitrust law requires Plaintiffs to allege not just harm to themselves, but harm  
26 to the competitive process—and they utterly fail to do so. This deficiency is understandable,  
27 because there is no plausible case that Hermès has harmed competition. The ancillary products  
28 that Plaintiffs claim they may be forced to buy in order to obtain a Birkin Bag are independently

1 desirable items. Accordingly, even on Plaintiffs’ version of the facts, there is no harm to  
2 competition resulting from the alleged tie.

3 **4. Plaintiffs Do Not Plead Willful Maintenance Or Acquisition Of**  
4 **Monopoly Power As Required By Section 2**

5 Plaintiffs’ Sherman Act claim suffers from an additional flaw: it fails to allege the willful  
6 maintenance or acquisition of monopoly power. A plaintiff alleging tying under Section 2 must  
7 also plead facts establishing (1) “monopoly power in the relevant market” and (2) “the willful  
8 acquisition or maintenance of that power as distinguished from growth or development as a  
9 consequence of a superior product, business acumen, or historic accident.” *Epic Games*, 67  
10 F.4th at 998. Plaintiffs fail to define a relevant market, as explained above. *See supra* at 6-10.  
11 They also fail to allege that Hermès has monopoly power in any well-defined market. And they  
12 also flunk the second prong because they plead *no* facts showing that Hermès willfully acquired  
13 or maintained a monopoly through anticompetitive conduct.

14 To be sure, Plaintiffs allege—incorrectly—that Hermès has a monopoly in the (contrived)  
15 market for Birkin Bags. But under the allegations in Plaintiffs’ Complaint, that supposed  
16 monopoly resulted from the combination of: (a) the success of Hermès’ brand; (b) the reputation  
17 associated with the Birkin Bag as a result of “[t]he intensive labor and craftsmanship and high-  
18 quality leathers” required; and (c) Hermès’ trademarks for the Birkin and Kelly handbags.  
19 Compl. ¶¶ 20-22. None of this conduct is remotely anticompetitive, and Plaintiffs do not allege  
20 otherwise. *Coronavirus Rep.*, 85 F.4th at 954-55; *see* Phillip E. Areeda & Herbert Hovenkamp,  
21 *Antitrust Law: An Analysis of Antitrust Principles and Their Application* ¶ 781 (Aug. 2023,  
22 online) (“[P]roduct superiority is one of the objectives of competition and cannot be wrongful,  
23 even for a monopolist.”). Absent allegations of unlawful monopolization in the tying market for  
24 Birkin Bags, Plaintiffs must allege that Hermès willfully acquired or maintained monopoly  
25 power in the tied market for so-called Ancillary Products. But their Complaint says absolutely  
26 nothing on that subject either. Plaintiffs’ failure to properly allege the necessary elements of a  
27 Section 2 claim is another reason why this case should be dismissed.

28

1           **B. Plaintiffs' State Law Claims Also Fail**

2                   **1. Plaintiffs Do Not State A Claim Under The Cartwright Act**

3           Plaintiffs also misunderstand the Cartwright Act. The standard for unlawful tying under  
 4 the Cartwright Act mirrors the elements of a Sherman Act claim, requiring “(1) a tying  
 5 agreement, arrangement or condition existed whereby the sale of the tying product was linked to  
 6 the sale of the tied product or service; (2) the party had sufficient economic power in the tying  
 7 market to coerce the purchase of the tied product; (3) a substantial amount of sale was affected in  
 8 the tied product; and (4) the complaining party sustained pecuniary loss as a consequence of the  
 9 unlawful act.” *Morrison v. Viacom, Inc.*, 78 Cal. Rptr. 2d 133, 137 (Ct. App. 1998)<sup>3</sup>; *see*  
 10 *Packaging Sys.*, 268 F. Supp. 3d at 1083 (Sherman Act analysis generally “mirror[s] that of the  
 11 Cartwright Act”). Consistent with federal precedent under the Sherman Act, courts routinely  
 12 dismiss Cartwright Act claims that fail to properly allege the relevant markets underlying the  
 13 tying claim. *See, e.g., Psystar*, 586 F. Supp. 2d at 1203-04 (rejecting Cartwright Act claim for  
 14 failure to “plead relevant antitrust markets”); *Packaging Sys.*, 268 F. Supp. 3d at 1083 (same).  
 15 Because Plaintiffs have failed to properly define the markets, this Court should dismiss their  
 16 Cartwright Act claims.

17           Plaintiffs' Cartwright Act claims also fail because they rest solely on Hermès' conduct,  
 18 and the Cartwright Act “does not address unilateral conduct.” *Dimidowich v. Bell & Howell*, 803  
 19 F.2d 1473, 1478 (9th Cir. 1986); *Beverage v. Apple, Inc.*, --- Cal. Rptr. 3d ----, 2024 WL  
 20 1794410, at \*5 (Ct. App. Apr. 25, 2024) (“A violation of the Cartwright Act” requires concerted  
 21 action and ““a corporation cannot conspire with itself or its agents for purposes of the antitrust  
 22 laws.”” (citation omitted)); *Asahi Kasei Pharma Corp. v. CoTherix, Inc.*, 138 Cal. Rptr. 3d 620,  
 23 627 (Ct. App. 2012) (“The Cartwright Act bans combinations, but single firm monopolization is  
 24 not cognizable under the Cartwright Act.”). Plaintiffs cannot challenge Hermès' unilateral  
 25 conduct under the Cartwright Act. *See Psystar*, 586 F. Supp. 2d at 1203-04 (dismissing  
 26

27 \_\_\_\_\_  
 28 <sup>3</sup> California Business and Professional Code section 16727 requires either of elements (2) or (3),  
 in addition to (1) and (4). *Morrison*, 78 Cal. Rptr. 2d at 137.
